Scrum has the magnetic characteristic to attract the individuals and organizations to adopt Scrum and achieve high value. Flexibility, creativity and productivity not only motivate those who work on projects but also give most favorable results to the organizations. The structure and unique features of this book that can help aspirants to adopt Scrum and get certified in PSM I or PSPO I examinations are: 1. Scrum Theory: Cover everything which is part of Scrum Guide. We have not adulterated the concepts of Scrum Guide in any manner.

"Information Nuggets" are added at the end of the chapters to explain those aspects that need a little more explanation. 2. Additional Concepts: These topics are either mentioned in the Scrum Guide but not explained or are not part of Scrum Guide but are often asked in certification examinations. 3. Questions (400 Unique): This unit

has 5 Model Test Papers (MTPs). Each MTP has 80 questions. We have endeavored to minimize repetition to zero levels. These 400 questions are result of in-depth research of those who train professionals to prepare for certification examinations and those who apply Scrum Framework in organizations. Master these 400 questions to clear PSM I or PSPO I certification exam in first attempt itself. 4. Scrum Rules in Tabular Format: Scrum journey requires referring to the Scrum rules as and when required. In Scrum Guide, these rules are not given separately and are merged with the theory. It is a time-consuming and tedious exercise for users to search these rules in theory. We have simplified this tedious exercise through a tabular format.

This thoroughly updated edition of the bestselling Psychology for A2 Level has been written specifically for the new AQA-A Psychology A2-level specification for teaching from September 2009. It is the ideal follow-up to AS Level Psychology, 4th edition by the same author, but also to any AS-level textbook. This full-colour book, which builds on the ideas and insights explored at AS Level to promote a deeper understanding of psychology, is written in an engaging and accessible style by a highly experienced author. It incorporates contributions, advice and feedback from a host of A-Level teachers and psychologists including Philip Banyard, Evie Bentley, Clare Charles, Diana Dwyer, Mark Griffiths and Craig Roberts. At this level, students select options from a range of specified topics and this book includes chapters on all of the compulsory and optional topics that are on the new A2 syllabus in sufficient depth for the requirements of the course. It has a new focus on the nature and scope of psychology as a science with an emphasis on how science works, and guidance on how to engage students in practical scientific research activities. Presented in a clear, reader-friendly layout, the book is packed with advice on exam technique, hints and tips to give students the best chance possible of achieving the highest grade. The book is supported by our comprehensive package of online student and teacher resources, A2 Psychology Online. Student resources feature a wealth of multimedia materials to bring the subject to life, including our new A2 revision guide and A2 Workbook, multiple choice quizzes, revision question tips, interactive exercises and podcasts by key figures in psychology. Teacher resources include a teaching plan, chapter-by-chapter lecture presentations, and classroom exercises and activities. 40 Year-wise SBI/ IBPS/ RRB/ RBI Bank Clerk Solved Papers (2015-21) 5th Edition Stafford Valentine Redden Chapter wise and Topic wise introduction to enable quick revision.
