The Water Wars William H Sadlier

Winner of the National Book Award for Young People's Literature, the Michael L. Printz Award, and the Pura Belpré Award! Fans of Jacqueline Woodson, Meg Medina, and Jason Reynolds will fall hard for this astonishing New York Times-bestselling novel-in-verse by an award-winning slam poet, about an Afro-Latina heroine who tells her story with blazing words and powerful truth. Xiomara Batista feels unheard and unable to hide in her Harlem neighborhood. Ever since her body grew into curves, she has learned to let her fists and her fierceness do the talking. But Xiomara has plenty she wants to say, and she pours all her frustration and passion onto the pages of a leather notebook, reciting the words to herself like prayers—especially after she catches feelings for a boy in her bio class named Aman, who her family can never know about. With Mami's determination to force her daughter to obey the laws of the church, Xiomara understands that her thoughts are best kept to herself. So when she is invited to join her school's slam poetry club, she doesn't know how she could ever attend without her mami finding out. But she still can't stop thinking about performing her poems. Because in the face of a world that may not want to hear her, Xiomara refuses to be silent. "Crackles with energy and snaps with authenticity and voice." —Justina Ireland, author of *Dread Nation* "An incredibly potent debut." —Jason Reynolds, author of the National Book Award Finalist *Ghost* "Acevedo has amplified the voices of girls en el barrio who are equal parts goddess, saint, warrior, and hero." —Ibi Zoboi, author of *American Street* This young adult novel, a selection of the Schomburg Center's Black Liberation Reading List, is an excellent choice for accelerated tween readers in grades 6 to 8. Plus don't miss Elizabeth Acevedo's *With the Fire on High* and *Clap When You Land*!

Working With Numbers Holt Rinehart & Winston

Welcome to a future where water is more precious than oil or gold... Hundreds of millions of people have already died, and millions more will soon fall—victims of disease, hunger, and dehydration. It is a time of drought and war. The rivers have dried up, the polar caps have melted, and drinkable water is now in the hands of the powerful few. There are fines for wasting it and prison sentences for exceeding the quotas. But Kai didn't seem to care about any of this. He stood in the open road drinking water from a plastic cup, then spilled the

remaining drops into the dirt. He didn't go to school, and he traveled with armed guards. Kai claimed he knew a secret—something the government is keeping from us... And then he was gone. Vanished in the middle of the night. Was he kidnapped? Did he flee? Is he alive or dead? There are no clues, only questions. And no one can guess the lengths to which they will go to keep him silent. We have to find him—and the truth—before it is too late for all of us.
