All of the above were, at one

is both one of the biggest social

Triumph Bonneville:

60 Years is a

celebration one of
motorcycling's most
iconic and beloved

bikes. First

manufactured in

Great Britain in

1959, Triumph's

legendary model

resonates deeply

with motorcycle

enthusiasts

worldwide who love

its style, sound,

performance, and

undeniable

coolness. It's no

surprise that

Triumph was Steve

McQueen's favorite ride. The Bonneville's story is one of successes and challenges as Triumph grew steadily in the post-World War II decades to become America's most successful "import" motorcycle marque. Triumph won every championship worth winning, owned the world speed record for fifteen years, and wooed Hollywood's hottest stars. Bonneville was Triumph's halo machine, one of the highest performance motorcycles of the 1960s. However, as competing marques eventually eclipsed the Bonneville in

the 1970s, Triumph management struggled, leading first to bankruptcy and then to the demise of the company in 1983. Triumph was resurrected by British industrialist John Bloor in the late 1990s to become a twenty-first century global success story, which includes a revived and thoroughly retro-contemporary Bonneville range.
