Efforts to Protect the Tundra | Sciencing
Tundra, a major zone of treeless level or rolling ground found in cold regions, mostly north of the Arctic Circle (Arctic tundra) or above the timberline on high mountains (alpine tundra). Tundra is known for large stretches of bare ground and rock and for patchy mantles of low vegetation such as mosses, lichens, herbs, and small shrubs.

Tundra Process Solutions | LinkedIn
Solutions. Switch to alternative energy uses to minimize human-made global warming. Establish protected areas and park reserves to restrict human influence. Limit road construction, mining activities, and the building of pipelines in tundra habitat. Limit tourism and respect local cultures.

Tundra Managed Solutions Today, businesses are consistently challenged to secure key business objectives while also achieving aggressive growth targets. Organizations are looking to drive innovation, automate processes to increase efficiency and to better utilize and analyze data for more efficient decision making.

Tundra | Toyota Tundra Forums
The tundra is the the coldest biome on Earth. Arctic tundra spans much of the northernmost regions of the planet including Canada, northern Russia, Iceland and the coasts of Greenland. Alpine tundra covers the higher altitudes of mountain ranges throughout the world, including the Andes, Rockies and Himalayas.
