Media Criticism in a Digital
Age introduces readers to a
variety of critical approaches
to audio and video discourse
on radio, television and the
Internet. It is intended for

those preparing for electronic media careers as well as for anyone seeking to enhance their media literacy. This book takes the unequivocal view that the material heard and seen over digital media is worthy of serious consideration. Media Criticism in a Digital Age applies key aesthetic, sociological, philosophical, psychological, structural and economic principles to arrive at a comprehensive evaluation of programming and advertising content. It offers a rich blend of insights from both industry and academic authorities. These insights range from the observations of Plato and Aristotle to the research that

motivates twenty-first century marketing and advertising. Key features of the book are comprised of: multiple video examples including commercials, cartoons and custom graphics to illustrate core critical concepts; chapters reflecting today's media world, including coverage of broadband and social media issues; fifty perceptive critiques penned by a variety of widely respected media observers and; a supplementary website for professors that provides suggested exercises to accompany each chapter (www.routledge.com/cw/orlik) Media Criticism in a Digital Age equips emerging media

professionals as well as perceptive consumers with the evaluative tools to maximize their media understanding and enjoyment.

The 25 Sitcoms that Changed Television: Turning Points in American Culture McFarland

In its exploration of some of the most influential, popular, or critically acclaimed television dramas since the year 2000, this book documents how modern television dramas reflect our society through their complex narratives about prevailing economic, political, security, and social issues. • Identifies and explores connections between critically acclaimed television dramas and real life in the 21st

century • Documents the qualities of television drama series since the turn of the 21st century in the latest era in television that some refer to as the "third golden age of television" • Offers accessible analysis of popular and current television dramas relevant to educators and students in the fields of media studies, television, and popular culture as well as anyone who enjoys modern television drama

Gender and the Modern Sherlock Holmes Oxford University Press

regional covers, a history of television programming, a publication history of the guide, and a table of the current market value for each issue. Focus On: 100 Most Popular United States National Medal of Arts Recipients Fordham Univ Press

This new book by the well-known anthropologists Jean and John L. Comaroff explores the global preoccupation with criminality in the early twenty-first century, a preoccupation strikingly disproportionate, in most places and for most people, to the risks posed by

lawlessness to the conduct of everyday life. Ours in an epoch in which law-making, law-breaking, and law-enforcement are ever more critical registers in which societies construct, contest, and confront truths about themselves, an epoch in which criminology, broadly defined, has displaced sociology as the privileged means by which the social world knows itself. They also argue that as the result of a tectonic shift in the triangulation of capital, the state, and governance, the meanings attached to crime and, with it, the nature of policing, have undergone significant change;

also, that there has been a palpable muddying of the lines between legality and illegality, between corruption and conventional business; even between crime-and-policing, which exist, nowadays, in ever greater, hyphenated complicity. Thinking through Crime and Policing is, therefore, an excursion into the contemporary Order of Things; or, rather, into the metaphysic of disorder that saturates the late modern world, indeed, has become its leitmotif. It is also a meditation on sovereignty and citizenship, on civility, class, and race, on the law and its transgression, on the

political economy of representation.

This carefully crafted ebook is formatted for your eReader with a functional and detailed table of contents. Captain America: Civil War is a 2016 American superhero film based on the Marvel Comics character Captain America, produced by Marvel Studios and distributed by Walt Disney Studios Motion

Pictures. It is the sequel to 2011's Captain America: The First Avenger and 2014's Captain America: The Winter Soldier, and the thirteenth film of the Marvel Cinematic Universe (MCU). The film is directed by Anthony and Joe Russo, with a screenplay by Christopher Markus & Stephen McFeely, and features an ensemble cast, including Chris Evans, Robert Downey Jr., Scarlett Johansson, Sebastian Stan, Anthony Mackie, Don Cheadle, Jeremy Renner, Chadwick Boseman, Paul

Bettany, Elizabeth Olsen, Paul Rudd, Emily VanCamp, Tom Holland, Frank Grillo, William Hurt, and Daniel Brühl. In *Captain America: Civil War*, disagreement over international oversight of the Avengers fractures them into opposing factions—one led by Steve Rogers and the other by Tony Stark. This book has been derived from Wikipedia: it contains the entire text of the title Wikipedia article + the entire text of all the 634 related (linked) Wikipedia articles to

