The U.S Government's actual transcripts of the 1935 Franklin County Moonshine Conspiracy Trial were accidently destroyed by nature several years/months after the trail had concluded. Transcripts of the government's Grand Jury testimony were not lost. The only written records that still exist are those written by reporters from Franklin County's nearby daily newspapers. Each story appearing in "The Roanoke Times," along with the story's headlines, were retyped for this publication.

Before Alabama became a state, it was already being occupied. Many Indians lived here and most were sent west to Oklahoma by Andrew Jackson amidst the "Trail of Tears." Many Caucasian people settled Alabama after coming here with Andrew Jackson to fight the Creeks and Choctaws. After that campaign reached conclusion, many soldiers just stayed. East Jefferson County became the home of some, plus others came in wagon trains as squatters to Springville, Chalkville, and Trussville. After one generation, these communities plus dozens of others were populated by adventure seeking people from the Northern areas. Benton Berryhill was one such immigrant. He was killed as a tree being cut fell on him, leaving a grown married son who fostered Franklin, Jeb, and Jenny. By the time these children were older teens, the Civil war had begun and soon would engulf all of the Southern states and involved thousands of Rebel and Yankee soldiers. It is understandable that feelings ran so high, and boys by the score were soon off at war. Jeb Berryhill was high strung and a Confederate through and through. He was one of the first Jefferson County boys to enlist. Later, Franklin, who hated slavery, the war and the feelings of his neighbors, felt obligated to also join. He started as a private in the Confederacy and fought in scores of conflicts and major battles. He was also indoctrinated as surgeons helper and later became a full fledged doctor as well as a fighting soldier. Franklin survived the war, but Jeb did not. Their father traveled to Champions Hill in Mississippi to retrieve Jeb's body. Franklin had risen to the rank of Captain Surgeon. After the bloody, death filled, tragic war was finished, Franklin, convinced he wanted to become a civilian doctor, finished his education attained his goal, and then helped to establish Birmingham, the largest city in the state. This Novel describes most of the major battles of the awful war. It follows the Berryhill family from their arrival in Jefferson County up until Franklin's old age. Read about the bloody battles of Gettysburg, Shiloh, Chickamauga, Vicksburg, and Chattanooga. Plus many others. Learn of Robert E. Lee, Braxton Bragg, Nathan Bedford Forrest, Fighting Joe Wheeler, Jeb Stuart, Stonewall Jackson, and James Longstreet. Plus, Ulysses Grant, Old Brains Halleck, William T. Sherman, Abraham Lincoln and his Emancipation Proclamation, William Rosecrans, Daniel McCook, John Schofield, and George Armstrong Custer. By reading "My Sword for a Scalpel" the Civil War enthusiast can renew previous learning. Novice readers can hear about what happened at various important places. The Novel is generally entertaining plus informative. Hundreds of places and men were actual participants while a few others were added for emphasis and explanation.

Set against the tragic events of the Cherokees' removal from their traditional lands in North Carolina to Indian Territory between 1835-1838, Mountain Windsong is a love story that brings to life the suffering and endurance of the Cherokee people. It is the moving tale of Waguli (Whippoorwill) and Oconeechee, a young Cherokee man and woman separated by the Trail of Tears. Just as they are about to be married, Waguli is captured by federal soldiers and, along with thousands of other Cherokees, taken west, on foot and then by steamboat, to what is now eastern Oklahoma. Though many die along the way, Waguli survives, drowning his shame and sorrow in alcohol. Oconeechee, among the few Cherokees who remain behind, hidden in the mountains, embarks on a courageous search for Waguli. Robert J. Conley makes use of song, legend, and historical documents to weave the rich texture of the story, which is told through several, sometimes contradictory, voices. The traditional narrative of the Trail of Tears is told to a young contemporary Cherokee boy by his grandfather, presented in bits and pieces as they go about their everyday chores in rural North Carolina. The telling is neither bitter nor hostile; it is sympathetic by unsentimental. An ironic third point of view, detached and often adversarial, is provided by the historical documents interspersed through the novel, from the text of the removal treaty to Ralph Waldo Emerson's letter to the president of the United States in protest of the removal. In this layering of contradictory elements, Conley implies questions about the relationships between history and legend, storytelling and myth-making. Inspired by the lyrics of Don Grooms's song "Whippoorwill," which open many chapters in the text, Conley has written a novel both meticulously accurate and deeply moving.

The Cherokee Removal of 1838-1839 unfolded against a complex backdrop of competing ideologies, self-interest, party politics, altruism, and ambition. Using documents that convey Cherokee voices, government policy, and white citizens' views, Theda Perdue and Michael D. Green present a multifaceted account of this complicated moment in American history. The second edition of this successful, class-tested volume contains four new sources, including the Cherokee Constitution of 1827 and a modern Cherokee's perspective on the removal. The introduction provides students with succinct historical background. Document headnotes contextualize the selections and draw attention to historical methodology. To aid students' investigation of this compelling topic, suggestions for further reading, photographs, and a chronology of the Cherokee removal are also included.

analyses the Cherokee tribe and concentrates on their minority status in the United States. The author analyses the Trail of Tears and their situation until today. The work focuses on the Trail of Tears and comments on the Indian Removal Act, adds reports of contemporary witnesses and examines the life of the Cherokees in reservations and cities. The Cherokee Tribe still represents a minority in the US and it is questionable which position they have in American society today.

