America, Incorporated An electrifying story of the sensational murder trial that

divided a city and ignited the civil rights struggle In 1925, Detroit was a smoky swirl of jazz and speakeasies, assembly lines and fistfights. The advent of automobiles had brought workers from around the globe to compete for manufacturing jobs, and tensions often flared with the KKK in ascendance and violence rising. Ossian Sweet, a proud Negro doctor-grandson of a slave-had made the long climb from the ghetto to a home of his own in a previously all-

white neighborhood. Yet just after his arrival, a mob gathered outside his house; suddenly, shots rang out: Sweet, or one of his defenders, had accidentally killed one of the whites threatening their lives and homes. And so it began-a chain of events that brought America's greatest attorney, Clarence Darrow, into the fray and transformed Sweet into a controversial symbol of equality. Historian Kevin Boyle weaves the police investigation and	courtroom drama of Sweet's murder trial into an unforgettable tapestry of narrative history that documents the volatile America of the 1920s and movingly re-creates the Sweet family's journey from slavery through the Great Migration to the middle class. Ossian Sweet's story, so richly and poignantly captured here, is an epic tale of one man trapped by the battles of his era's changing times. Arc of Justice Henry Holt and Company 1935 to 1939 MODELS: An Illustrated Workshop Manual Covering Pre-War Triumph Twin And Single-Cylinder Motorcycles From 1935 To 1939: After the outbreak of war in September 1939, all of the

Triumph motorcycles constructed were destined for military use, civilian production did not resume again until 1946. This is a faithful reproduction of the 1939 Floyd Clymer (E.T. Brown) Workshop Manual originally published in the US in 1947. It includes repair and maintenance data for rigid frame pre-war, single cylinder SV & OHV and twin cylinder	OHV Triumph motorcycles from 1935 to 1939. Much more detailed than the owner's handbook, this manual provides the information necessary for the overhaul of engines, carburetors, clutches, gear boxes, forks, electrics, etc., essential information for the enthusiast, owner or restorer of these classic motorcycles. Measuring 5.5" x 8.5" with 96 pages and 56	illustrations. Veloce Publishing Ltd "In writing No More Vietnams, Richard Nixon- with the unique perspective of the man who served us America's commander-in-chief during the war's most difficult stage- has set out to dispel the myths of Vietnam, to show why we failed in Vietnam, and to contribute to the development of

policies that will help avoid such failures in the future. In doing so, President Nixon analyzes the role that four presidents, the military, the Congress, the media, and the antiwar movement played in the Vietnam debacle." -- Front jacket flap A Life Awheel Motorbooks The Commando was the main bike in Norton's range from 1968, and was produced until the demise of Norton Villers Triumph in

1977. The bike featured the unique 'Isolastic' system that rubber-mounted the engine and protected the rider from the twin-cylinder's vibrations. The model range provided the rider with a choice of touring and sporting models, as well as offering special police machines and off-the-shelf production racers. Commandos feature strongly in today's classic scene, and offer excellent performance and spares availability, as

well as a vast range of improvements and updated components. This book looks at the history and development of the Commando, gives the specifications and outlines the model changes, and also offers the riding experiences of past and present owners. In addition there is a blow-by-blow account of the author's restoration of a 1971 750cc model that had been re-imported into the UK from America needing

a complete rebuild. The Triumph Tiger Cub Bible Simon and Schuster 1945 to 1955 (and later?) Models: An illustrated workshop manual covering Triumph twin-cylinder motorcycles from 1945 to 1955: This is a faithful reproduction of the Factory Workshop Manual No. 11, originally published in the US by Floyd Clymer. The major revision in the later pre-unit factory manuals was the addition of technical specifications for the T120 Bonneville (1959).

Unfortunately, those revisions also included the deletion of repair data for rigid frame, sprung hub and 3T models. This makes the Factory Workshop Manual No. 11 the most comprehensive workshop manual available for pre-unit, twin-cylinder Triumph motorcycles up to and including 1962 models as it includes repair and maintenance data for the full line of rigid frame, sprung hub, swing-arm and 350cc models. Much more detailed than the owner's handbook, this manual provides the information necessary for the overhaul of

engines, gear boxes, frames, swing-arm, forks, wheels, hubs, carburetors, electrics, etc., essential information for the enthusiast, owner or restorer of these classic motorcycles. Size: 5.5" x 8.5" with 224 pages and 84 illustrations, includes 8 pages of detailed technical specification charts and both an illustration index and a comprehensive index of contents. Applicable to the following models: 5T Speed Twin, T100 Tiger 100, TR5 Trophy, 6T Thunderbird, T110 Tiger 110 and 3T De-Luxe. Includes

maintenance and repair data for the following engines: Twin Cylinder 350cc OHV, 500cc OHV and 650cc OHV.
