"Investigating Iwo encourages us to explore the connection between American visual culture and World War II, particularly how the image inspired Marines, servicemembers, and civilians to carry on with the war and to remember those who made the ultimate sacrifice to ensure victory over the Axis Powers. Chapters shed light on the processes through which history becomes memory and gains meaning over time. The contributors ask only that we be willing to take a closer look, to remain open to new perspectives that can deepen our understanding of familiar topics related to the flag raising, including Rosenthal's famous picture, that continue to mean so much to us today"--

Only 200 people have ever been in Christopher Whitcomb's elite branch of the F.B.I. The Hostage Rescue Team is its most highly trained and specialized squadron -- equivalent to the Navy's Seals and the Army's Delta Force -- charged with terrorist capture, hostage situations, and other large-scale emergencies in the U.S. and around the world. Whitcomb is the first HRT member ever to write about his experience. With breathtaking immediacy, Whitcomb describes the brutal training, the weapons and tactics, and the unbreakable camaraderie of the HRT. In short order, after joining HRT in 1991, Whitcomb was sent on missions to Ruby Ridge and Waco, and his frank assessment of those missions is must reading for anyone interested in modern law enforcement. Only rarely does a writer this accomplished have a life this dramatic. *Cold Zero* is a book of rare action and emotion, and one that introduces a remarkable new writer to the world.

The Comparative Survey of Freedom is an institutional effort by Freedom House to monitor the progress and decline of political rights and civil liberties in 191 nations and 59 related territories. These year-end reviews of freedom began in 1955, when they were called the Balance Sheet of Freedom and, still later, the Annual Survey of the Progress of Freedom. This program was expanded in the early 1970s, and has appeared in Freedom Review since 1973. It has also been issued in a more developed context as a yearbook since 1978. Since 1989, the Survey project has been a year-long effort produced by regional experts, consultants and human rights specialists. The Survey derives its information from a wide range of sources. Most valued of these are the many human rights activists, journalists, editors and political figures around the world who keep us informed of the human rights situation in their countries.

Throughout the year. Freedom House personnel regularly conduct fact-finding missions to gain more in-depth knowledge of the vast political transformations affecting our world. During these week-to-month-long investigations, we make every effort to meet a cross-section of political parties and associations, human rights monitors, religious figures, representatives of both the private sector and trade union movement, academics and journalists. During the past year. Freedom House staff traveled to numerous countries throughout most of the world's geographical and political regions. The Survey project team also consults a vast array of published source materials, ranging from the reports of other human rights organizations to often rare, regional newspapers and magazines. This year's Survey team includes: Adrian Karatnycky, Martin Edwin Anderson, Kristen Guida, Marshall Freeman Harris, Thomas R. Lansner, Arch Puddington, Leonard R. Sussman, and George Zarycky. The general editor of Freedom in the World is Roger Kaplan; the managing editor is Tara Kelly. This year's research coordinator was Charles Graybow.

Patriot Minotaur Books

Unhappy is the story of happiness. More than two thousand years ago, when the ancient Greeks first pondered what constitutes "the good life," happiness was considered a civic virtue that demanded a lifetime's cultivation. Not just mere enjoyment of pleasure and mere avoidance of suffering, true happiness was an achievement, not a birthright. Now, in an age of instant gratification and infinite distraction, history professor Richard Schoch takes a refreshingly contemplative look at a question that's as vital today as ever: What does it mean to be happy? Schoch consults some of history's greatest thinkers -- from Aristotle to Thomas Aquinas to Buddha -- in his quest to understand happiness in all its hard-won forms. Packed with three thousand years' worth of insights, many long forgotten, *The Secrets of Happiness* is a breath of ancient wisdom for anyone who yearns for the good life.
