2017 Jeep Grand Cherokee Limited Trailer Brake Harness ...

Installing a brake controller involves disconnecting the vehicle battery, mounting the brake controller onto dash and plugging the unit in with a vehicle-specific wiring harness. If your vehicle is not equipped with a plug-and-play

harness, you can also splice in wiring for connecting a brake controller. In this guide, we cover step-by-step how to install a brake controller.

Jeep Gladiator JT Truck How to Connect a Trailer Brake ...

How to Wire Trailer Brake Controller on 2006 Jeep Commander – Your 2006 Jeep Commander can tow up to 7,200 pounds if equipped with the V8 engine and a proper towing package. The U.S. Department of Transportation requires a trailer of this size to have its own braking system.

Liberty ...
Various models and trim
levels are capable of
different towing capacities,
so check the owner's
manual for your particular
vehicle to determine the
maximum tow capacity for
your Jeep. Because the
vehicle comes equipped
with a factory tow hitch

connector, wiring a Jeep
Liberty for a trailer is a
straightforward project.
Trailer Brake Wiring Guide
Jeep
I've installed the MOPAR
7-way harness, which
provides the blue wire for
the feed for the trailer
brakes, and I'm aware that
the red and black wires for
the brake controller will go
to the hot & ground on the
battery, however, I'm
unable to find a trigger/feed
wire for the actual brake
controller itself.
