The School Counselor ’ s Study Guide for Credentialing Exams is the only study guide on the market based on the ASCA School Counselor Competencies, CACREP Standards, NBCC NCSCE content requirements, and the NCATE and NBPTS Standards. Designed to help users build knowledge and skills that are transferrable to any test format, it can be used to prepare for the NCSCE, Praxis II School Counseling Specialty Exam, NBPTS School Counseling national certification exam, Comprehensive School Counselor Education program exams, and state certification exams for professional school counseling. Each chapter aligns with one of the eight CACREP content areas for school counseling and covers in depth the material necessary to succeed on any of the exams. Also included in each chapter are case scenarios, guided reflection questions, and actual exam practice questions. A full-length practice exam is provided at the end with answers and explanations for correct and incorrect responses. Additional resources include a glossary of important terms and lists of ethical codes and competencies for various school counseling related organizations. Students and professionals seeking a professional school counselor credential will find this to be an invaluable tool in their exam preparation.

It should go without saying that Christ is central to Christianity. Most Christians know that He is the means by which God brings human beings back into fellowship with Himself. They may also be aware that Christ is our substitute and surety, our righteousness, and our pattern and example for living. What they may not know is that, as the sinless “ second Adam, ” Christ has become the new head of the human race and that, in leaving this world, He sent His Spirit to complete the adoption process for all who receive Him (Gal. 4:6, 7). And what they also may not know is that Christ is also our Wonderful Judge, which is encouraging news headed toward final judgment. Allan Freed describes Christ ’ s roles in human redemption, how the biblical sanctuary foreshadowed the pathway of reconciliation to God, and what the believer must do to cooperate with Jesus as He finishes His heavenly sanctuary ministry. He warns about a perilous path promoted by a three-part religious union that has declared Protestantism dead, and he offers insight to get on and stay on the pathway that will take us home to God.

In an age of rising environmental concerns, it has become necessary for businesses to pay special attention to the resources they are consuming and the long-term effects of the products they are creating. These concerns, coupled with the current global economic crisis, demand a solution that includes not only business, but politics, ecology, and culture as well. The Handbook of Research on Developing Sustainable Value in Economics, Finance, and Marketing provides the latest empirical research findings on how sustainable development can work not just for organizations, but for the global economy as a whole. This book is an essential reference source for professionals and researchers in various fields including economics, finance, marketing, operations management, communication sciences, sociology, and information technology.

Psychiatrists and residents are faced with the important -- but what may feel overwhelming -- task of refreshing their knowledge of the whole of psychiatric practice, typically while remaining engaged in full-time clinical activity. Psychiatrists will find the logical structure, substantive questions, and thorough explanations provided by the Study Guide for the Psychiatry Board Examination to be as reassuring as they are educational. Although readers are advised to consult a range of resources in preparation for the examination, this guide is indispensable. It is the first and only guide to reflect the revisions contained in DSM-5®, and it will ably assume a primary role in the study and review process. The guide is designed for maximum usefulness, with specific features and attributes to support knowledge recall and successful examination performance.
* The authors are from a cross-section of accomplished students, fellows, and junior and senior faculty, all of whom have faced or will face the board examination and who understand its importance to the profession.* Topics were determined by the American Board of Psychiatry and Neurology Certification Examination in Psychiatry 2015 Content Blueprint.* The approximately 400 questions were formulated from information extracted from widely available American Psychiatric Publishing textbooks and accurately reflect the accepted psychiatric knowledge base.* Each multiple choice question is followed by an explanation of why the correct answer is correct and the others are incorrect, and every question and explanation is referenced, directing the reader to the primary material for more in-depth learning and study.* The volume was designed as a study guide for both the initial psychiatry board examination and the recertification examination. The process of working through the study guide will allow the reader to identify areas of strength and weakness, initiate further study, and test and retest knowledge, ultimately preparing for the examination's rigors. Only the Study Guide for the Psychiatry Board Examination offers support for the

new, DSM-5® -- compatible examination, and that alone renders it essential.

Moving Together: Dance and Pluralism in Canada explores how dance intersects with the shifting concerns of pluralism in a variety of racial and ethnic communities across Canada. Focusing on the twentieth and twenty-first centuries, contributors examine a broad range of dance styles used to promote diversity and intercultural collaborations.

Examples include Fijian dance in Vancouver; Japanese dance in Lethbridge; Danish, Chinese, Kathak, and Flamenco dance in Toronto; African and European contemporary dance styles in Montr é al; and Ukrainian dance in Cape Breton. Interviews with Indigenous and Middle Eastern dance artists along with an artist statement by a Bharata Natyam and contemporary dance choreographer provide valuable artist perspectives. Contributors offer strategies to decolonize dance education and also challenge longstanding critiques of multiculturalism. Moving Together demonstrates that dance is at the cutting edge of rethinking the contours of race and ethnicity in Canada and is necessary reading for scholars, students, dance artists and audiences, and everyone interested in thinking about the future of racial and ethnic pluralism in Canada.

With the ongoing expansion of outbound foreign direct investment (FDI) in the countries representing the BRICS economic bloc (Brazil, Russia, India, China, and South Africa) — and with all of them at the same time listed among the top seven countries plagued by tax evasion and avoidance in the guise of illicit out ows — the ve governments, both individually and through cooperative initiatives, have devised new international tax strategies that are proving to be of great interest and value to other countries, both developing and developed. The core of these strategies addresses the necessity of stemming the out ow of revenue while strongly supporting FDI, both inbound and outbound while complying with international obligations including those arising from human rights laws. This book is the rst in-depth commentary on this new and evolving area of international tax law. The detailed analysis covers the entire eld of BRICS international tax law, considering topics such as the following: — information exchange procedures and pitfalls; — response to the OECD ’ s Base Erosion and Pro t-Sharing (BEPS) initiative; — role of bilateral and multilateral double taxation conventions including the Multilateral Instrument and the Bilateral Investment Treaties; — thin capitalization; — transfer pricing; — controlled foreign corporation rules; — shortcomings related to authorities ’ limited manpower; — international audit and investigation procedures; — the BRICS approach to residence and mandatory and binding arbitration; and — the BRICS approach to shaping the developing world ’ s international tax system. Notably, the author personally conducted interviews with senior international representatives of the BRICS tax authorities, as well as with leading BRICS academics and practitioners. Tax cases, together with human rights and investment cases and administrative guidelines in all ve countries are also included in the analysis. The study concludes with recommendations for improving each of the ve countries ’ tax law and procedures, especially in the area of dispute resolution. The author ’ s goal is to extend the existing body of knowledge of the BRICS ’ international tax laws in order to assist in developing an understanding of the BRICS approach to dealing with evasion and avoidance: an approach which facilitates both outbound and inbound FDI, simpli es tax authority administration and establishes a basis for resolving international disputes which is compatible with sovereignty. In achieving this objective, the author has produced a major work that is of immeasurable value to tax advisers, government and governance of cials, academics and researchers both in developing international taxation strategies and in helping to resolve disputes with tax authorities.
