'The world, without rain, is drying up. Rivers are a

trickle and we see the shrivelling of the species far from its sources and headed lemming-like for the sea. Time has burst its dams and seeps inside the race-structure with bizarre results A strange and rather wonderful book full of haunting landscapes, phantasmagoria and disaster that clangs on the mind. "They say young love isn't real. It's only our bodies full of raging hormones, and our minds filled with lust that make us think we are in love. I can tell them that they're wrong. Young love is real. It can, and it does exist, at least in my seventeen year old life. ... This is my journey after my accident to figure out who I am and who I was. The road to recovery isn't easy but the one thing that

stayed with me after the accident was the soft voice and words that I'd never forget."--Page 4 of cover.

If You Dare Sara Creasy

I'm a sinner with no regrets. I'm a man with no shame. I'm a lover with no soul. What am I? You're a loner with no friends. You're a beggar with no place to go. You're a face with no name. Who are you? It doesn't really matter what I am or who you are. Everyone has sin in common. But I pride myself on doing it better. Through the eyes of another, I am envied. If they only knew the wrath I have endured. Greed can be a motherfucker, but it is what makes us

strive to be better. Lust can make you burn, but without it you would freeze to death. Some of us are a glutton for punishment and want to feel the pain that reminds us we're still alive rather than overcome by sloth. The lure of these seven deadly sins is like an addiction. And I intend to indulge in each of these unforgivable sins.

Today's moviegoers and critics generally consider some Hollywood products--even some blockbusters--to be legitimate works of art. But during the first half century of motion pictures very

few Americans would have thought to call an American movie "art." Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In *Hollywood Highbrow*, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea

that some American movies--and not just European ones--deserved to be considered art. Dentists RC Boldt Publishing, LLC
