Truth About Style, part memoir and part style makeover stories. Honestly, I just loved it. London is an engaging writer, and her personal stories are authentic and resonant. And now she 's kind of my idol. The stories of the women she worked with for the book are a good cross-section of many of the issues – body-image, self-worth, significant life-changes – that we all face and also reflect different personal styles, ages, and body types.
