This is the story of the children of the revolution, of many revolutions. This is real life on a Caribbean island, in fact: on two islands. Argenis Luna is an artist who no longer paints, a heroin addict who no longer uses, and an overgrown child trying to make sense of his inheritance in the Dominican Republic, a country where his once-revolutionary father and his comrades are now part of the ruling elite. Thrown out of rehab in Havana, Argenis picks his way between his own crisis and the detritus of an abandoned generation in a series of highly charged encounters with drag queens, fellow artists, and the gleaming muscles of his former dealer. After the nightmare-ish hallucination of Tentacle, Rita Indiana's new novel strikes a mellower note as it conjures up this vivid world in all its beauty, love and corruption.

Is this the beginning of the Apocalypse? In a riveting archaeological detective story, Adrian Gilbert takes us back -- from the wisdom of the ancients through the secrecy of the early Christian world. Using the same techniques that unlocked the secrets of the Egyptian pyramids in The Orion Mystery, Gilbert penetrates the mysteries of prophecies set forth in the Old and New Testaments. In Signs in the Sky, Gilbert brings his acute understanding of esoteric astrology to his investigations of ancient Egypt, the pyramids, and the Bible. He explains how the constellation Orion, known to the ancients as the primary symbol for " the Son of Man in heaven, " is the key to understanding many of the prophecies contained in the Book of Revelation as well as other books in the Bible. In this startlingly original book, he provides answers to some of the most profound questions of our time such as: Are we now at the end of one of history's great ages? And what does the next one hold in store? Buried within the Old and New Testaments, Gilbert has found what might be the key to our future: the signs in the sky. "From the Trade Paperback edition."

A Place in the Country is W. G. Sebald ’ s meditation on the six artists and writers who shaped his creative mind—and the last of this great writer ’ s major works to be translated into English. This edition includes more than 40 pieces of art, all originally selected by W. G. Sebald. This extraordinary collection of interlinked essays about place, memory, and creativity captures the inner worlds of five authors and one painter. In his masterly and mysterious style—part critical essay, part memoir—Sebald weaves their lives and art with his own migrations and rise in the literary world. Here are people gifted with talent and courage yet in some cases cursed by fragile and unstable natures, working in countries inhospitable or even hostile to them. Jean-Jacques Rousseau is conjured on the verge of physical and mental exhaustion, hiding from his detractors on the island of St. Pierre, where two centuries later Sebald took rooms adjacent to his. Eighteenth-century author Johann Peter Hebel is remembered for his exquisite and delicate nature writing, expressing the eternal balance of both the outside world and human emotions. Writer Gottfried Keller, best known for his 1850 novel Green Henry, is praised for his prescient insights into a Germany where “ the gap between self-interest and the common good was growing ever wider. ” Sebald compassionately re-creates the ordeals of Eduard M ö rike, the nineteenth-century German poet beset by mood swings, depression, and fainting spells in an increasingly shallow society, and Robert Walser, the institutionalized author whose nearly indecipherable scrawls seemed an attempt to “ duck down below the level of language and obliterate himself ” (and whose physical appearance and year of death mirrored those of Sebald ’ s grandfather). Finally, Sebald spies a cognizance of death ’ s inevitability in painter Jan Peter Tripp ’ s lovingly exact reproductions of life. Featuring the same kinds of suggestive and unexplained illustrations that appear in his masterworks Austerlitz and The Rings of Saturn, and translated by Sebald ’ s colleague Jo Catling, A Place in the Country is Sebald ’ s unforgettable self-portrait as seen through the experiences of others, a glimpse of his own ghosts alongside those of the men who influenced him. It is an essential addition to his stunning body of work. Praise for A Place in the Country “ Measured, solemn, sardonic . . . hypnotic . . . [W. G. Sebald ’ s] books, which he made out of classics, remain classics for now. ” —Joshua Cohen, The New York Times Book Review “ In Sebald ’ s writing, everything is connected, everything webbed together by the unseen threads of history, or chance, or fate, or death. The scholarly craft of gathering scattered sources and weaving them into a coherent whole is transformed here into something beautiful and unsettling, elevated into an art of the uncanny—an art that was, in the end, Sebald ’ s strange and inscrutable gift. ” —Slate “ Magnificent . . . The multiple layers surrounding each essay are seamless to the point of imperceptibility. ” —New York Daily News “ Sebald ’ s most tender and jovial book. ” —The Nation “ Reading [A Place in the Country is] like going for a walk with a beautifully talented, deeply passionate novelist from Mars. ” —New York

