There are very few coaches held higher esteem than Bo Schembechler. As coach of the University of Michigan football team, he won 13 Big Ten titles and finished as the winningest coach in their storied history. But beyond the wins and losses, Bo is best remembered for the remarkable impact he had on his players and fans alike. In *Bo's Lasting Lessons*, the coach draws on his years of experience, using first-person anecdotes to deliver timeless lessons on leadership, motivation and responsibility. His distinctive gruff voice leaps from the page. With pithy

language, Bo explains that true leadership requires the compassion to actively listen to your people, and then to have the courage to do what is right every time. A big believer in peer pressure and in always making his players accountable for their actions, Schembechler has coached athletes who went on to become professional football players, doctors, lawyers and CEOs.

With over a million copies sold, *Economics in One Lesson* is an essential guide to the basics of economic theory. A fundamental influence on modern libertarianism, Hazlitt defends capitalism and the free market from economic myths that persist to this day.

Considered among the leading economic thinkers of the "Austrian School," which includes Carl Menger, Ludwig von Mises, Friedrich (F.A.) Hayek, and others, Henry Hazlitt (1894-1993), was a libertarian philosopher, an economist, and a journalist. He was the founding vice-president of the Foundation for Economic Education and an early editor of *The Freeman* magazine, an influential libertarian publication. Hazlitt wrote *Economics in One Lesson*, his seminal work, in 1946. Concise and instructive, it is also deceptively prescient and far-reaching in its efforts to dissemble economic fallacies that are so prevalent they have almost become a new orthodoxy. Economic commentators across the political spectrum have credited Hazlitt with

foreseeing the collapse of the global economy which occurred more than 50 years after the initial publication of *Economics in One Lesson*. Hazlitt's focus on non-governmental solutions, strong — and strongly reasoned — anti-deficit position, and general emphasis on free markets, economic liberty of individuals, and the dangers of government intervention make *Economics in One Lesson* every bit as relevant and valuable today as it has been since publication.

"Learn About the United States" is intended to help permanent residents gain a deeper understanding of U.S. history and government as they prepare to become citizens. The product presents 96 short lessons, based on the sample questions from which the civics portion of the naturalization test is drawn. An audio CD that allows students to listen to the questions, answers, and civics lessons read aloud is also included. For immigrants preparing to naturalize, the chance to learn more about the history and government of the United States will make their journey toward citizenship a more meaningful one.

A concise survey of the culture and civilization of mankind, *The Lessons of History* is the result of a lifetime of research from Pulitzer Prize-winning historians Will and Ariel Durant. With their accessible compendium of philosophy and social progress, the Durants take us on a journey through history, exploring the possibilities and limitations of humanity over time. Juxtaposing the great lives, ideas, and accomplishments with cycles of war and conquest, the Durants reveal the towering themes of history and give meaning to our own.

The third edition of *Vis-à-vis* continues the excitement of the innovative second edition with a fully integrated and revised multimedia package and updated cultural information presented in the *Correspondance* feature (chapter opening letter, postcard, or e-mail, which is answered in the mid-lesson *Correspondance* cultural spread) and in the new *Bienvenue dans le monde francophone* feature that recurs after every four chapters in the text. The overall goal of the revision remains the same as that of the second edition: to promote a balanced four-skills approach to learning French through a wide variety of listening, speaking, reading, and writing activities, while

introducing students to the richness and diversity of the Francophone world.

Doing well with money isn't necessarily about what you know. It's about how you behave.

And behavior is hard to teach, even to really smart people. Money—investing, personal finance, and business decisions—is typically taught as a math-based field, where data and formulas tell us exactly what to do. But in the real world people don't make financial decisions on a spreadsheet. They make them at the dinner table, or in a meeting room, where personal history, your own unique view of the world, ego, pride, marketing, and odd incentives are scrambled together. In *The Psychology of Money*, award-winning author Morgan Housel shares 19 short stories exploring the strange ways people think about

money and teaches you how to make better sense of one of life's most important topics.
