A research team and a blind old sailor slyly spar over the truth of a long-ago shipwreck, a mad island of dead gods and the mystery of a lost manuscript. Neither sailor nor interviewer is

what they seem; and both must learn to work together to find what they seek. Seemingly, Clarence St. Elmo sits old and blind in the Sailor's Safe Harbor Home. A patient interviewer sifts his wandering memories for details of the wreck of the Unicorn, a cargo schooner lost long ago in the South Pacific. But Clarence St. Elmo is also a young man who finds himself on a cursed ship with a cargo of dead gods destined to be sunk in the Sea of Time. His love waits for his return, while mad voices in his head slyly pry for clues to a lost book. And always beyond the words and the memories, the dreadful storm circles closer. A romance of memory, across the sea of time. From the book: Describe the dance in the moonlight. The girl stopped dancing at the first bird chirp of dawn. The ruined walls pooled the remainder of night like a hollow on a beach when the tide draws away. Exhausted, I stared up at a patch of

coloring on a tree-top. My heart beat for a drum. The girl looked at the sky, then regretfully towards the dark entrance to the crumbled house. She wasn't a bit tired. But she intended to retire for the day, no doubt taking me and Cut-Throat with her. She could do it, too. In the faint light her face was hungry and pretty and determined as a tiger's. If I bolted she would be on me before I made the archway. I crossed looks with Cut-Throat. He shook his head slightly, telling me the same. I tried not to look at the other fellow, who had no eyes to meet. He just stood there in rotting sea-man's clothes listening for the clap of her hands. But our Cut-Throat had taken the girl's measure. He'd noted what rhythm and time made her feet stamp, made her toss her ropes of hair. Now he began a slow sad dirge for the dying night. She turned to him, hands raised to clap an order. But I took her left hand and bowed and

stepped forward my right foot and she had no choice in her perfection of movement but to step back and then half turn as I did and we stepped forwards together two steps, then turned together as I placed my left hand on the small of her back and we skipped left three steps as the fiddle slyly slipped from dirge to a laughing tune that ran faster and faster till we were whirling and turning over the cold stones.

The New York Times bestselling author of *Writing My Wrongs* invites men everywhere on a journey of honesty and healing through this book of moving letters to his sons—one whom he is raising and the other whose childhood took place during Senghor's nineteen-year incarceration. "A visceral and visual journey for the ages . . . the perfect road map for us to remove the barriers and obstacles against our true feelings."—Kenya Barris, creator of black-ish **ONE OF THE MOST ANTICIPATED BOOKS OF 2022**—Essence Shaka Senghor has lived the life of two fathers. With his first son, Jay, born shortly after Senghor was incarcerated for second-degree murder, he experienced the regret of his own mistakes and the disconnection caused by a society that sees Black lives as disposable. With his second, Sekou, born after Senghor's release, he has experienced healing,

transformation, intimacy, and the possibilities of a world where men and boys can openly show one another affection, support, and love. In this collection of beautifully written letters to Jay and Sekou, Senghor traces his journey as a Black man in America and unpacks the toxic and misguided messages about masculinity, mental health, love, and success that boys learn from an early age. He issues a passionate call to all fathers and sons—fathers who don't know how to show their sons love, sons who are navigating a fatherless world, boys who have been forced to grow up before their time—to cultivate positive relationships with other men, seek healing, tend to mental health, grow from pain, and rewrite the story that has been told about them. *Letters to the Sons of Society* is a soulful examination of the bond between father and sons, and a touchstone for anyone seeking a kinder, more just world.

This volume of correspondence, the last in a three-volume edition, spans a pivotal moment in American history: the mid-twentieth century, from the beginning

of World War II, through the years of rebuilding and uneasy peace that followed, to the election of President John F. Kennedy. Robinson Jeffers published four important books during this period—*Be Angry at the Sun* (1941), *Medea* (1946), *The Double Axe* (1948), and *Hungerfield* (1954). He also faced changes to his hometown village of Carmel, experienced the rewards of being a successful dramatist in the United States and abroad, and endured the loss of his wife Una. Jeffers' letters, and those of Una written in the decade prior to her death, offer a vivid chronicle of the life and times of a singular and visionary poet.

