THERE IS NO STOPPING IT. THE CLOUD IS ARMAGEDDON, STEAMROLLING THE WORLD AT A WALKING PACE. Day 0. From the wreckage of a research facility in Switzerland, a plume of toxic smoke and ash pours into the sky, forming an impenetrable cloud that is slowly smothering the world in darkness. As Europe disappears beneath the Cloud, a squad of United States marines are sent

on a desperate mission to find out what went wrong, and how to undo it before it's too late. Venturing into a cold, dark world, the marines must travel deep under the Cloud, with no comms, no backup, and no idea of what they will face. Day 89. Half a world away, the Cloud has reached the East Coast of the US. With nowhere to run and no hope of survival, the American people have descended into madness, turning on themselves and each other. From the sidelines, an old Tennessee sheriff watches as his country unravels. But he can't bring himself to take the easy way out. Quitting isn't in his DNA. So when one of his deputies asks him to help protect her family, he leads them west, chasing a miracle--a rumor of an old nuclear bunker that just may be their only hope for survival. Because if the Cloud doesn't kill them, what's hiding in the dark will. In his thrilling debut novel *Monstre*, author Duncan Swan crafts a relentless, terrifying, genre-bending tale of courage, desperation, and redemption that shows just how fragile our civilization is, and how far we will go to survive

Some men weren't born to follow... In the 23rd Century, science's triumph in prolonging life comes at a terrible cost. Widespread famine and overpopulation spurred the creation of the Leader Party, a Malthusian-inspired dictatorship that controls the world with a ceaseless grip. Though a mysterious rebel group, The Underground, works to dismantle the police state, they've been dealt a potentially fatal blow—a traitor has infiltrated their ranks. Now, the success of a crucial operation, and perhaps the entire resistance, lies in the hands of one captured rebel, Petr Clayborne. Raised by the state after his father was executed for treason, Petr never loved the Leader Party. But unlike his dad, he didn't see any point in opposing it. That all changed when he found out he and his wife Alda would soon

have a son of their own. Under the Population Code, unsanctioned birth is a crime punishable by death—for the parents...and the child. Captain Kurt Hartog, the Population Control Corps' most ruthless leader, will stop at nothing to crush The Underground. His brutal interrogation threatens Petr's sanity, and his life. But Petr guards the rebellion's most powerful secret. For the sake of humanity, for the sake of his son, he must be willing to do anything to protect it.

Rubber toy vehicles seemed to suddenly appear on the scene in dime stores in 1935 and almost as suddenly disappear in 1955, when American-made plastic toys became much more affordable. These fascinating rubber toys were produced by major companies Auburn Rubber Company and Sun Rubber Company, as well as smaller companies like the Judy Company, Gift Craft, Glolite, Viceroy, and Rubber Toys Unique. Author Dave Leopard, long-time collector of American-made toy cars and trucks who specializes in rubber toy vehicles, began researching this subject in 1987 and continues to obtain new items and information, which he has included in this collector's guide. Leopard presents a history of rubber toys and describes the American dime store where these toys were first available. He points out model differences and uses a numbering system to identify the vehicles in the book. The Auburn and Sun Rubber Companies have complete reviews, and pre-war American manufacturers as well as toys produced overseas are given coverage. There are also original catalog pages from Auburn and Sun, and a complete list of rubber toys featured in the book by manufacturer and type. Current collector values are given for each item featured. From mother-daughter team Hillary Clinton and Chelsea

Clinton comes a celebration of family, tradition and discovery, and an ode to mothers, grandmothers and the children they love. Grandma Dorothy shared her love of gardens with her daughter, Hillary, and her granddaughter, Chelsea. She taught them that gardens are magical places to learn, exciting spaces for discovery, quiet spots to spend time with family and beautiful areas to share stories and celebrate special occasions. But most of all, she taught them that in her gardens, her love grew and blossomed. In this inspiring and heartwarming mother-daughter story, Hillary Clinton and Chelsea Clinton team up to show readers how sharing the things we love with the people we love can create powerful, everlasting bonds between generations. Praise for Grandma's Gardens: "A deeply affectionate tribute to the bounty of nature and the love of gardening." --Publishers Weekly "Filled with mindfulness, the story inspires children to reflect on family and keep memories alive." --Booklist Rhys Davies MIT Press

This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, Angels and Demons in Art will delight readers with an interest in art or religious symbolism.
