In this sparkling collection of nineteen stories, the bestselling author of

Slammerkin returns to contemporary affairs, exposing the private dilemmas that result from some of our most public controversies. A man finds God and finally wants to father a child-only his wife is now forty-two years old. A coach's son discovers his sexuality on the football field. A roommate's bizarre secret liberates a repressed young woman. From the unforeseen consequences of a polite social lie to the turmoil caused by the hair on a woman's chin, Donoghue dramatizes the seemingly small acts upon which our lives often turn. Many of these stories involve animals and what they mean to us, or babies and whether to have them; some replay biblical plots in modern contexts. With characters old, young, straight, gay, and simply

confused, Donoghue dazzles with her range and her ability to touch lightly but delve deeply into the human condition.

She went on to work with one of the the icons of modern feminism, Bella Abzug, and with civil rights groups. Her story is the story of an era when women could, at last, shed the feminine mystique and become the woman they had buried inside themselves.

Lightning strikes the chopper. An emergency landing is their only hope... The forced landing strands Dan Egan and Natalie Giroux on a remote island in Courage Bay. Being isolated with Dan both frightens and excites Natalie. He's the kind of stubborn, fearless man she

tries to avoid, yet she finds herself attracted. Maybe it's the brush with death...or the way Dan is struggling with his own desire for her. But she may as well admit it--when their helicopter went down, so did all of Natalie's defenses.

Tough Fronts takes the difficult issues in urban education head on by putting street-savvy students at the forefront of the discussion on how to best make successful changes for inner city schools. Individual chapters discuss scholarly depictions of black America, the social complexity of the teacher-student relationship, individual success stories of 'at-risk' programs, popular images of urban students, and implications for education policy. With close attention to the voices of individual students, this engaging book gives vitality and legitimacy

to arguments for school changes that have been lacking in previous discussions. *Touch of the Wolf* Hachette UK It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to

help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing

Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.