The word ‘prepper’ seems to have burst onto the scene within the last 10 years, and has increasingly become associated with “fringe” extremists. They have been labeled by some as “domestic terrorists.” But is prepping a new phenomenon? Or is it a manifestation of a growing collective psyche that has learned, from traumatic events throughout our history, that preparedness is critical to human survival? For new

preppers who think the worst is yet to come, this book offers a walk through history that shows the worst has been here before. For those who wonder why so many people are concerned about being prepared, this book will show that when the worst has made an appearance, those who weathered it best were those who were prepared. For those already familiar with history’s worst who think, “THAT will never happen again!”—this book offers a reminder of the Wall Street adage: “Past performance is no guarantee of future results.” For those who

wonder what a prepper is, this book offers a look at what they used to be—and what they are today.

take a walk down memory lane, and answer “ ____ Masters in Rin Tin Tin ” (just 3 letters). Try the best contemporary crosswords from TV Guide Crosswords Magazine. All that, plus brain teasers and fun trivia quizzes offer hours of fun.

TV Guide University of Chicago Press

In *The History of Music Production*, Richard James Burgess draws on his experience as a producer, musician, and author.

Beginning in 1860 with the first known recording of an acoustic sound and moving forward chronologically, Burgess charts the highs and lows of the

industry throughout the decades and concludes with a discussion on the present state of music production. Throughout, he tells the story of the music producer as both artist and professional, including biographical sketches of key figures in the history of the industry, including Fred Gaisberg, Phil Spector, and Dr. Dre. Burgess argues that while technology has defined the nature of music production, the drive toward greater control over the process, end result, and overall artistry come from producers. The result is a deeply knowledgeable book

that sketches a critical path in the evolution of the field, and analyzes the impact that recording and disseminative technologies have had on music production. A key and handy reference book for students and scholars alike, it stands as an ideal companion to Burgess's noted, multi-edition book *The Art of Music Production*.

The Worlds of Farscape

Springer

On March 15, 2011, Donald Trump changed television forever. The Comedy Central Roast of Trump was the first major live broadcast to place a hashtag in the

corner of the screen to encourage real-time reactions on Twitter, generating more than 25,000 tweets and making the broadcast the most-watched Roast in Comedy Central history. The #trumproast initiative personified the media and tech industries' utopian vision for a multi-screen and communal live TV experience. In *Social TV: Multi-Screen Content and Ephemeral Culture*, author Cory Barker reveals how the US television industry promised—but failed to

deliver—a social media revolution in the 2010s to combat the imminent threat of on-demand streaming video. Barker examines the rise and fall of Social TV across press coverage, corporate documents, and an array of digital ephemera. He demonstrates that, despite the talk of disruption, the movement merely aimed to exploit social media to reinforce the value of live TV in the modern attention economy. Case studies from broadcast networks to tech start-ups uncover a persistent

focus on community that aimed to monetize consumer behavior in a transitional industry period. To trace these unfulfilled promises and flopped ideas, Barker draws upon a unique mix of personal Social TV experiences and curated archives of material that were intentionally marginalized amid pivots to the next big thing. Yet in placing this now-forgotten material in recent historical context, Social TV shows how the era altered how the industry pursues audiences. Multi-screen

campaigns have shifted away from a focus on live TV and toward all-day “content” streams. The legacy of Social TV, then, is the further embedding of media and promotional material onto every screen and into every moment of life.

Today's media, cinema and TV screens are host to new manifestations of myth, their modes of storytelling radically transformed from those of

ancient Greece. They present us with narratives of contemporary customs and belief systems: our modern-day myths. This book argues that the tools of transmedia merchandising and promotional material shape viewers' experiences of the hit television series Star Trek, to reinforce the mythology of the gargantuan franchise. Media marketing utilises the show's method of recycling the narratives of classical heritage, yet it also looks forward to the future. In this way, it reminds consumers of the Star Trek story's ongoing centrality within

popular culture, whether in the form of the original 1960s series, the later additions such as *Voyager* and *Discovery* or J. J. Abrams' 'reboot' films. Chapters examine how oral and literary traditions have influenced the series structure and its commercial image, how the cosmological role of humanity and the Earth are explored in title sequences across various Star Trek media platforms, and the multi-faceted way in which Internet, video game and event spin-offs create rituals to consolidate the space opera's fan base. Fusing key theory from film, TV, media

and folklore studies, as well as anthropology and other specialisms, *To Boldly Go* is an authoritative guide to the function of myth across the whole Star Trek enterprise. TV Guide Indiana University Press

One of the most popular shows to come out of Shondaland, Shonda Rhimes' s production company, is ABC' s political drama *Scandal* (2012 – 18)—a series whose tremendous success and marketing savvy led LA Times critic Mary

