WHAT do you know about brain injury? How

does it happen? How does it affect one ' s life? What does it feel like? How long does it take to recover from a Traumatic Brain Injury? Will a survivor ever be the same again? WHAT are your beliefs about the future of someone who ' s sustained a Traumatic Brain Injury? The answers to these questions are as broad and unique as the individual ' s who have sustained brain injuries. " In my own experience as a TBI survivor, I have come to understand that the degree to which we recover can be measured not only by our physical reality, but, by our personal and caregiver ' s belief systems; after all, if, we are cognitively and physically able, what we believe, shapes our every outcome! " Kay Pratt. In this Book, TBI survivors share the answers to these questions and more through the voice of their experience. It is with sincere hope that by doing so, your

### A Local Society in Transition Rowman & Littlefield

This book explores the recent trend toward the transformation of religious symbols and practices into culture in Western democracies. Analyses of three legal cases involving religion in the public sphere are used to illuminate this trend: a municipal council chamber; a town hall; and town board meetings. Each case involves a different national context—Canada, France and the United States—and each illustrates something interesting about the shape-shifting nature of religion, specifically its flexibility and dexterity in the face of the secular, the religious and the plural. Despite the differences in national contexts, in each instance religion is transformed into culture

or heritage by the courts to justify or excuse its presence and to distance the state from the possibility that it is violating legal norms of distance from religion. The cultural practice or symbol is represented as a shared national value or activity. Transforming the ‘ Other ’ into ‘ Us ’ through reconstitution is also possible. Finally, anxiety about the ‘ Other ’ becomes part of the story of rendering religion as culture, resulting in the impugning of anyone who dares to question the putative shared culture. The book will be essential reading for students, academics and policy-makers working in the areas of sociology of religion, religious studies, socio-legal studies, law and public policy, constitutional law, religion and politics, and cultural studies.

Keep Any Promise Gnosophia Publishers  
Sefer Yetzirah (the "Book of Creation"), one of the earliest Kabbalistic works, teaches that the letters of the Hebrew alphabet are the building blocks of creation. Each letter has its own significance, spiritual energy, and reason for existing. In this revised version of Rabbi Ginsburgh's best-selling *The Alef-Beit, Jewish Thought Revealed Through the Hebrew Letters*, he explains how each letter's name, form, and numerical value play a role in the creative process of the cosmos. He draws on the understandings of the well-known mystic, the Baal Shem Tov, in depicting how each letter has nine dimensions, with impact in three worlds--the physical, spiritual, and Divine. In every letter there is the true completion of the soul, a chance to unite consciousness with the code of creation. Includes glossary, footnotes, and index.

The contributors review the expansion of Mormonism, the emotional and social contexts of its historic and contemporary manifestations, the distinction between 'Utah' Mormons and the Reorganized Church of Jesus Christ of Latter Day Saints, and issues in Mormon feminism, concluding with a valuable review of the sources
