A prerequisite for good entrepreneurial management is an enterprising attitude on the part of the people involved. Productivity of an organization can only be improved with proper management. The influences of family, social institutions, governance and leadership also play a significant role in the management of an organization. Common managerial challenges such as competition, resource scarcity, shortage of power and capital, technology upgradation and cost of production require the attention of policy makers. Creating and developing an entrepreneurial mindset in people, would help an organization face all challenges to enhancing the life of a product in the marketplace. To motivate people and achieve growth, leaders are required to navigate both internal and external conflicts. Consequently, the role of entrepreneurial leadership and management becomes important for students as well as entrepreneurs. All these issues are dealt with in this volume on entrepreneurial management consisting of 14 papers, written by management professionals, faculty, research scholars, consultants and administrators.

New technologies have the power to augment many aspects of society, including public spaces and art. The impact of smart technology on urban design is vast and filled with opportunity and has profound implications on the everyday urban environment. Only by starting new conversations can we develop further contemporary insights that will affect how we move through the world. Reconstructing Urban Ambiance in Smart Public Places is a pivotal reference source that provides contemporary insights into a comprehensive interpretation of urban ambiances in smart places as it relates to the development of cities or to various levels of intervention in extant urban environments. The book also examines the impact of architectural design on the creation of urban ambience in artworks and how to reflect this technique in the fields of professional architectural practice. While covering a wide range of topics including wellbeing, quality-related artistry, and atmosphere, this publication combines smart technological innovation with creative design principles. This book is ideally designed for civil engineers, urban designers, architects, entrepreneurs, policymakers, researchers, academicians, and students.

Auditing and Cost Accounting IGI Global

This book highlights the impacts of COVID-19 on the global economy, at a time when the world economy has experienced large demand and supply shocks. To limit the transmission of the corona virus, all governments shut down production, restricted movement of people, etc, which led to severe curtailment in demand, and disruptions in supply chains all over the world. The COVID-19 pandemic has dragged the world economy into an abrupt and unforeseen recession. According to IMF estimates, world GDP will fall by over 3 percent due to the outbreak of this pandemic - the steepest slowdown since the Great Depression of the 1930s. The ILO has predicted a loss of about 25 million jobs due to this pandemic. Emerging markets will lose at least 2.4 percent of their GDP in 2020 alone. Loss in global travel revenue due to COVID-19 is estimated at USD 810.7 billion. Financial markets have been badly hit and about USD 83 billion has been pulled out of developing markets since the outbreak of COVID-19. The list of sectors impacted by the COVID-19 outbreak, is endless All governments have announced stimulus packages comprising a mix of fiscal and monetary measures, but it is difficult to predict how quickly businesses will respond to these measures. The papers in this book, which are the proceedings of an online global conference, have attempted to analyze and summarize the thoughts of academicians on these vexed issues.

Knowledge updating is a never-ending process and so should be the revision of an effective textbook. The book originally written fifty years ago has, during the intervening period, been revised and reprinted several times. The authors have, however, been thinking, for the last few years that the book needed not only a thorough revision but rather a substantial rewriting. They now take great pleasure in presenting to the readers the twelfth, thoroughly revised and enlarged, Golden Jubilee edition of the book. The subject-matter in the entire book has been re-written in the light of numerous criticisms and suggestions received from the users of the earlier editions in India and abroad. The basis of this revision has been the emergence of new literature on the subject, the constructive feedback from students and teaching fraternity, as well as those changes that have been made in the syllabi and/or the pattern of examination papers of numerous universities.
