Revealing glimpses of the Philippine Revolution and the Filipino writer Jose Rizal emerge despite the worst efforts of feuding academics in Apostol ' s hilariously erudite novel, which won the Philippine National Book Award. Gina Apostol ' s riotous second novel takes the form of a memoir by one Raymundo Mata, a half-blind bookworm and revolutionary, tracing his childhood, his education in Manila, his love affairs, and his discovery of writer and fellow revolutionary, Jose Rizal. Mata ' s 19th-century story is complicated by present-day foreword(s), afterword(s), and footnotes from three fiercely quarrelsome and comic voices: a nationalist editor, a neo-Freudian psychoanalyst critic, and a translator, Mimi C. Magsalin. In telling the contested and fragmentary story of Mata, Apostol finds new ways to depict the violence of the Spanish colonial era, and to reimagine the nation ' s great writer, Jose Rizal, who was executed by the Spanish for his revolutionary activities, and is considered by many to be the father of Philippine independence. The Revolution According to Raymundo Mata offers an intoxicating blend of fact and fiction, uncovering lost histories while building dazzling, anarchic modes of narrative.

Barefoot in Siargao is a collection of stories that the author drew on her memories of idyllic childhood summers and nature adventures in Siargao, the mystical island home of her grandparents. She writes about family life, traditional beliefs, local culture, and folklore—ayok (witches), ghosts, and balls of fire. The book was born out of her love of art, nature, literature, and culture. The book aims to open wonders in nature and deepen the human bond with the natural world. The writer urges readers to be sensitive to culture and environment and protect all creation. Readers learn about the natural heritage of Siargao Island, which is of important conservation value to the Philippines because of its coral habitats, seagrass, mangroves, and wildlife. The book is a loving tribute to Siargao, the touchstone of her family, and a celebration of the strong heritage of faith and love that her parents and grandparents left the family.

J. Torres and Elbert Or celebrate 10 years of Lola: A Ghost Story, the critically-acclaimed graphic novel that explores family, grief and Filipino folklore in an all-new edition that includes a revised ending and updated illustrations. Jesse didn ' t really know his Lola (the Tagalog word for grandmother), but he remembers that she tried to drown him as a baby. Strange stories surround Lola: she had visions, she fought off monsters straight out of Filipino folklore, and, according to some, she may have even seen ghosts. Now Jesse is struggling with the same visions Lola had, but Lola's not around anymore, and the rest of his family are too tied up in their own personal demons to help. Personal demons that Lola might have helped with, if she were still alive. As Jesse explores his new abilities, he realizes that he might be the one who needs to step into that role—and that helping others might just help him, too.

THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power. _____ (From the Playboy interview with Jay-Z, April 2003)

PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In The 48 Laws of Power, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, Volume Three, was wack. People set higher standards for me, and I love it.

Cue the Nightmares: True Scary Stories for Midnight Reading... Get Your FREE BONUSES When You Grab This Book! Despite the advent of science and technology that helps us understand the 'how's' and the 'whys' of things, the universe still offers a colossal variety of mysteries that humans are still yet to explore and understand. Having said that, the standard mysteries, those which have perplexed humanity from the very beginning, continue to do so. Strange creatures and things fall, at times slowly, from rather unknown sources; people walk over glowing trenches of hot coals, encounter monsters in mountains and lakes, are subject to strange coincidences, so on and so forth. History has many disturbing episodes that few of us would care to experience ourselves. So many of these stories are sad but true. Sometimes, after such incidents, dark and evil energies remain in these places of horror for decades to come, haunting all that come near. Over the years, I have learnt, read and write about these unexplained mysteries, and one thing I have understood is that the nature of our existence and the world are quite different from that which we learned when we were young. The reality is more large, fascinating and expansive than any rational, scientific or religious view can perhaps accommodate. Remember, explanations are just temporary, going on and off in response to fads and fashions. However, the happenings they are supposed to explain carry on as mysteriously as ever. One of The Washington Post's 10 Best Books of the Year "A remarkable book...indispensable."--The Boston Globe "A sweeping, deeply reported tale of international migration...DeParle's understanding of migration is refreshingly clear-eyed and nuanced."--The New York Times "This is epic reporting, nonfiction on a whole other level...One of the best books on immigration written in a generation."--Matthew Desmond, author of Evicted The definitive chronicle of our new age of global migration, told through the multi-generational saga of a Filipino family, by a veteran New York Times reporter and two-time Pulitzer Prize finalist. When Jason DeParle moved into the Manila slums with Tita Comodas and her family three decades ago, he never imagined his reporting on them would span three generations and turn into the defining chronicle of a new age--the age of global migration. In a monumental book that gives new meaning to "immersion journalism," DeParle paints an intimate portrait of an unforgettable family as they endure years of sacrifice and separation, willing themselves out of shantytown poverty into a new global middle class. At the heart of the story is Tita's daughter, Rosalie. Beating the odds, she struggles through nursing school and works her way across the Middle East until a Texas hospital fulfills her dreams with a job offer in the States. Migration is changing the world--reordering politics, economics, and cultures across the globe. With nearly 45 million immigrants in the United States, few issues are as polarizing. But if the politics of immigration is broken, immigration itself--tens of millions of people gathered from every corner of the globe--remains an underappreciated American success. Expertly combining the personal and panoramic, DeParle presents a family saga and a global phenomenon. Restarting her life in Galveston, Rosalie brings her reluctant husband and three young children with

whom she has rarely lived. They must learn to become a family, even as they learn a new country. Ordinary and extraordinary at once, their journey is a twenty-first-century classic, rendered in gripping detail.

Considered by many to be the most terrifying writer in English, M.R. James was an eminent scholar who spent his entire adult life in the academic surroundings of Eton and Cambridge. His classic supernatural tales draw on the terrors of the everyday, in which documents and objects unleash terrible forces, often in closed rooms and night-time settings where imagination runs riot. Lonely country houses, remote inns, ancient churches or the manuscript collections of great libraries provide settings for unbearable menace, from creatures seeking retribution and harm. These stories have lost none of their power to unsettle and disturb. This edition presents all of James's published ghost stories, including the unforgettable 'Oh, Whistle and I'll Come to You, My Lad' and 'Casting the Runes', and an appendix of James's writings on the ghost story. Darryl Jones's introduction and notes provide a fascinating insight into James's background and his mastery of the genre he made his own. --! From publisher's description.
