Popular Mechanics Artech House

Bursting with new features, Apple's iMovie '09 is vastly more usable and complete than iMovie '08 -- amazing right out of the box. But the box doesn't include a good user's guide, so learning these applications is another matter. iMovie '09 and iDVD: The Missing Manual gets you up to speed on everything you need to turn raw digital footage into highly creative video projects. You get crystal-clear, jargon-free explanations of iMovie's new video effects, slow & fast motion, advanced drag & drop, video stabilization, and more. Author and New York Times tech columnist David Pogue uses an objective lens to scrutinize every step of process, including how to: Organize your videos just like your photos, and precisely edit with ease Work on multiple iMovie projects at once and drag & drop clips among them

Integrate with other iLife programs to use songs, photos, and an original sound track Output your creation to a blog, its own web page, or as a video podcast with iWeb Understand basic film techniques to improve the quality of the video you bring to iMovie From choosing and using a digital camcorder to burning the finished work onto DVDs, posting it online, or creating versions for iPod and iPhone, iMovie '09 & iDVD: The Missing Manual helps you zoom right in on the details.

Telecommunications and Data Communications Handbook Sams

"Genuinely transnational in content, as sensitive to the importance of production as consumption, covering the full range of approaches from political economy to textual analysis, and written by a star-studded cast of contributors" - Emeritus Professor Graeme Turner, University of Queensland "Finally, we have before us a first rate, and wide ranging volume that reframes television studies afresh, boldly synthesising debates in the humanities, cultural studies and social sciences...This volume should be in every library and media scholar's bookshelf." - Professor Ravi Sundaram, Centre for the Study of Developing Societies Bringing together a truly international spread of contributors from across the UK, US, South America, Mexico and Australia, this Handbook charts the field of television studies from issues of ownership and regulation through to reception and consumption. Separate chapters are dedicated to examining the roles of journalists, writers, cinematographers, producers and manufacturers in the production process, whilst others explore different formats including sport, novella and soap opera, news and current affairs, music and reality TV. The final section analyses the pivotal role played by audiences in the contexts of gender, race and class, and spans a range of topics from effects studies to audience consumption. The SAGE Handbook of Television Studies is an essential reference work for all
