For decades fruit growers have sprayed their trees with toxic chemicals in an attempt to control a range of insect and fungal pests. Yet it is possible to grow apples responsibly, by applying the intuitive knowledge of our great-grandparents with the fruits of modern scientific research and innovation. Since The Apple Grower first appeared in 1998, orchardist Michael Phillips has continued his research with apples, which have been called "organic's final frontier." In this new edition of his widely acclaimed work, Phillips delves even deeper into the mysteries of growing good fruit with minimal inputs. Some of the cutting-edge topics he explores include: The use of kaolin clay as an effective strategy against curculio and borers, as well as its limitations Creating a diverse, healthy orchard ecosystem through understory management of plants, nutrients, and beneficial microorganisms How to make a small apple business viable by focusing on heritage and regional

varieties, value-added products, and the "community orchard" model The author's personal voice and clear-eyed advice have already made The Apple Grower a classic among small-scale growers and home orchardists. In fact, anyone serious about succeeding with apples needs to have this updated edition on their bookshelf.

**The Apple Grower** Simon and Schuster

In 1969, the Camaro with the SS package took Chevy Camaro performance and styling to another level. First, the Camaro carried updated sheet metal for an aggressive and eye-catching appearance, and the ultra-high-performance 427 big-block engines were available for the first time. As history proved, 1969 was the pinnacle of performance and styling for the first-generation Chevy Camaro. Author and muscle car expert Robert Kimbrough provides a comprehensive examination of the all-time classic 1969 Camaro SS in Volume No. 4 of CarTech's In Detail series. He delves into the design, manufacturing, and equipment of Chevrolet's premier pony car. For the first time in its history, the 1969 Camaro SS had a full slate of high-performance small-blocks as well as big-blocks to conquer the competition on the street and track. The engines included the 350, 375-hp 396, and 425-hp COPO 427 Camaros. The Camaro SS made such an impression, that it became the Indy 500 Pace Car once again in 1969. All In Detail Series books include an introduction and historical overview, an explanation of the design and concepts involved in creating the car, a look at marketing and promotion, and an in-depth study of all hardware and available options, as well as an examination of where the car is on the market today. Also included is an appendix of paint and option codes, VIN and build-tag decoders, as well as production numbers.

Today, a 1970 Hemi Cuda can change hands for as much as a quarter of a million dollars. But when it was introduced, the Barracuda was just a car, and it was Joe Oldham's job to beat the daylights out of it. A tell-all from the man who tested the best, this book delves into the notes Oldham made on the cars he vetted for some of the top car magazines. Here are the photos (including outtakes) and the hard cold facts on muscle cars from the 1964 GTO to the 1976 Trans Am 455 HO--twenty-four in all. The 1970 Buick Gran Sport GSX, Oldham notes, was "the best handling muscle car we ever tested." The 1968 Plymouth Road Runner, on the other hand, was "just a car that didn't run very well"--despite its 426 Hemi. Today, people might know the articles Oldham wrote, and they might know the performance numbers he got. But how he did those things was an untold story. This behind-the-scenes book is a close-up look at what it was like to live in the muscle car era and to help create the myth that still lives on today. The list of reviewed cars includes: 1962 421 Super Duty Pontiac Catalina 1963 409 Chevrolet Biscayne 1968 Pontiac Firebird

Has any American car captured the balance between performance and style more perfectly than Ford's Mustang? Instantly recognizable and universally respected, the Mustang sets the standard for American automotive performance and innovation.

Marking the 40th anniversary of America's favorite pony car, Mustang; Forty Years is a complete retrospective, from the postwar fixation on style and speed that spawned the Ford Mustang, to the completely new model waiting just around the corner. Covering every car, including the stock Ford models, Shelby GTs, Cobras, Bosses, Mach 1s, and many more, with extensively researched text and brilliant color photography, David Newhardt and Randy Leffingwell present the most comprehensive Mustang book available. Filled with company history, statistics, engine specifications, design changes, and personal stories from the board room to the race track, Mustang - Forty Years is a book for Mustang fans of all ages to enjoy for the next forty years and beyond! Award-winning writer and photographer, author Randy Leffingwell combines his fascination for all things mechanical

A practical field guide to New Zealand's native edible plants. Over 190 trees, shrubs, herbs, ferns, mushrooms, lichens and seaweeds are described in detail in this useful and attractive book, with information on which part is edible and when, how plants have been utilised, particularly by Maori, their nutritional value, and where they can be found. In a separate section, Andrew Crowe also describes important poisonous plants that are native to New Zealand or are likely to be confused with the edible plants. Illustrated with line drawings and colour photographs, this informative book will be of interest to trampers, botanists and all who appreciate New Zealand's native flora. *Nakama 1: Japanese Communication Culture Context* Evro Publishing Limited

The word 'Quattro', chosen by Audi for its pioneering high-performance four-wheel-drive cars, immediately captures glamour and

---

excitement in the minds of all motorsport enthusiasts. This book, written by a leading journalist and Quattro devotee, explores 24 years of factory-prepared and factory-supported Quattros in motorsport, from 1980 to 2004. It is a tale that extends from rough rally stages to race tracks, from pine-fringed ice trails in the depths of European winters to the shimmering heat haze and melting asphalt of Texas street racing. Along the way, it explains how Quattros collected four world rally championships, five American driver/manufacturer crowns and a single-year haul of seven international touring car titles, plus numerous other honours. With the five-cylinder turbocharged Quattro in its original form, rallying in the early years yielded numerous wins, most of all in 1982, when seven victories in 11 world championship rallies brought the first title. With the short-wheelbase Sport added to Audi's armoury, 1984 became an all-action, all-conquering rallying season with two more world titles won, for drivers (Stig Blomqvist) and manufacturers. Three stunning Pike's Peak wins were achieved in America in successive years, for Michele Mouton (1985), Bobby Unser (1986) and Walter Röhrl (1987). Starting with double championships for the 200 quattro in TransAm (1988) and the 90 Quattro in IMSA (1989), racing success unfolded in America. Exuberant Hans Stuck was the star driver, but consistent team-mate Hurley Haywood captured that 1988 title. Touring car campaigns during the 1990s brought huge success, starting with fearsome V8 Quattro 'racing limos' in Germany. Global achievements followed with A4 Quattros in many national Super Touring series throughout Europe and in Australia, including Frank Biela's 1996 title-winning campaign in Britain. Audi continued to win on track in the new millennium as race versions of the S4 and RS6 captured five SCCA GT Championship titles in America.

*Behind the Wheel at Chrysler Signet Book*

The definitive visual history of the automobile The Car Book

stylishly shows you everything you might want to know about the history of the automobile. With stunning visual images and over 2,000 cars featured, the evolution of the car is tracked from decade to decade and across international borders, from India's Ambassador to Italy's Alfa Romeo.
