Sutton Pub Limited  
For the past two years, while the sun was setting on the iconic F-14 Tomcat, aviation photographer and author Erik Hildebrandt has been capturing the final defining moments of the few remaining F-14 squadrons in the US Navy Fighter community. Anytime, Baby! is an unforgettable collection of final-phase Tomcat milestones captured and preserved forever

in some of the most detailed and dynamic photographic compositions Hildebrandt has ever attempted. From riding along with VF-211, the last squadron to ever fly the F-14A, to flying with VF-32 on the last deployment of the F-14B in the Arabian Gulf in 2005, Hildebrandt has been witness to the end of an era. Anytime, Baby! is an important historic record as much as it is an artistic and beautiful tribute to the most popular American fighter in history. A true "must-have" addition for the aviation enthusiasts as well as former and current Navy and Marine Corp service personnel.

Members of the naval service will find that at all points in their careers they can expect to be involved to some extent in the planning and execution of official ceremonies and social events. Protocol is a code of established guidelines on proper etiquette and precedence which, when followed, lays the foundation for a successful event. From this foundation, the host should consider the facets which make a particular situation unique, and from there, use imagination to design a memorable occasion. The most important consideration in planning should always be the comfort of one's guests. A clever host/hostess is able to reach a proper mixture of protocol and common sense that will enable guests to enjoy themselves completely. If this is

accomplished, an event is truly successful.

The entry of the United State's premier jet interceptor into the Korean War was triggered by the ever-increasing presence of the Soviet-built MiG-15 south of the Yalu River. The possibility of the USAF losing air supremacy over the Korean Peninsula was unacceptable. The 4th Fighter Wing got the call for combat in Korea. They were made up of a combination of new pilots right out of jet training and the older combat veterans of World War II vintage. This combination of pilot types wrote and re-wrote the text books on jet warfare. Of the 40 jet aces that the war produced, the 4th Wing boasted 24 of them.

This book details these incredible pilots and the planes they flew.

#### *Sprawl Repair Manual*

Lippincott Williams & Wilkins

There is a wealth of research and literature explaining suburban sprawl and the urgent need to retrofit suburbia. However, until now there has been no single guide that

directly explains how to repair typical sprawl elements. The Sprawl Repair Manual demonstrates a step-by-step design process for the re-balancing and re-urbanization of suburbia into more sustainable, economical, energy- and resource-efficient patterns, from the region and the community to the block and the individual building. As Galina Tachieva asserts in this exceptionally useful book, sprawl repair will require a proactive and aggressive approach, focused on design, regulation and incentives. The Sprawl Repair Manual is a much-needed, single-volume reference for fixing sprawl, incorporating changes into the regulatory system, and implementing repairs through incentives and permitting strategies. This manual specifies the expertise that's needed and details the techniques and algorithms of sprawl repair within the context of reducing the financial and ecological footprint of urban growth. The Sprawl Repair Manual draws on more than two decades of practical experience in the field of repairing and building communities to analyze the current pattern of sprawl development, disassemble it into its elemental components, and present a process for transforming them into human-scale, sustainable elements. The techniques are illustrated both

---

two- and three-dimensionally, providing users with clear methodologies for the sprawl repair interventions, some of which are radical, but all of which will produce positive results.