This first scholarly edition of the writings of a unique Native American woman details an extraordinary life in a combination of genres including oral history, ethnography, and western adventure sketches. Narcissa Owen was of mixed Cherokee and Scots-Irish descent and the daughter of a leader of the Old Settlers (those Cherokees who moved west prior to their subsequent forced removal by the U.S. government, the notorious Trail of Tears). The Memoirs reveal a fascinating and complex 19th-century woman—an artist, music teacher, storyteller, Confederate slave owner, Washington socialite, wife of a white railroad executive, widow, and mother of the first Native American U.S. Senator, Robert L. Owen, Jr. Her writings interpret the history of the tribe and describe the cultural upheaval of the Cherokees moving west. They also offer a glimpse into antebellum, Civil War, and Reconstruction American life. This edition provides a wealth of background information including a biographical preface, chronology of Owen's life, genealogy, and textual footnotes. In addition, an introductory essay places the Memoirs in the context of Owen's predecessors and contemporaries, including Cherokee cultural and literary tradition, the larger Indian historical/literary context, and women's writing of the late 19th and early 20th centuries.

Cherokee people like all other Native American Indian tribes possess a huge oral history. Before the time of written words, the history, customs and skills of a tribe were passed down through word-of-mouth and storytelling. Today, it is still an important part of Cherokee life. Elder tribe members use stories to teach morals and culture to children and others while keeping a rich history alive. Storytelling also allows people to get to know one another. The stories of the Cherokee people make us unique, but stories will be known only as long as they are told. When someone ceases to tell a story, part of our cultural knowledge is gone. Under old traditional law, these tales or stories were only told to fellow Cherokee or other Indian People. Many of these stories contained within this book were recorded by James Mooney who lived with the Cherokee in the 1800's. These include animal stories, creation myths, legends, and ghost stories, as well as, historical events such as the Trail of Tears. These stories have been passed from generation to generation and as with tradition, and have been left as much intact as possible. I learned many of these stories from my grandfather as a child, just as other Cherokee children did. As with tradition, these stories are now shared with you, to go forward and share with a future generation. In this collection, you will find such stories as Origin of the Pleiades and the Pine, What Became Of the Rabbit, The Rabbit Dines the Bear, The Rabbit Escapes from the Wolves, The Rattlesnake's Vengeance, The Red Man and the Uktena, The Eagle's Revenge, Agan-uni'tsi's Search for the Uktena, The Hunter and Selu, The Snake Boy, The First Fire, The Lost Cherokee and many, many more.

Enacting History is a collection of new essays exploring the world of historical performances. The volume focuses on performances outside the traditional sphere of theatre, among them living history museums, battle reenactments, pageants, renaissance festivals, and adventure-tourism destinations. This volume argues that the recent surge in such performances have raised significant questions about the need for, interest in, and value of such nontraditional theater. Many of these performances claim a greater or lesser degree of historical "accuracy" or "authenticity," and the authors tease out the representational and historiographic issues related to these arguments. How, for instance, are issues of race, ethnicity, and gender dealt with at museums that purport to be accurate windows

into the past? How are politics and labor issues handled in local- or state-funded institutions that rely on volunteer performers? How do tourists' expectations shape the choices made by would-be purveyors of the past? Where do matters of taste or censorship enter in when reconciling the archival evidence with a family-friendly mission? Essays in the collection address, among other subjects, reenactments of period cookery and cuisine at a Maryland renaissance festival; the roles of women as represented at Minnesota's premiere living history museum, Historic Fort Snelling; and the Lewis and Clark bicentennial play as cultural commemoration. The editors argue that historical performances like these—regardless of their truth-telling claims—are an important means to communicate, document, and even shape history, and allow for a level of participation and accessibility that is unique to performance. *Enacting History* is an entertaining and informative account of the public's fascination with acting out and watching history and of the diverse methods of fulfilling this need.

A sixth-generation North Carolinian, highly-acclaimed author John Ehle grew up on former Cherokee hunting grounds. His experience as an accomplished novelist, combined with his extensive, meticulous research, culminates in this moving tragedy rich with historical detail. The Cherokee are a proud, ancient civilization. For hundreds of years they believed themselves to be the "Principle People" residing at the center of the earth. But by the 18th century, some of their leaders believed it was necessary to adapt to European ways in order to survive. Those chiefs sealed the fate of their tribes in 1875 when they signed a treaty relinquishing their land east of the Mississippi in return for promises of wealth and better land. The U.S. government used the treaty to justify the eviction of the Cherokee nation in an exodus that the Cherokee will forever remember as the "trail where they cried." The heroism and nobility of the Cherokee shine through this intricate story of American politics, ambition, and greed. B & W photographs
