Motor Trend Haynes Publications

The definitive history of the MGA, the first British sportscar to sell more than 100,000 units and be capable of topping 100mph. Includes Le Mans prototypes, the coupe, Twin Cam, 1600 and 1600 MkII models; competition history; 'secret MGAs'; the USA success story; restoration notes, and much more.

Triumph Dolomite Causey Enterprises, LLC

Build a powerful and reliable engine the first time - without wasting money on incompatible components or modifications that don't work. Burgess covers the BMC/British Leyland B-series engine (except the early 3-bearing crankshaft unit) as fitted to the MGB and MGB GT. Provides advice on MGB/MGB GT suspension, brakes and dyno tuning.

Unsafe at Any Speed Veloce Publishing Ltd

A year out of high school in the early 1950s, New Jersey mechanic Buddy Palumbo falls in love with two things at once: race car driving with its speed and adventure, and his boss' niece, Miss Julie Finzio

Road and Track Createspace Independent Publishing Platform

A model-by-model history of the popular Triumph Dolomite family, the range of quality sporting saloons that started with the Triumph 1300 and was in production from 1965-80. The Triumph 1300 was innovative, with front-wheel drive and a four-door body designed by Giovanni Michelotti. In 1970 the Triumph 1500 and the three-door Toledo were introduced, followed by the range-topping Dolomite in 1972, with Triumph's slant-4 overhead cam engine and rear-wheel drive. The fast Dolomite Sprint confirmed Triumph's position as the British 'BMW Beater' in 1973, with its powerful 16-valve engine and value achieved through clever engineering. In 1976 the whole range was renamed 'Dolomite' - and was a well-rounded model spread of four-door saloons, with engine sizes from 1300cc to 2 litres. With technical specifications and over 150 colour photographs, *Triumph Dolomite - An Enthusiast's Guide* also includes competition history, the Dolomites' ancestors, and a guide to buying and owning these iconic saloons. Fully illustrated with 161 colour photographs.

How to Improve Triumph TR7, TR7-V8 & TR8 Causey Enterprises, LLC
Nostalgic archival photographs together with vivid new color images transport you through the production history of every Triumph model. Speed Twin, Tiger, Trophy, Thunderbird, TR6, Bonneville, Daytona, TT Special, Trident, and other special and racer models are all examined in detail. Linsey Brooke also wrote *Triumph Racing Motorcycles in America*. 0-7603-0174-3.

The Triumph TRs Veloce Publishing Ltd

A thorough technical assessment of the Rover V8 engine and all methods of tuning for increased power output. Filled with the V8s transatlantic origins and production, its competition career in rallies and in saloon car road racing, plus

details of all Rover V8 speed equipment suppliers and professional engine builders. This volume brings the Rover V8 story up-to-date with developments ranging from the factory 3.9 litre, to the Range Rover of 1994.

You Suck at Racing St Martins Press

Six months after its American introduction in 1985, the Yugo was a punch line; within a year, it was a staple of late-night comedy. By 2000, NPR's Car Talk declared it "the worst car of the millennium." And for most Americans that's where the story begins and ends. Hardly. The short, unhappy life of the car, the men who built it, the men who imported it, and the decade that embraced and discarded it is rollicking and astounding, and one of the greatest untold business-cum-morality tales of the 1980s. Mix one rabid entrepreneur, several thousand "good" communists, a willing U.S. State Department, the shortsighted Detroit auto industry, and improvident bankers, shake vigorously, and you've got *The Yugo: The Rise and Fall of the Worst Car in History*. Brilliantly re-creating the amazing confluence of events that produced the Yugo, Yugoslav expert Jason Vuic uproariously tells the story of the car that became an international joke: The American CEO who happens upon a Yugo right when his company needs to find a new import or go under. A State Department eager to aid Yugoslavia's nonaligned communist government. Zastava Automobiles, which overhauls its factory to produce an American-ready Yugo in six months. And a hole left by Detroit in the cheap subcompact market that creates a race to the bottom that leaves the Yugo . . . at the bottom.

How to Restore Triumph TR2, 3, 3A, 4 & 4A Causey Enterprises, LLC

A lot of books on driving are written by professional racers who assume you too want to be a professional racer. Not this book. It's written by a hobbyist who suggests you keep your day job. Besides, it's much more fun being an enthusiastic amateur than a jaded professional (just ask someone in the sex industry). This book is designed to help the average driver make the transition from commuter to safe road racer in as few pages as possible. I wrote this book because it's what I would have wanted to read when I first became interested in track driving: succinct, nerdy, practical, and occasionally diverting. It is not intended as a definitive tome or a work of art. It's more like a sandwich: convenient and nourishing.

Car and Driver The Crowood Press

The Triumph TRs: A Collector's Guide By Graham Robson. Triumph historian Graham Robson details the design, development, production and competition history throughout Triumph's 25-year career of the TR series. MG, the Untold Story Crowood Press (UK)

This book focuses solely on the cars derived from the classic Mini. Small GTs, sports cars, roadsters and fun cars: Mini-derivatives that changed the specialist motoring market completely in the early sixties, and new designs kept it busy for nearly four decades. From the well known Mini Marcos and Unipower GT that raced at Le Mans, to the very obscure but as exciting Coldwell GT or Sarcon Scarab, almost 60 cars are thoroughly researched, described and photographed in this book.

WALNECK'S CLASSIC CYCLE TRADER, OCTOBER 1991

Veloce Publishing Ltd

Using his own wealth of hands-on experience combined with input from many amateur restorers, and aided by the top TR specialists, Roger Williams explains in great detail how to increase the performance and improve the handling and braking of the six-cylinder TR sports cars for fast road use, track days or more serious motorsport.

Maximum Mini Veloce Publishing Ltd

To make your car handle, design a suspension system, or just learn about chassis, you'll find what you need here. Basic suspension theory is thoroughly covered: roll center, roll axis, camber change, bump steer, anti-dive, ride rate, ride balance and more. How to choose, install and modify suspensions and suspension hardware for best handling: springs, sway bars, shock absorbers, bushings, tires and wheels. Regardless of the basic layout of your car—front engine/rear drive, front engine/front drive, or rear engine/rear drive—it is covered here. Aerodynamic hardware and body modifications for reduced drag, high-speed stability and increased cornering power: spoilers, air dams, wings and ground-effects devices. How to modify and set up brakes for maximum stopping power and handling. The most complete source of handling information available.

"Suspension secrets" explained in plain, understandable language so you can be the expert.

Autocar & Motor Veloce Publishing Ltd

WALNECK'S CLASSIC CYCLE TRADER, JULY 1998 Penguin

This is the ultimate book for any enthusiast or professional who is tuning or modifying the Rover V8 engine. This essential read covers all aspects of tuning this versatile and much-loved engine, with an emphasis on selecting the correct combination of parts for your vehicle and its intended use. Topics cover the short engine; cylinder head modifications and aftermarket cylinder heads; camshaft and valve-train; intake and exhaust systems; cooling system; carburetors and fuel injection; distributor and distributor-less ignition systems; engine management; LPG conversions and, finally, supercharging and turbo-charging.

How to Power Tune MGB 4-Cylinder Engines Currency

Not all car models enjoy long reigns like that of the Ford Mustang, the Chevy Corvette, or the Porsche 911. Some models come and go in one selling season, often from poor design, new technological developments, or a shift in the public's fancy. This book investigates more than 100 of these cars that the industry has sped by, including the Bugatti Type 57, the Ford Consul Classic, the Avanti, and many more.

Cars & Parts Motorbooks International