A rare art history classic that The New York Times calls a “ delightful, scholarly and gossipy romp through the character and conduct of artists from antiquity to the French Revolution. ” Born Under Saturn is a classic work of scholarship written with a light and winning touch. Margot and Rudolf Wittkower explore the history of the familiar idea that artistic inspiration is a form of madness, a madness directly expressed in artists ’ unhappy and eccentric lives. This idea of the alienated artist, the Wittkowers demonstrate, comes into its own in the Renaissance, as part of the new bid by visual artists to distinguish themselves from craftsmen, with whom they were then lumped together. Where the skilled artisan had worked under the sign of light-fingered Mercury, the ambitious artist identified himself with the mysterious and brooding Saturn. Alienation, in effect, was a rung by which artists sought to climb the social ladder. As to the reputed madness of artists—well, some have been as mad as hatters, some as tough-minded as the shrewdest businessmen, and many others wildly and willfully eccentric but hardly crazy. What is certain is that no book presents such a splendid compendium of information about artists ’ lives, from the early Renaissance to the beginning of the Romantic era, as Born Under Saturn. The Wittkowers have read everything and have countless anecdotes to relate: about artists famous and infamous; about suicide, celibacy, wantonness, weird hobbies, and whatnot. These make Born Under Saturn a comprehensive, quirky, and endlessly diverting resource for students of history and lovers of the arts. “ This book

is fascinating to read because of the abundant quotations which bring to life so many remarkable individuals. ” — The New York Review of Books Saturn’s Children WordFire +ORM Alice Crary offers a transformative account of moral thought about human beings and animals. Instead of assuming that the world places no demands on our moral imagination, she underscores the urgency of treating the exercise of moral imagination as necessary for arriving at an adequate world-guided understanding of human beings and animals. General Book of the Tarot e-artnow Teresa Edgerton's acclaimed debut novel available again after thirty years, and now in ebook for the first time. The wizard Glastyn, defender of the realm, tamer of the Wild Magic, had disappeared, leaving behind a disillusioned king and an order of complacent and indolent knights. The Princess Diaspad, royal step-sister, worker of wicked magics, thought this would be a good time to move into the castle and make a play for power. Who could stop her? Teleri was Glastyn's apprentice, and had only completed part of her training when Glastyn had left. At the age of twelve she had made up her mind against growing any older and used what magic she had to make it so. Half-trained wizards who happened to be female always ran the risk of accusations of witchcraft, which was illegal and punishable by death. So she cultivated a type of invisibility, the kind that largely depended on being small and harmless-looking—most of all on not drawing attention to herself. Ceilyn was the most valiant young knight in the castle, widely known as a moral example to all—and deeply resented on both counts. But Ceilyn had a secret, one that could prove deadly. It also, surprisingly, drew him to Teleri, as the only person he dared trust with the truth. And once they became friends, it seemed it was somehow up to them to stop whatever the Princess was up to. But had they the ability to thwart her, or were they putting themselves into inescapable danger: Teleri by being noticed, and Ceilyn by accidentally revealing his own secrets? Edgerton spins history, mythology, magic, and alchemy into a fascinating web of chance and circumstance. This classic astrology text, revered by beginners and professional astrologers alike, is now available in a Weiser Classics edition. “ The most important single contribution of twentieth-century astrology is that astrology is not a map of one ’ s fixed destiny but is a potential map of the unfolding of the authentic, higher self. ” —Robert Hand, from the foreword Saturn ’ s darker persona is recognized universally in myth and fairytale. In this classic astrology text, renowned astrologer and Jungian analyst Liz Greene offers a fresh perspective on how to handle the influence of this much-maligned astrological symbol. In Saturn, Greene shows us how the frustrating experiences connected to this planet can be turned into opportunities for greater insight and meaning in our lives. Saturn, she says, symbolizes a psychic process—one that allows us to utilize the experience of pain for self-discovery and a more fulfilling and complete life. Greene retraces Saturn ’ s character through sign, house, aspect, and synastry in a brilliant analysis that reveals his other face: that of the initiator who, for the price of our honesty with ourselves,

offers us greater consciousness, self-understanding, and, eventually, freedom.
