Pushing the Limits Springer

The advent and implementation of European colonialism have disrupted innumerable epistemological geographies around the globe. Countless cultural ways of knowing and local educational practices have in some way been displaced and dislocated within the universalizing project of the Euro-Colonial Empire. This book revisits the colonial relations of culture and education, questions various embedded imperial procedures and extricates the strategic offerings of local ways of knowing which resisted colonial imposition.

The contributors of this collection are concerned with the ways in which colonial education forms the governing edict for local peoples. In *The Politics of Cultural Knowledge*, the authors offer an alternative reading of conventional discussions of culture and what counts as knowledge concerning race, class, gender, sexuality, identity, and difference in the context of the Diaspora.

It's Valentine's Day, but Macy Rodgers isn't feeling the love. Aside from a torrid, one-night fling in a backseat a few months ago, her love life has been sorely lacking. Fortunately, she has devious friends who feel like playing Cupid.

Wouldn't they be shocked to learn that the match they've made for her is the same one that steamed up the back of that '69 GTO... Seth "Ghost" Warren has just returned to town after an extended absence. Between his grandmother's failing health, his job as a tattoo artist, his band's gigs, and an ex that won't leave him alone, he's stretched thin. Cautious cowgirl Macy is the last thing he needs thrown into the mix. She's all country, he's all heavy metal—and Macy knows that if anyone can propel her out of her rut, it's Seth. The Net Generation Has Arrived. Are you ready for it? Chances are you know a person between the ages of 11 and 30. You've seen them doing five things at once: texting friends, downloading music, uploading videos, watching a movie on a two-inch screen, and doing who-knows-what on Facebook or

MySpace. They're the first generation to have literally grown up digital--and they're part of a global cultural phenomenon that's here to stay. The bottom line is this: If you understand the Net Generation, you will understand the future. If you're a Baby Boomer or Gen-Xer: This is your field guide. A fascinating inside look at the Net Generation, *Grown Up Digital* is inspired by a \$4 million private research study. New York Times bestselling author Don Tapscott has surveyed more than 11,000 young people. guidelines for educators to tap the Net Gen potential Parenting 2.0: There's no place like the new home Citizen Net: How young people and the Internet are transforming democracy Today's young people are using technology in ways you could never imagine. Instead of passively watching television, the "Net Geners" are actively participating in the distribution of entertainment and information. For the first time in history, youth are the authorities on something really important. And they're changing every aspect of our society—from the workplace to the marketplace, from the classroom to the living room, from the voting booth to the Oval Office. The Digital Age is here. Grand Expectations Springer Science & Business Media
The relationship between race and capitalism is one of the most enduring and controversial historical debates. The concept of racial capitalism offers a way out of this impasse. Racial capitalism is not simply a permutation, phase, or stage in the larger history of

capitalism—since the beginning of the Atlantic slave trade and the colonization of the Americas, capitalism, in both material and ideological senses, has been racial, deriving social and economic value from racial classification and stratification.

Although Cedric J. Robinson popularized the term, racial capitalism has remained undertheorized for nearly four decades. *Histories of Racial Capitalism* brings together for the first time distinguished and rising scholars to consider the utility of the concept across historical settings. These scholars offer dynamic accounts of the relationship between social relations of exploitation and the racial terms through which they were organized, justified, and contested. Deploying an eclectic array of methods, their works range from indigenous mortgage foreclosures to the legacies of Atlantic-world maroons, from imperial expansion in the continental United States and beyond to the racial politics of municipal debt in the New South, from the ethical complexities of Latinx banking to the postcolonial dilemmas of

extraction in the Caribbean. Throughout, the contributors consider and challenge how some claims about the history and nature of capitalism are universalized while others remain marginalized. By theorizing and testing the concept of racial capitalism in different historical circumstances, this book shows its analytical and political power for today ' s scholars and activists. One of our country's premier cultural and social critics, bell hooks has always maintained that eradicating racism and eradicating sexism must go hand in hand. But whereas many women have been recognized for their writing on gender politics, the female voice has been all but locked out of the public discourse on race. *Killing Rage* speaks to this imbalance. These twenty-three essays are written from a black and feminist perspective, and they tackle the bitter difficulties of racism by envisioning a world without it. They address a spectrum of topics having to do with race and racism in the United States: psychological trauma among African Americans; friendship between black women and white women; anti-Semitism and racism; and internalized racism in movies and the media. And in the title essay, hooks writes about the "killing rage"—the fierce anger of black people stung by repeated instances of everyday racism—finding in that rage a healing source of love and strength and a catalyst for positive change. bell hooks is Distinguished Professor of

English at City College of New York. She is the author of the memoir *Bone Black* as well as eleven other books. She lives in New York City.

The Reader's Companion to U.S. Women's History *Entangled: Amara* South Africa possesses one of the richest popular music traditions in the world - from marabi to mbaqanga, from boeremusiek to bubblegum, from kwela to kwaito. Yet the risk that future generations of South Africans will not know their musical roots is very real. Of all the recordings made here since the 1930s, thousands have been lost for ever, for the powers-that-be never deemed them worthy of preservation. And if one peruses the books that exist on South African popular music, one still finds that their authors have on occasion jumped to conclusions that were not as foregone as they had assumed. Yet the fault lies not with them, rather in the fact that there has been precious little documentation in South Africa of who played what, or who recorded what, with whom, and when. This is true of all music-making in this country, though it

is most striking in the musics of the black communities. *Beyond Memory: Recording the History, Moments and Memories of South African Music* is an invaluable publication because it offers a first-hand account of the South African music scene of the past decades from the pen of a man, Max Thamagana Mojapelo, who was situated in the very thick of things, thanks to his job as a deejay at the South African Broadcasting Corporation. This book - astonishing for the breadth of its coverage - is based on his diaries, on interviews he conducted and on numerous other sources, and we find in it not only the well-known names of recent South African music but a countless host of others whose contribution must be recorded if we and future generations are to gain an accurate picture of South African music history of the late 20th and early 21st centuries. Watch Me Fall Sourcebooks, Inc. Seth and Macy Warren haven't been married long, but they have their eyes on the future. Macy is excited to start a family, while Seth

Until she comes face-to-face with a part of Seth ' s past that she'd hoped to never deal with again. Macy knows she shouldn't have her doubts. But she also knows that when you have everything, you have everything to lose. Each book in the Ross Siblings series is

societies to colonialism and borderlands studies- is the first collection of comparative and transnational work on women in the Canadian and U.S. Wests. It explores, expands, and advances the aspects of women's history that cross national borders. Out of the talks presented at the 2002 "Unsettled Pasts: Reconceiving the West through Women's History," Elizabeth Jameson and Sheila McManus have edited a foundational text for pioneering scholars of this emergent, interdisciplinary field. "We are stepping into unfamiliar territory." This unfamiliar territory is the borderlands of women ' s histories traversing the American and Canadian Wests. Specialists in women ' s history, settler societies, colonialism, storytelling, education, and native and borderlands studies introduced by Elizabeth Jameson and Sheila McManus pool their distinct contributions toward forging the very first comparative, transnational collection of its kind. "We cannot build bridges across unmapped divides." Sixteen essays arising from the

"Unsettled Past: Reconceiving the West through Women's History" conference at the University of Calgary comprise this foundational text. One Step Over the Line is not only the map; it is the bridgework to span the transnational, gendered divide—a must for readers who have been searching for a wide, inclusive perspective on our western past.