McNamara to hail it as "the show that Twitter built" and Time magazine to name its protagonist as one of the most influential fictional characters of 2013. The series portrays a fictional Washington, DC, and features a diverse group of characters, racially and otherwise, who gather around the show' s antiheroine, Olivia Pope, a powerful crisis manager who happens to have an extramarital affair with the president of the United States. For seven seasons,

audiences learned a great deal about Olivia and those interwoven in her complex world of politics and drama, including her team of "gladiators in suits," with whom she manages the crises of Washington ' s political elite. This volume, named for both Olivia ' s team and the show ' s fans, analyzes the communication, politics, stereotypes, and genre techniques featured in the television series while raising key questions about the intersections of race, gender, sexuality, and viewing	audiences. The essays range from critical looks at various members of Scandal ' s ensemble, to in-depth analyses of the show ' s central themes, to audience reception studies via interviews and social media analysis. Additionally, the volume contributes to research on femininity, masculinity, and representations of black womanhood on television. Ultimately, this collection offers original and timely perspectives on what was one of America ' s most	"scandalous" prime-time network television series. e-Pedia: Game of Thrones (season 6) e-artnow sro Master the art of article writing! The world of journalism is changing rapidly, and the modern journalist needs more than a basic knowledge of article writing to navigate it. Press of Mississippi Reversing a common science</p> 	<p>fiction cliché, <i>Farscape</i> follows the adventures of the human astronaut John Crichton after he is shot through a wormhole into another part of the universe. Here Crichton is the only human being, going from being a member of the most intelligent species on our planet to being frequently considered mentally deficient by the beings he encounters in his new environment. John Crichton befriends a group of beings from various species attempting to escape from imprisonment aboard a living</p>
---	--	--

spaceship. The series, which broke many of the so-called “rules” of science fiction, follows Crichton’s attempts to survive in worlds that are often hostile to him and his friends. Their adventures center on each being’s attempt to find a way home. The essays in this volume explore themes running throughout the series, such as good and evil, love and sex, and what it means to be a hero, as well as the various characters populating the series, including the villains and even the ship itself.

Focus On: 100 Most Popular Television Series by Sony Pictures Television e-arnow sro Whether it’s Sherlock Holmes solving crimes or Sheldon and Leonard geeking out over sci-fi, geniuses are central figures on many of television’s most popular series. They are often enigmatic, displaying superhuman intellect while struggling with mundane aspects of daily life. This collection of new essays explores why TV geniuses fascinate us and how they shape our perceptions of what it means to be highly intelligent. Examining series like Criminal Minds, The Big Bang Theory, Bones, Elementary, Fringe, House, The Mentalist,

Monk, Sherlock, Leverage and others, scholars from a variety of disciplines discuss how television both reflects and informs our cultural understanding of genius. The Complete Guide to Article Writing e-arnow sro An Oscar-winning Best Actress for her tour-de-force role in Come Back, Little Sheba, Shirley Booth would ultimately win every major acting award that could be bestowed on an actress. Awarded three Tony Awards, two Emmys, and a Golden Globe, Booth was described by the judges at the Cannes Film Festival as “The World’s Best Actress.” Yet today fans know her best as the

warm-hearted, busybody maid of television ' s Hazel. This, the first biography of the beloved star, provides complete coverage of a career that encompassed theater, film, radio, and television, and co-stars such as Humphrey Bogart and Katharine Hepburn. It begins with Shirley ' s childhood in Brooklyn, and her rebellious decision to become an actress against the wishes of her strict father. Included is complete coverage of her tumultuous marriage to radio comedian Ed Gardner (of " Duffy ' s Tavern " fame), and a second, happier union

that ended abruptly with her husband ' s death of a heart attack. Readers of this exhaustively researched biography will come to know a versatile and gifted star whose career spanned almost 60 years. Appendices provide extensive details of her Broadway, film, radio and television (episode-by-episode) credits.

Taylor & Francis
When American Jewish men intermarry, goes the common assumption, they and their families are "lost" to the Jewish religion. In this provocative book, Keren R. McGinity

shows that it is not necessarily so. She looks at intermarriage and parenthood through the eyes of a post-World War II cohort of Jewish men and discovers what intermarriage has meant to them and their families. She finds that these husbands strive to bring up their children as Jewish without losing their heritage. Marrying Out argues that the "gendered ethnicity" of intermarried Jewish men, growing out of their religious and cultural background, enables them to raise Jewish children. McGinity's book is a major breakthrough in understanding

Jewish men's experiences as husbands and fathers, how Christian women navigate their roles and identities while married to them, and what needs to change for American Jewry to flourish. Marrying Out is a must read for Jewish men and all the women who love them.
