Triumph TR 5, 250 and 6 Veloce

Enterprises Incorporated

An illustrated Owner's Workshop Manual for the TR2, TR3 & TR4 series of Triumph sports cars built between 1953 and 1965. This is a faithful reproduction of the Floyd Clymer Triumph Owners Handbook of Maintenance & Repair originally published in the US circa 1969. This manual includes complete technical data, service and maintenance information and detailed instructions for the repair and overhaul of all the major mechanical and electrical components including: Engine, Fuel System, Cooling System, Clutch, Gearbox, Propeller Shaft, Rear Axle, Front Suspension & Steering, Springs & Shock Absorbers, Wheels & Tires and Brake system. There is detailed information on the Electrical System and its component parts and a comprehensive tuning section and complete technical specifications. For the later series of TR4's there is an appendix that details the set up and adjustment of Stromberg carburetors. There is adequate detailed text and diagrams to assist in major refurbishing such as an engine rebuild or even a complete mechanical renovation, making it an invaluable resource for collectors and restorers of these classic Triumph sports cars.

Triumph Sprint, Speed Triple and Tiger, 2005-2015 Haynes Repair Manual Haynes Publications

1945 to 1955 (and later?) Models: An illustrated workshop manual covering Triumph twin-cylinder motorcycles from 1945 to 1955: This is a faithful reproduction of the Factory Workshop Manual No. 11, originally published in the US by Floyd Clymer. The major revision in the later pre-unit factory manuals was the addition of technical specifications for the T120 Bonneville (1959). Unfortunately, those revisions also included the deletion of repair data for rigid frame, sprung hub and 3T models. This makes the Factory Workshop Manual No. 11 the most comprehensive workshop manual available for pre-unit, twin-cylinder Triumph motorcycles up to and including 1962 models as it includes repair and maintenance data for the full line of rigid frame, sprung hub, swing-arm and 350cc models. Much more detailed than the owner's handbook, this manual provides the information necessary for the overhaul of

engines, gear boxes, frames, swing-arm, forks, wheels, hubs, carburetors, electrics, etc., essential information for the enthusiast, owner or restorer of these classic motorcycles. Size: 5.5" x 8.5" with 224 pages and 84 illustrations, includes 8 pages of detailed technical specification charts and both an illustration index and a comprehensive index of contents. Applicable to the following models: 5T Speed Twin, T100 Tiger 100, TR5 Trophy, 6T Thunderbird, T110 Tiger 110 and 3T De-Luxe. Includes maintenance and repair data for the following engines: Twin Cylinder 350cc OHV, 500cc OHV and 650cc OHV.
