"Police! Who goes there?" the cry goes out as a shaking torchlight illuminates a ghostly figure. The figure hangs for a moment then disappears and the officer is changed forever. Suddenly, a world that made sense has been turned upside down and the terrified family who first called the police remains uncomfortable. This family is not alone though, for all over the world, police officers come in contact with the strange and the paranormal. If it were anyone else, we would dismiss these tales as falsehoods by most. But the people in these stories are not unreliable witnesses or fanciful con artists; they are the men and women who serve our communities when terrifying forces seek to harm us. Our patrollers are trained to observe, to remember details, and to never assume things are as they seem; the officers involved in these stories have never been able to find rational explanations for their experiences. These accounts come from officers across the globe, from devout Catholics to staunch Atheists and everyone in between who could not have imagined what they would come across when they took their calls, and many of them wish they could forget their experiences after they did. Delve into these eighteen stories and discover that even those charged with protecting us witness things they were never equipped to deal with. If you are a non-believer, withhold your judgment until you have read the chillingly convincing evidence for yourself. If you already believe, you will know the fear these officers faced. When your job is to confront the evils that people can do to each other, to protect those who are unable to against harm, it is inevitable you will one day find something that you cannot protect. After all, as Nietzsche once said, "And if thou gaze long into an abyss, the abyss will also gaze into thee." Ready to scare yourself senseless? Scroll to the top of the page and hit buy!

Police work is ongoing stress. It includes tense association with people who commit theft, mayhem and murder. It also includes the human duties of telling someone their loved ones have been maimed, killed, or arrested. Punctuating this bitterness are those precious humorous moments which make the job acceptable and keep an officer's sanity. This book is a compilation of humorous situations which helped me cope. I believe one should judge his life on how many times he laughs. I hope my book, will make you laugh...and help you cope. 13 seconds of pure terror in a shootout with a drug dealer... Real crime. Real-life cop stories. Sergeant Mark Langan relives his front-row seat working the seamier side of crime during his decorated twenty-six-year career from youngest rookie in 1978 to narcotics sergeant on the Omaha Police force. Langan caught bold burglars who silently entered homes to get thrills off of touching sleeping victims. He hit bookie joints in smoke-filled bars, squeezed snitches for information, and

arrested prostitutes and their everyday "Johns" in dangerous downtown alleys. Langan worked his way up the ranks to command undercover narcotics operations in the 1980s when sinister LA gangbangers invaded Omaha and claimed neighborhoods to sell crack. In his celebrated career, Langan felt the gut-wrenching pain of innocent children caught inside the wicked world of drugs and crime, their "safe" worlds shattered when the battering ram knocked down their doors-their cries haunt him every day. And two players from his past reemerge in startling ways. Busting Bad Guys delivers a graphic and authentic look at solid policing on the streets of America's heartland and takes readers inside the high-adrenaline, top-secret investigations to develop innovative tactics to outsmart the criminals. Steven Eskew, book reviewer and writer in New York City, says "Langan relates his many adventures with meat and potatoes precision, illustrating a cop's life with detailed imagery but without sensationalizing the excitement. He balances his memoir by sharing his years-later encounter with "One-Eyed Jack's" daughter, (the drug dealer that was killed during a shoot out at the beginning of the book), and an update on a childhood playmate who had descended into prostitution. The book's sheer readability and intriguing subject matter makes you sorry to find yourself on the final page."

**The Few, the Proud, the Ugly—Twenty-Five Years on the Baltimore Police Department** Hard Shell Word Factory

You step into a doorway to see a man levelling a shotgun at your chest. You hold a dying child in your arms. You crawl into a mangled car to help someone trapped and bleeding. These are a small sampling of the kinds of things that police officers encounter. Not everyone is able to do the job that cops do, fewer still are willing. Those who do it with grace and dignity are special people. CODE 4 is an insider's view of the police profession, seen through the eyes of one of its veterans. Over a thirty-seven-year span Terry Smith worked as a uniformed officer, a long-haired undercover narcotics agent, an organized crime investigator, a SWAT commander, and a homicide detective. He and the men and women who worked with him looked down their gun barrels at murderers, armed robbers, rapists, burglars, and an assortment of other violent people. He began his career with the Bloomington, Minnesota, Police Department, then moved on to do thirty years with the Minnesota Bureau of Criminal Apprehension (BCA). During his last seventeen working years he ran a squad of homicide investigators for the BCA. Smith has written about things that happened while he was "protecting and serving." Some of them were dangerous, some gut-wrenchingly tragic, some humorous. He speaks with insight about the people he worked with "who could be kind or hard-edged as circumstance demanded," and the toll that policing took on their lives. He gives an inside look at several newsworthy cases he supervised including two sad abduction/homicides involving victims Julie Holmquist and Katie Poirier. Both investigations received extensive national coverage. Smith appeared in an episode of "The New Detectives" featuring the Poirier Casee on the Discovery Channel. In 2001 Smith received the Minnesota Police and Peace Officers Association honorable mention award as Minnesota Police Officer of the Year. CODE 4 will help you, the reader, feel the adrenaline, the excitement, and the occasional bursts of fear that are parts of the police job. It will help you understand why cops are willing to do what they do. \*The words "Code 4," spoken into a police radio, mean that a dangerous situation has been handled, things are under control, and no additional help is needed.

