Look across the country on any summer Saturday and what do you see? From coast to coast you see millions of men mowing. There also may be some women tending to the turf these days, but the obsession with the lawn is truly a male phenomenon. How green is it? How thick is it? How well-mown and weed-free is it? These are the questions that try men's souls. In *A Man's Turf: The Perfect Lawn*, author Warren Schultz delves into history, psychology, and botany to explain the irresistible appeal of the riding mower and freshly cut grass. But as a leading expert on lawn and garden care, he also offers a wealth of practical, hands-on information for growing, mowing, weeding, and watering a better lawn. Schultz explores how the lawn grew up in America and visits some of the great historical lawns. He examines the machines involved--reel and rotary lawn mowers, weed whackers and water sprinklers--that shape the lawn, and gets down on his knees to look at some amazing grass, highlighting the pros and cons of the many new varieties. Schultz interviews the great turf gurus of golf courses and ballparks and reveals their insiders' tips on lawn care. *A Man's Turf* also provides a unique guide to lawn-related products, events, and pilgrimages--from a bicycle-powered mower to the finish line of the lawn mower races to a mower museum. In *A Man's Turf: The Perfect Lawn*, garden expert Warren Schultz examines the pleasures and pitfalls that await the lawn-obsessed everywhere. He explains how to grow, mow, weed, and water a thicker, greener, healthier lawn, offering insight and a wealth of practical information, along with more than 200 full-color photographs. *Orange Coast Magazine* Timber Press

Jim ran a profitable lawn mowing business for over twenty years. When he went into business with his son in 1983, there was no book, so they learned everything the hard way, through experience. After retiring in 2005, Jim wrote a guide that cuts right to the heart of the mowing business, showing you how to find customers and keep them happy, and how to operate efficiently, so you'll maximize your profits. As Jim learned, trial and error is slow and very expensive. Early on, they made the same mistakes over and over, spending whole seasons using wrong machines, pursuing wrong goals. You can follow ideas that wreck your profits, and don't even realize you're doing it! The business limps along, earning little or nothing and soon disappears. Every year, Americans spend more than \$100 billion on lawn care. Jim learned to steer a healthy chunk of that money in his direction, and wants to teach you to do the same, opening the door to a lifetime of security and independence. The book is based on the combined experience of Jim and his son, a total of nearly fifty years of full-time mowing. No fantasy, no pie in the sky: Just a sharp focus on the facts and the vital questions, putting you years ahead of your competitors. No wasted time or money. The book includes a Quick Start Guide, so you'll earn maximum profits, starting on the first day.
