This Bram Stoker Award – winning collection is “ certain to stick in your mind long after you ’ ve turned the last page ” (St. Louis Post-Dispatch). Includes “ Big Momma, ” a finalist for the International Thriller Writers Award for Best Short Story Here are six of Joyce Carol Oates ’ s most “ frightening—and deeply disturbing—short stories ” (Pittsburgh Post-Gazette). In the titular story, a boy becomes obsessed with his cousin ’ s doll after her tragic death. As he grows older, he begins to collect “ found dolls ” from surrounding neighborhoods . . . each with its own sinister significance. In “ Gun Accident, ” a teenage girl is delighted to house-sit for her favorite teacher, until an intruder forces his way inside—changing more than one life

forever. The collection closes with the taut tale of a mystery bookstore owner whose designs on a rare bookshop in scenic New Hampshire devolve into a menacing game with real-life consequences. “ At the heart of each story is a predator-prey relationship, and what makes them so terrifying is that most of us can easily picture ourselves as the prey, at least at some time during our lives ” (Minneapolis Star-Tribune). “ Everything she writes, in whatever genre, has an air of dread, because she deals in vulnerabilities and inevitabilities, in the desperate needs that drive people . . . to their fates. A sense of helplessness is the essence of horror, and Oates conveys that feeling as well as any writer around. ”

—Terrence Rafferty, The New York Times Book Review “ One of the stranger parts of the human condition may be our deep fascination, and at times troubling exploration, of the darker aspects of our nature . . . No other author explores the ugly, and at times, blazingly unapologetic underbelly of these impulses quite like Joyce Carol Oates in The Doll-Master. ”

—Pittsburgh Post-Gazette “ In her new collection . . . [Oates] relishes moments of gothic melodrama, while rooting them firmly in grindingly ordinary American lives. ” —The Guardian “ Oates convincingly demonstrates her mastery of the macabre with this superlative story collection . . . This devil ’ s half-dozen of dread and suspense is a must read. ”

Arguably no political principle has been more central than the separation of powers to the evolution of constitutional governance in Western democracies. In the definitive work on the subject, M. J. C. Vile traces the history of the doctrine from its rise during the English Civil War, through its development in the eighteenth century—when it was indispensable to the founders of the American republic—through subsequent political thought and constitution-making in Britain, France, and the United States. The author concludes with an examination of criticisms of the

doctrine by both behavioralists and centralizers—and with "A Model of a Theory of Constitutionalism." The new Liberty Fund second edition includes the entirety of the original 1967 text published by Oxford, a major epilogue entitled "The Separation of Powers and the Administrative State," and a bibliography. M. J. C. Vile is Professor of Politics at the University of Kent at Canterbury and author also of *The Structure of American Federalism*.

This volume, one in a series resulting from Project SPAN (Social Studies/Social Science Education: Priorities, Practices, and Needs), reviews and analyzes the current state of K-12 social studies. A major purpose of the review and analysis was to form a basis for

recommendations for future directions that might be taken to improve social studies. The report contains six sections. The first section provides a broad and integrative analysis of the interrelated topics of rationales, definitions, approaches, goals, and objectives of social studies. The second section, "Curriculum Organization in Social Studies," describes the typical pattern of social studies programs from kindergarten through grade 12, stating that despite numerous variations that have occurred, the dominant pattern throughout the nation is one that was established more than 60 years ago. "Social Studies Curriculum Materials," the third section of the volume, describes the great extent to which students, teachers, administrators, and the public accept and rely on curriculum materials as essential aids to teaching, learning, and classroom management. Foremost among curriculum materials being used are textbooks. The topic of the fourth section is "Social Studies Teachers." There is general agreement that the teacher is "the central figure," the "key," or "the magic ingredient" in the learning process. The fifth section, "Instructional Practices in Social Studies," presents a detailed report on what teachers do. The last section, "Barriers to Change in Social Studies," focusing on the fact that the new social studies had relatively little impact on the

schools, explores reasons for lack of change in schools. (Author/RM) Warning Light Simon and Schuster Winfried Baumgart's masterful history of the Crimean War has been expanded and fully updated to reflect advances made in the field since the book's first publication. It convincingly argues that if the war had continued after 1856, the First World War would have taken place 60 years earlier, but that fighting ultimately ceased because diplomacy never lost its control over the use of war as an instrument in power politics. With 19 images, 13 maps and additional tables as well as a brand new chapters on 'the medical services', this expanded and fully-updated 2nd edition explores * The origins and diplomacy of the Crimean War * The war aims and general attitudes of the belligerent powers (Russia, France, and Britain), non-belligerent German powers (Austria and Prussia) and a selected number of neutral powers, including the United States * The characteristics and capabilities of the armies involved * The nature of the fighting itself The Crimean War: 1853-1856 examines the conflict in both its Europe-wide and global contexts, moving beyond the five great European powers to consider the role and importance of smaller states and theatres of war that have otherwise been under-served. To this end, it looks at fighting on the Danube front, the Black Sea, the Baltic Sea, the Caucasian battlefield, as well as the White Sea and the Pacific, with final chapters devoted to the Paris peace congress of 1856, the end of the war and its legacy. This book remains the definitive study of one of the most important wars in modern history.
