Triumph - Engine - Page 1 - The Bonneville Shop

The Triumph TR7 is a sports car which was manufactured from September 1974 to October 1981 by the Specialist Division (latterly the Jaguar-Rover-Triumph division) of British Leyland in the United Kingdom. It was initially produced at the Speke, Liverpool factory, moving to Canley, Coventry in 1978 and then finally to the Rover Solihull plant in 1980. The car was launched in the United States ...

Rebuilt Rover Transmission TR8 TR7 - LT77 - The Wedge

Powering the TR7 is the 1,998cc 4-cylinder engine, which was based on the engine from the Triumph Dolomite. This sends its 88hp to the rear wheels via a 5-speed manual transmission. The engine in the TR7 has only accrued around 5,000 miles since it underwent a complete rebuild, and the owner holds all of the documentation to verify the work.

I reckon it'd be worth pointing out at this juncture that before any work started, actually before I even sought quotes for the work, that I knew full well that the restoration was economical madness. It would have been cheaper to get another TR7 - even if good FHCs are thin on the ground - and restore that.

In reply to # 937651 by wedgeguy My 1980 Tr-7 Spider currently has a Wankle Rotary ('74-'75 13 engine in it that is in need of a very expensive rebuild. Instead of the Wankle, I am wondering whether I could find a rebuilt TR-7 engine to to put in the car. I also like the idea of returning the car to semi-original condition so, a Triumph engine would be the way to go.