stunning originality. Set in the same sprawling world of Miéville's Arthur C. Clarke Award-winning novel, *Perdido Street Station*, this latest epic introduces a whole new cast of intriguing characters and dazzling creations. Aboard a vast seafaring vessel, a band of prisoners and slaves, their bodies remade into grotesque biological oddities, is being transported to the fledgling colony of New Crobuzon. But the journey is not theirs alone. They are joined by a handful of travelers, each with a reason for fleeing the city. Among them is Bellis Coldwine, a renowned linguist whose services as an interpreter grant her passage—and escape from horrific punishment. For she is linked to Isaac Dan der Grimnebulin, the brilliant renegade scientist who has unwittingly unleashed a nightmare upon New Crobuzon. For Bellis, the plan is clear: live among the new frontiersmen of the colony until it is safe to return home. But when the ship is besieged by pirates on the Swollen Ocean, the senior officers are summarily executed. The surviving passengers are brought to Armada, a city constructed from the hulls of pirated ships, a floating, landless mass ruled by the bizarre duality called the Lovers. On Armada, everyone is given work, and even Remades live as equals to humans, Cactae, and Cray. Yet no one may ever leave. Lonely and embittered in

her captivity, Bellis knows that to show dissent is a death sentence. Instead, she must furtively seek information about Armada's agenda. The answer lies in the dark, amorphous shapes that float undetected miles below the waters—terrifying entities with a singular, chilling mission. . . . *China Miéville* is a writer for a new era—and *The Scar* is a luminous, brilliantly imagined novel that is nothing short of spectacular. **BONUS:** This edition contains an excerpt from *China Miéville's Embasytown*.

John Rankin was pastor of the Presbyterian Church of Ripley and Strait-Creek, in Brown County, Ohio. His brother Thomas was a Virginia businessman. Reverend Rankin wrote these thirteen letters "with the desire of aiding and encouraging every effort for the liberation of the enslaved and degraded Africans." He rebuts the canard that blacks are an inferior race: "What people, in similar circumstances, have ever given stronger marks of genius than are exhibited by the enslaved African of the United States?" By 1838 the book had gone through at least five editions, all of which are far more common than this first edition.

Galileo's telescopic discoveries, and especially his observation of sunspots, caused great debate in an age when the heavens were thought to be perfect and unchanging. Christoph Scheiner, a Jesuit mathematician, argued that sunspots were planets or moons crossing in front of the Sun. Galileo, on the other hand, countered that the spots were on or near the surface of the Sun itself, and he supported his position with a series of meticulous observations and mathematical demonstrations that eventually convinced even his rival. *On Sunspots* collects the correspondence that constituted the public debate, including the first English translation of Scheiner's two tracts as well as Galileo's three letters, which have previously appeared only in abridged form. In addition, Albert Van Helden and Eileen Reeves have supplemented the correspondence with lengthy introductions, extensive notes, and a bibliography. The result will become the standard work on the subject, essential for students and historians of astronomy, the telescope, and early modern Catholicism.

edition of Bruce Chatwin's classic work with a new introduction by Rory Stewart Part adventure, part novel of ideas, part spiritual autobiography, *The Songlines* is one of Bruce Chatwin's most famous books. Set in the desolate lands of the Australian Outback, it tells the story of Chatwin's search for the source and meaning of the ancient "dreaming tracks" of the Aborigines—the labyrinth of invisible pathways by which their ancestors "sang" the world into existence. This singular book, which was a New York Times bestseller when it was published in 1987, engages all of Chatwin's lifelong passions, including his obsession with travel, his interest in the nomadic way of life, and his hunger to understand man's origins and nature. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well

as up-to-date translations by award-winning translators.

Inspired by the lettering community and the beauty of floral illustrations, I found a passion in combining both to create something fun for people to color. Have fun coloring the alphabet that I illustrated with beautiful flowers. This coloring book has all 26 letters distinctly illustrated with floral designs. From kids to adults, this coloring book is fun for everyone.

Mary Wollstonecraft was one of the most distinctive letter writers of the eighteenth century. She talked and thought on paper: her letters were a large part of the drama of her life. In them we see her grow from an awkward child of fourteen into the pioneering feminist and author of *A Vindication of the Rights of Woman*, and finally into the woman of thirty-eight facing death in childbirth. This edition contains the complete correspondence of Mary Wollstonecraft, including a recently discovered interchange with the historian Catherine Macaulary and the only known fragments of letters to the Swiss artist Fuseli, with whom Wollstonecraft had a passionate friendship.

Ancient tradition suggests that this world-weary lament is the work of Solomon in old age. Casting

its eye over the transient nature of life, the book questions the striving for wisdom and the truth, choosing instead to espouse the value of living for the moment. The text is introduced by Doris Lessing.

"Wonderful...the closest we are ever going to get to a Chatwin autobiography." -William Dalrymple, *The Times Literary Supplement* (London) The celebrated author of such beloved works as *In Patagonia* and *The Songlines*, Bruce Chatwin was a nomad whose desire for adventure and enlightenment was made wholly evident by his writing. This marvelous selection of letters—to his wife, to his parents, and to friends, including Patrick Leigh Fermor, James Ivory, and Paul Theroux—reveals a passionate man and a storyteller par excellence. Written with the verve and sharpness of expression that first marked him as an author of singular talent, Chatwin's letters provide a window into his remarkable life and strikingly detailed insights regarding his literary ambitions and tastes.

