In this inspirational yet practical book, the man Parade called “the most important coach in America,” subject of the national bestseller *Season of Life*, Joe Ehrmann, describes his coaching philosophy and explains how sports can transform lives at every level of play, from the earliest years to professional sports. Coaches have a tremendous platform, says Joe Ehrmann, a former Syracuse University All-American and NFL star. Perhaps second only to parents, coaches can impact young people as no one else can. But most coaches fail to do the teaching, mentoring, even life-saving intervention that their platform provides. Too many are transactional coaches; they focus solely on winning and meeting their personal needs. Some coaches, however, use their platform. They teach the Xs and Os, but also teach the Ys of life. They help young people grow into responsible adults; they leave a lasting legacy. These are the transformational coaches. These coaches change lives, and they also change society by helping to develop healthy men and women. *InSideOut Coaching* explains how to become a transformational coach. Coaches first have to “go inside” and articulate their reasons for coaching. Only those who have taken the *InSideOut* journey can become transformational. Joe Ehrmann provides examples of coaches in his life who took this journey and taught him how to find something bigger than himself in sports. He describes his own *InSideOut* experience, starting with the death of his beloved brother, which helped him understand how sports could transcend the playing field. He gives coaches the information and the tools they need to become transformational. Joe Ehrmann has taken his message about the extraordinary power of sports all over the country. It has been warmly endorsed by NFL head coaches, athletic directors at major universities, high school head coaches, even business groups and community organizations. Now any parent-coach or school or community coach can read Ehrmann’s message and learn how to make sports a life-changing experience.

In the era of the "Cheerlebrity" Peppermint as a whole defined the word. Eighteen young children were placed on a Level 1 Allstar cheerleading team at one of the most renowned cheer programs in the world. Follow the unbelievable story of the 2014-2015 Stingray Allstars Peppermint, a team that uplifts an

entire community through friendship, teamwork, triumph and belief in one another. This story is written from the perspective of an unsuspecting team dad who is thrust into the ultra-competitive, high-octane sport of Allstar Cheerleading. Through hard work, dedication, injury and sacrifice they molded into a team that in their own minds, were just as good and talented as any Senior 5 team in the world. Peppermint captured the hearts of many by their determination, work ethic, overcoming the impossible and the energy that electrified even the most casual Allstar cheer fan. This story epitomizes the beauty of youth sports and highlights the power of a coach who believed with all her heart that this team was going to be special. The coach instills an unbreakable belief in the hearts of every child that they could be the best in the world, and this team dared to believe it. Will they be able to achieve the goal that no one saw coming?

Leaving behind a nomadic and dangerous career as a journalist, Sarah DeVaughan returns to India, the country of her childhood and a place of unspeakable family tragedy, to help preserve the endangered Bengal tigers. Meanwhile, at home in Kentucky, her sister, Quinn-also deeply scarred by the past and herself a keeper of secrets-tries to support her sister, even as she fears that India will be Sarah's undoing. As Sarah faces challenges in her new job-made complicated by complex local politics and a forbidden love-Quinn copes with their mother's refusal to talk about the past, her son's life-threatening illness, and her own increasingly troubled marriage. When Sarah asks Quinn to join her in India, Quinn realizes that the only way to overcome the past is to return to it, and it is in this place of stunning natural beauty and hidden danger that the sisters can finally understand the ways in which their family has disappeared-from their shared history, from one another-and recognize that they may need to risk everything to find themselves again. With dramatic urgency, a powerful sense of place, and a beautifully rendered cast of characters revealing a deep understanding of human nature in all its flawed glory, Katy Yocom has created an unforgettable novel about saving all that is precious, from endangered species to the indelible bonds among family.

He who laughs last, laughs longest. Unless he's dead. When romance author Hazel Rose is dropped by her publisher, she sees herself heading down a path strewn with has-been authors. While disappointed, Hazel won't give up without a fight—she signs up for a mystery-writing class, thinking that crime fiction will jumpstart her career. But what's a mystery-writing class without a mystery? So when Randy Zimmerman, an obnoxious classmate given to laughing at others' expense, is murdered, Hazel tackles the case. Solving a real-life murder will surely lend authenticity to her creative writing. She recruits her book group pals to help with the investigation. Trouble is, there are more suspects than they bargained for—even Hazel herself, who endured Randy's thumbs-way-down review of her writing, had a motive. A second body drives the stakes higher, and Hazel doubles her efforts to find who's behind the murders, unearthing secrets that a killer would go to any lengths to keep hidden. Will Hazel succeed? Or will this be "The End" for her?

