As the purse

---

strings tighten company costs need to be cut without this affecting performance or sales. A common solution to this problem is to restructure the organization of the company i.e. adjust the lines and boxes on the organization chart with the aim of setting it up for high performance. This inevitably fails because an organization is a system; change one aspect and other facets will also change. Organization Design: Engaging with change looks

at how to (re) design the organizational system in order to increase productivity, performance and value; providing the knowledge and methodology to design an agile organization capable of handling the kind of continuous organizational change that all businesses face. The book clarifies why and how organizations need to be in a state of readiness to design or redesign and emphasizes that people as well as business processes must be part of

design considerations. Responding to developments across the world since the first edition, this book covers, among other topics: Technology changes that have impacted upon organizations Increased demands for 'sustainability' and corporate social responsibility The pressure on organizations to be smarter, more efficient and more effective Whilst the material on this subject targets a wide management audience, this book is specifically

---

written for consultants, OD/HR practitioners and line managers working together to achieve the goal of organizational redesign for changing circumstances. Aided by a range of pedagogical features, this book is a must-read for students or practitioners involved in the field of organizational design, development and change.

*Silver Recovery from Waste Photographic Solutions by Metallic Displacement*

Majority of students choosing STEM Subjects dream to study engineering and allied studies from one of the IITs or NITs, and to pursue this dream, the student writes JEE (Main) and JEE Advanced. Moreover, JEE (Main) & JEE (Adv) are considered to be one of the most challenging Entrance

Examination in the country. And we have observed that many talented students fail to secure a seat in IITs/NITs in spite of having talent, capability and a strong will to succeed, due to lack of proper practice of taking an exam in actual examination conditions. To overcome this, a student should do sufficient practice by taking similar tests several times before the FINAL exam so that student develops all requisite competitive skills to get success in the final examination. With this objective in mind, we are presenting this book before you containing full syllabus tests as per the latest pattern. These tests will give you an exact feel of

---

the paper before the FINAL test. Salient features of the book are- Relevant & high-quality Test Papers prepared by highly experienced faculty members of Career Point to provide real exam like practice. Detailed solution of each test paper for self-evaluation to cross-check your question-solving approach and highlight your weak areas to improve. It familiarizes the student with the latest examination trends. Help students to plan the question paper attempt strategy to bring out the maximum output. Increases speed & accuracy and builds confidence to face the competitive examination. Develops sound examination temperament in

students to face the competitive examination with a supreme state of confidence to ensure success. The students are advised to take these tests in the prescribed time limit by creating an exam like environment at home. Additionally, after taking the test, the student should properly analyze the solutions and must think of alternative methods & linkage to the solutions of identical problems. Also, find your weak areas for further improvement. We firmly believe that the book in this form will help a genuinely hardworking student. We have put our best efforts to make this book error-free. However, if you find errors that may have crept in, we would

appreciate it if brought to our notice.

Additionally, we wish to utilize the opportunity to place on record our special thanks to all the members of the Content Development team for their efforts to create this excellent book.