quickest sense of humor of any woman he had met. From their first encounter in 1923, Vladimir's letters to Vera chronicle a half-century-long love story, one that is playful, romantic, and memorable. At the same time, the letters reveal much about their author. We see the infectious fascination with which Vladimir observed everything—animals, people, speech, landscapes and cityscapes—and glimpse his ceaseless work on his poems, plays, stories, novels, memoirs, screenplays, and translations. This delightful volume is enhanced by twenty-one photographs, as well as facsimiles of the letters and the puzzles and drawings Vladimir often sent to Vera. The Zen monk argues for a more mindful, spiritual approach to environmental protection and activism—one that recognizes people and planet as one and the same. While many experts point to the enormous complexity in addressing issues ranging from the destruction of ecosystems to the loss of millions of species, Thich Nhat Hanh identifies one key issue as having the potential to create a tipping point. He believes that we need to move beyond the concept of the “environment,” as it leads people to experience themselves and Earth as two separate entities and to see the planet only in terms of what it can do for them. Thich Nhat Hanh points to the lack of meaning and connection in peoples' lives as being the cause of our addiction to consumerism. He deems it vital that we

recognize and respond to the stress we are putting on the Earth if civilization is to survive. Rejecting the conventional economic approach, Nhat Hanh shows that mindfulness and a spiritual revolution are needed to protect nature and limit climate change. *Love Letter to the Earth* is a hopeful book that gives us a path to follow by showing that change is possible only with the recognition that people and the planet are ultimately one and the same.

Drawing on startling new evidence from the mapping of the genome, an explosive new account of the genetic basis of race and its role in the human story. Fewer ideas have been more toxic or harmful than the idea of the biological reality of race, and with it the idea that humans of different races are biologically different from one another. For this understandable reason, the idea has been banished from polite academic conversation. Arguing that race is more than just a social construct can get a scholar run out of town, or at least off campus, on a rail. Human evolution, the consensus view insists, ended in prehistory. Inconveniently, as Nicholas Wade argues in *A Troublesome Inheritance*, the consensus view cannot be right. And in fact, we know that populations have changed in the past few thousand years—to be lactose tolerant, for example, and to survive at high altitudes. Race is not a bright-line distinction; by definition it means that the more human populations are kept apart, the more they

evolve their own distinct traits under the selective pressure known as Darwinian evolution. For many thousands of years, most human populations stayed where they were and grew distinct, not just in outward appearance but in deeper senses as well. Wade, the longtime journalist covering genetic advances for *The New York Times*, draws widely on the work of scientists who have made crucial breakthroughs in establishing the reality of recent human evolution. The most provocative claims in this book involve the genetic basis of human social habits. What we might call middle-class social traits—thrift, docility, nonviolence—have been slowly but surely inculcated genetically within agrarian societies, Wade argues. These “values” obviously had a strong cultural component, but Wade points to evidence that agrarian societies evolved away from hunter-gatherer societies in some crucial respects. Also controversial are his findings regarding the genetic basis of traits we associate with intelligence, such as literacy and numeracy, in certain ethnic populations, including the Chinese and Ashkenazi Jews. Wade believes deeply in the fundamental equality of all human peoples. He also believes that science is best served by pursuing the truth without fear, and if his mission to arrive at a coherent summa of what the new genetic science does and does not tell us about race and human history leads straight into a minefield, then so be it. This will not be the last word on the subject, but it will begin a powerful and overdue conversation.

One day Sophie comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?" Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.

### Under the Sun Penguin

'It has taken me a long time, my dearest Aza, to fathom the cause of that contempt in which women are held in this country ...' Zilia, an Inca Virgin of the Sun, is captured by the Spanish conquistadores and brutally separated from her lover, Aza. She is rescued and taken to France by D é terville, a nobleman, who is soon captivated by her. One of the most popular novels of the eighteenth century, the Letters of a Peruvian Woman recounts Zilia's feelings on her separation from both her lover and her culture, and her experience of a new and alien society. Fran ç oise de Graffigny's bold and innovative novel clearly appealed to the contemporary taste for the exotic and the timeless appetite for love stories. But by fusing sentimental fiction and social commentary, she also created a new kind of heroine, defined by her intellect as much as her feelings. The novel's controversial ending calls into question traditional assumptions about the role of women both in fiction and society, and about what constitutes

'civilization'. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

The classic, award-winning novel, made famous by Steven Spielberg's film, tells of a young boy's struggle to survive World War II in China. Jim is separated from his parents in a world at war. To survive, he must find a strength greater than all the events that surround him. Shanghai, 1941 -- a city aflame from the fateful torch of Pearl Harbor. In streets full of chaos and corpses, a young British boy searches in vain for his parents. Imprisoned in a Japanese concentration camp, he is witness to the fierce white flash of Nagasaki, as the bomb bellows the end of the war...and the dawn of a blighted

world. Ballard's enduring novel of war and deprivation, internment camps and death marches, and starvation and survival is an honest coming-of-age tale set in a world thrown utterly out of joint.
