specialist printing uses accounted for the majority of the plants output. The plant used state-of-the-art coating machines that allowed very precise

Turnaround At The Preston Plant: BY: Esaputra Mangarul ...

In the spring of 2000, two significant events happened to the Preston plant. Rendall Corporation purchased the plant, even though it was losing around \$2 million a year. Rendall was not impressed by what they found at the plant and it seems that they did not do a very good analysis of the overall operations of the plant and the management of its operations.

Turnaround at the Preston Plant Question 1: There are

events that led to the Preston plant's decision to change. The most important one was the decision by Rendall to close the plant. Another one is not getting the Viper contract from HP. Prior to all this happening, the Preston plant has been reported to provide low output.
