### **Secrets and Spies** MIT Press

This is the first comparative analysis of the political transitions in South Africa and Palestine since the 1990s. Clarno s study is grounded in impressive ethnographic fieldwork, taking him from South African townships to Palestinian refugee camps, where he talked to a wide array of informants, from local residents to policymakers, political activists, business representatives, and local and international security personnel. The resulting inquiry accounts for the simultaneous development of extreme inequality, racialized poverty, and advanced strategies for securing the powerful and policing the poor in South Africa and Palestine/Israel over the last 20 years. Clarno places these transitions in a global context while arguing that a new form of neoliberal apartheid has emerged in both countries. The width and depth of Clarno s research, combined with wide-ranging first-hand accounts of realities otherwise difficult for researchers to access, make Neoliberal Apartheid a path-breaking contribution to the study of social change, political transitions, and security dynamics in highly unequal societies. Take one example of Clarno s major themes, to wit, the issue of security. Both places have generated advanced strategies for securing the powerful and policing the racialized poor. In South Africa, racialized anxieties about black crime shape the growth of private security forces that police poor black South Africans in wealthy neighborhoods. Meanwhile, a discourse of Muslim terrorism informs the coordinated network of security forces involving Israel, the United States, Jordan, and the Palestinian Authority that polices Palestinians in the West Bank. Overall, Clarno s pathbreaking book shows how the

shifting relationship between racism, capitalism, colonialism, and empire has generated inequality and insecurity, marginalization and securitization in South Africa, Palestine/Israel, and other parts of the world."

### **Building Better Boards** Egmont UK Limited

Boards and commissions, an important part of Catholic education since the late 1800s, experienced a significant revival in the decades following the Vatican Council II. Today, approximately 68 percent of the Catholic schools in the United States have some form of educational governance structure. Although the primary focus of this handbook, which contains 10 chapters, is on Catholic school boards and boards of trustees, the principles and much of the materials are easily adaptable to councils, commissions, and committees for other diocesan, parish, and religious education programs. Specifically, the chapters define a Catholic school board; discuss policy formation and enactment; review selection and appointment of the principal; study the roles and relationships of boards and schools; and cover board meetings.

Additional chapters explore planning, the role of the board in finances; development and public relations/marketing; evaluation of and by the board; and membership. The 12 appendices contain sample constitutions for a variety of educational governance structures, definitions and guidelines related to Catholic school principal selection, the functions of the board and a board member's profile, and sample diocesan policies. Practicing subsidiarity and collaboration, school boards and other diocesan, parish, and educational councils and commissions can effectively and efficaciously serve the church's educational mission. The bibliography contains 33 references. (KM)

The telephone marks the place of an absence. Affiliated with discontinuity, alarm, and silence, it raises fundamental questions about the constitution of self and other, the stability of location, systems of transfer, and the destination of speech. Profoundly changing our concept of long-distance, it is constantly transmitting effects of real and evocative power. To the extent that it always relates us to the absent other, the telephone, and the massive switchboard attending it, plugs into a hermeneutics of mourning. The Telephone Book, itself organized by a "telephonic logic," fields calls from philosophy, history, literature, and psychoanalysis. It installs a switchboard that hooks up diverse types of knowledge while rerouting and jamming the codes of the disciplines in daring ways. Avital Ronell has done nothing less than consider the impact of the telephone on modern thought. Her highly original, multifaceted inquiry into the nature of communication in a technological age will excite everyone who listens in. The book begins by calling close attention to the importance of the telephone in Nazi organization and propaganda, with special regard to the philosophy of Martin Heidegger. In the Third Reich the telephone became a weapon, a means of state surveillance, "an open accomplice to lies." Heidegger, in *Being and Time* and elsewhere, elaborates on the significance of "the call." In a tour de force response, Ronell mobilizes the history and terminology of the telephone to explicate his difficult philosophy. Ronell also speaks of the appearance of the telephone in the literary works of Duras, Joyce, Kafka, Rilke, and Strindberg. She examines its role in psychoanalysis—Freud said that the unconscious is structured like a telephone, and Jung and R. D. Laing saw it as a powerful new body part. She traces its historical development from Bell's famous first call: "Watson, come here!" Thomas A. Watson, his

assistant, who used to communicate with spirits, was eager to get the telephone to talk, and thus to link technology with phantoms and phantasms. In many ways a meditation on the technologically constituted state, *The Telephone Book* opens a new field, becoming the first political deconstruction of technology, state terrorism, and schizophrenia. And it offers a fresh reading of the American and European addiction to technology in which the telephone emerges as the crucial figure of this age.

The Wilderness is not a place to be feared. It will be a place of bearing the fruit of Jesus and His ministry for the true believer through the power of the Spirit. {Isa.32:15} until the Spirit be poured upon us from on high, and the wilderness become a fruitful field, and the fruitful field be esteemed as a forest. {51:3} For Jehovah hath comforted Zion; he hath comforted all her waste places, and hath made her wilderness like Eden, and her desert like the garden of Jehovah; joy and gladness shall be found therein, thanksgiving, and the voice of melody. It will be a place of peace and rest through faith in God's Word. For Israel, as a type of the Church, it was a place of deliverance and rest from the Beast kingdom. {Eze.34:25} And I will make with them a covenant of peace, and will cause evil beasts to cease out of the land; and they shall dwell securely in the wilderness, and sleep in the woods. It is a place of supernatural provision. {Rev.12:14} And there were given to the woman the two wings of the great eagle, that she might fly into the wilderness unto her place, where she is nourished for a time, and times, and half a time, from the face of the serpent. Be encouraged by this faith building-book.