A heartbreaking and powerful story about a black boy killed by a police officer, drawing connections through history, from award-winning author Jewell Parker Rhodes. Only the living can make the world better. Live and make it better. Twelve-year-old Jerome is shot by a police officer who mistakes his toy gun for a real threat. As a ghost, he observes the devastation that's been unleashed on his family and community in the wake of what they see as an unjust and brutal killing. Soon Jerome meets another ghost: Emmett Till, a boy from a very different time but similar circumstances. Emmett helps Jerome process what has happened, on a journey towards recognizing how historical racism may have led to the events that ended his life. Jerome also meets Sarah, the daughter of the police officer, who grapples with her father's actions. Once again Jewell Parker Rhodes deftly weaves historical and socio-political layers into a gripping and poignant story about how children and families face the complexities of today's world, and how one boy grows to understand American blackness in the aftermath of his own death.

A member of the Rochester, NY Police Department's Narcotics Unit had a history of theft and illegal activity-a history carefully hidden from his squad members. Believing his luck was running out, the investigator approached federal prosecutors with a deal to turn evidence against his fellow officers. The possibility that a crooked cop might be willing to fabricate such evidence apparently never entered the prosecutors' minds. A deal was struck, and for five months, the tainted cop wore a body wire, making up stories of misconduct and embellishing the facts of actual events for his handlers. When the federal government indicted Sergeant Tom Alessi and four of his colleagues in August 1991 on nineteen counts and seventy-two overt acts of theft, evidence planting, and excessive force, prosecutors planned to steamroll the officers into pleading guilty. They did not, instead they stood firm against invented lies and federal pressure while the media destroyed their reputations. Told in Tom Alessi's own words, And They Found No Witches recounts the remarkable true story of law enforcement officers who refused to sacrifice their honor-while serving as a cautionary tale of the power of a cynical justice system.

Detectives work the streets--an arena of action, vice, lust, greed, aggression, and violence--to gather shards of information about who did what to whom. They also work the cumbersome machinery of the justice system--semi-military police hierarchies with their endless jockeying for prestige, procedure-driven district attorney offices, and backlogged courts--transforming hard-won street knowledge into public narratives of responsibility for crime. Street Stories, based on years of fieldwork with the New York City Police Department and the District Attorney of New York, examines the moral ambiguities of the detectives' world as they shuttle between the streets and a bureaucratic behemoth. In piecing together street stories to solve intriguing puzzles of agency and motive, detectives crisscross the checkerboard of urban life. Their interactions in social strata high and low foster cosmopolitan habits of mind and easy conversational skills. And they become incomparable storytellers. This book brims with the truth-is-stranger-than-fiction violence of the underworld and tells about a justice apparatus that splinters knowledge, reduces life-and-death issues to arcane hair-splitting, and makes rationality a bedfellow of absurdity. Detectives' stories lay bare their occupational consciousness--the cunning and trickery of their investigative craft, their self-images, moral rules-in-use, and judgments about the players in their world--as well as their personal ambitions, sensibilities, resentments, hopes, and fears. When detectives do make cases, they take satisfaction in removing predators from the streets and helping to ensure public safety. But their stories also illuminate dark corners of a troubled social order.

NEW YORK TIMES EDITORS' CHOICE • The astonishing true story of “one of the most startling police corruption scandals in a generation” (The New York Times), from the Pulitzer Prize–nominated reporter who exposed a gang of criminal cops and their yearslong plunder of an American city COMING SOON AS AN HBO SERIES FROM THE WIRE CREATOR DAVID SIMON AND GEORGE PELECANOS “A work of journalism that not only chronicles the rise and fall of a corrupt police unit but can stand as the inevitable coda to the half-century of disaster that is the American drug war.”—David Simon Baltimore, 2015. Riots are erupting across the city as citizens demand justice for Freddie Gray, a twenty-five-year-old Black man who has died under suspicious circumstances while in police custody. Drug and violent crime are surging, and Baltimore will reach its highest murder count in more than two decades: 342 homicides in a single year, in a city of just 600,000 people. Facing pressure from the mayor’s office—as well as a federal investigation of the department over Gray’s death—Baltimore police commanders turn to a rank-and-file hero, Sergeant Wayne Jenkins, and his elite plainclothes unit, the Gun Trace Task Force, to help get guns and drugs off the street. But behind these new efforts, a criminal conspiracy of unprecedented scale was unfolding within the police department. Entrusted with fixing the city’s drug and gun crisis, Jenkins chose to exploit it instead. With other members of the empowered Gun Trace Task Force, Jenkins stole from Baltimore’s citizens—skimming from drug busts, pocketing thousands in cash found in private homes, and planting fake evidence to throw Internal Affairs off their scent. Their brazen crime spree would go unchecked for years. The results were countless wrongful convictions, the death of an innocent civilian, and the mysterious death of one cop who was shot in the head, killed just a day before he was scheduled to testify against the unit. In this urgent book, award-winning investigative journalist Justin Fenton distills hundreds of interviews, thousands of court documents, and countless hours of video footage to present the definitive account of the entire scandal. The result is an astounding, riveting feat of reportage about a rogue police unit, the city they held hostage, and the ongoing struggle between American law enforcement and the communities they are charged to serve.

After September 11, 2001 Las Vegas Police Sergeant Randy Sutton began soliciting writing from law enforcement officers-his goal being to bridge the gap between the police and those they serve, with a book that offers a broad and thoughtful look at the many facets of police life. Hundreds of active and former officers responded from all over the United States: men and women from big cities and small towns, some who had written professionally, but most for the first time. Sutton culled the selections into five categories: The Beat, Line of Duty, War Stories, Officer Down, and Ground Zero. The result is True Blue, a collection of funny, charming, exciting, haunting stories about murder investigations, missing children, bungling burglars, car chases, lonely and desperate shut-ins, routine traffic stops, officers killed in the line of duty, and the life-changing events of September 11. Here, officers reveal their emotions-fear and pride, joy and disgust, shame and love-as they recount the defining moments of their careers. In these stories, the heart and soul behind the badge shines through in unexpected ways. True Blue will change the way we think about the deeply human realm of police service.