*Scales on War* is a collection of ideas, concepts and observations about contemporary war taken from over 30 years of research, writing and personal experience by retired Major General Bob Scales. The book melds Scales' unique style of writing that includes contemporary military history, current events and his philosophy of ground warfare to create a very personal and expansive view of where American defense policies are heading in the future. The book is a collection. Each chapter addresses distinct topics that embrace tactical ground warfare, future gazing, the draft and the role of women in the infantry. His unifying thesis is that throughout its history the United States has favored a technological approach to fighting its wars and has neglected its ground forces. America's enemies have learned though the experience of battle how to defeat American technology. The consequences of a learning and adaptive enemy has been a continuous string of battlefield defeats. Scales argues that only a resurgent land force of Army and Marine small units will restore America's fighting competence.

This accessible, hands-on text not only introduces students to the important topics in historical linguistics but also shows them how to apply the methods described and how to think about the issues; abundant examples and exercises allow students to focus on how to do historical linguistics. Distinctive to this text is its integration of the standard topics with others now considered important to the field, including syntactic change, grammaticalization, sociolinguistic contributions to linguistic change, distant genetic relationships,

areal linguistics, and linguistic prehistory. Examples are taken from a broad range of languages; those from the more familiar English, French, German, and Spanish make the topics more accessible, while those from non-Indo-European languages show the depth and range of the concepts they illustrate. This second edition features expanded explanations and examples as well as updates in light of recent work in linguistics, including a defense of the family tree model, a response to recent claims on lexical diffusion/frequency, and a section on why languages diversify and spread.

**GOOD MORNING AMERICA BUZZ PICK • The Pulitzer Prize** – winning playwright and co-writer of *In the Heights* tells her lyrical story of coming of age against the backdrop of an ailing Philadelphia barrio, with her sprawling Puerto Rican family as a collective muse. **LOGLISTED FOR THE ANDREW CARNEGIE MEDAL • ONE OF THE BEST BOOKS OF THE YEAR: NPR, New York Public Library, BookPage, and BookRiot • “ Quiara Alegri** a Hudes is in her own league. Her sentences will take your breath away. How lucky we are to have her telling our stories. ” —Lin-Manuel Miranda, award-winning creator of *Hamilton* and *In the Heights* Quiara Alegri a Hudes was the sharp-eyed girl on the stairs while her family danced their defiance in a tight North Philly kitchen. She was awed by her mother and aunts and cousins, but haunted by the unspoken, untold stories of the barrio—even as she tried to find her own voice in the sea of language around her, written and spoken, English and Spanish, bodies and books, Western art and sacred altars. Her family became her private pantheon, a gathering circle of powerful orisha-like women with tragic real-world wounds, and she vowed to tell their stories—but first she'd have to get off the stairs and join the dance. She'd have to find her language. Weaving together Hudes's love of music with the songs of her family, the lessons of North Philly with those of Yale, this is a multimythic dive into home, memory, and belonging—narrated by an obsessed girl who fought to become an artist so she could capture the world she loved in all its wild and delicate beauty.

Have you ever wondered what left behind those prints and tracks on the seashore, or what made those marks or dug those holes in the dunes? *Life Traces of the Georgia Coast* is an up-close look at these traces of life and the animals and plants that made them. It tells about how the tracemakers lived and how they interacted with their environments. This is a book about ichnology (the study of such traces) and a wonderful way to learn about the behavior of organisms, living and long extinct. *Life Traces* presents an overview of the traces left by modern animals and plants in this biologically rich region; shows how life traces relate to the environments, natural history, and behaviors of their tracemakers; and applies that knowledge toward a better understanding of the fossilized traces that ancient life left in the geologic record. Augmented by illustrations of traces made by both ancient and modern organisms, the book shows how ancient trace fossils directly relate to modern traces and tracemakers, among them, insects, grasses, crabs, shorebirds, alligators, and sea turtles. The result is an aesthetically appealing and scientifically grounded book that will serve as source both for scientists and for anyone interested in the natural history of the Georgia coast.
