Boating Skills and Seamanship, 14th Edition Jossey-Bass

"A frank, thorough history and review of service-learning....Service-Learning is a critical piece of the large service-learning movement. It is an ideal guide for new service-learning professionals, faculty members, academic or service administrators, and hopefully, public policymakers." --Pade Informer In this fascinating collection of stories, leaders in service-learning describe their early efforts to combine education with social action. Their reflections help construct a pedagogy of service-learning that will inspire newcomers and guide program development. The authors assess pioneering experiences and recommend steps for future policy and practice, emphasizing the critical need to preserve an activist commitment as programs become increasingly institutionalized. This highly readable book will assist academic leaders, faculty members, student services professionals, educational researchers, adult educators, and public policymakers who seek a common understanding of the origins, purposes, and objectives of this vital learning initiative.

The second in a series of highly practical, hands on, step-by-step photographic manuals, *Replacing Your Boat's Electrical System* fills a gap in the market for the DIY boat builder and repairer. It is a subject covered only in piecemeal fashion by the yachting press, which, like general boat repair manuals, can't go into the level of detail Micke Westin does. This is a visual, hand-holding guide, dwelling on the details as it explains each procedure rather than focussing on the theory (which is relegated to an appendix, for those who wish to go further).
