"The best parts of you are hidden where you're most afraid to look." --Michael Benner, Fearless Intelligence "Fear is a doorway to understanding yourself better. The secret is to plumb the depth and breadth of your anxiety and confusion in relaxed levels of expanded awareness. Becoming more self-aware of your anxious feelings reveals the personal wisdom hidden within heartache and upset. "As we understand our self better, we become less alienated and more content -- calmer, happier, and more self-confident. Fewer random thoughts demand our attention. This or that occurs as this and that, and behavior becomes less reflexive -- more appropriate, even-tempered and well reasoned. Soon, defensiveness yields to acceptance, competition surrenders

to cooperation -- lines fade, borders dissolve, and your perspective expands to include the 'Wholeness' of life."
