Unstoppable is an inspirational autobiography and personal development book grounded in the authors Christian faith. It follows the story of Inga Lizdenyt, a woman who transformed her life after a tragic car accident, where the chances stacked against her proved all but insurmountable. From being incapable of speaking or moving or doing anything independently, to traveling from Europe and moving to the United States, the book emerges as a valuable testimony to the power of God. After her accident, Inga landed in a world she never knew could exist. Her destiny had been crushed and she stood at the crossroads: to give in or to fight. Inga chose to reclaim her life. Yet the lesson learned was that even when matters seem on the way to redemption, the worst can occur. With only steps away from achieving the impossible, everything for Inga had been destroyed all over again. The fruits of her hard work and her continuous efforts were ruined. Realizing that its not events or the choices of others that can break her, with the Lords intervention, Inga picked herself up and continued her journey in spite of the odds. Intended to inspire and ignite faith, Unstoppable becomes more than a harrowing account, it is a book that reveals; it inescapably touches the heart, but delves as well into the secrets that kept Inga going, equipping readers with the knowledge to break through their own hardships, overcome their obstacles, and to achieve the goals most important to the life theyve been chosen to live.

Just as World War II called an earlier generation to greatness, so the climate crisis is calling today's rising youth to action: to create a better future. In UNSTOPPABLE, Bill Nye crystallizes and expands the message for which he is best known and beloved. That message is that with a combination of optimism and scientific curiosity, all obstacles become opportunities, and the possibilities of our world become limitless. With a scientist's thirst for knowledge and an engineer's vision of what can be, Bill Nye sees today's environmental issues not as insurmountable, depressing problems but as chances for our society to rise to the challenge and create a cleaner, healthier, smarter world. We need not accept that transportation consumes half our energy, and that two-thirds of the energy you put into your car is immediately thrown away out the tailpipe. We need not accept that dangerous emissions are the price we must pay for a vibrant economy and a comfortable life. Above all, we need not accept that we will leave our children a planet that is dirty, overheated, and depleted of resources. As Bill shares his vision, he debunks some of the most persistent myths and misunderstandings about global warming. When you are done reading, you'll be enlightened and empowered. Chances are, you'll be smiling, too, ready to join Bill and change the world. In Unstoppable: Harnessing Science to Change the World, the New York Times bestselling author of Undeniable: Evolution and the Science of Creation and former host of "Bill Nye the Science Guy" issues a new challenge to today's generation: to make a cleaner, more efficient, and happier world. Praise for UNDENIABLE: "With his charming, breezy, narrative style, Bill empowers the reader to see the natural world as it is, not as some would wish it to be. He does it right. And, as I expected, he does it best." -Neil deGrasse Tyson, Ph.D, host of COSMOS "Bill Nye, 'the Science Guy,' has become a veritable cultural icon....[T]he title of his new book on evolution...[is] 'Undeniable,' because, yes, there are many Americans who still deny what Darwin and other scientists long ago proved." -Frank Bruni, The New York Times "With a jaunty bow tie and boyish enthusiasm, Bill Nye the Science Guy has spent decades decoding scientific topics, from germs to volcanoes, for television audiences....In his new book, Nye delights in how [evolution] helps to unlock the mysteries of everything from bumblebees to human origins to our place in the universe." -National Geographic "When it comes to Bill Nye, 'Science Guy' doesn't even begin to cover it. When he's not being summoned to act as a voice of reason for news outlets or leading meetings as CEO of the Planetary Society, he is living the life of a best-selling author....His recently published book, 'Undeniable: Evolution and the Science of Creation,' enlightens readers while using a conversational, educational tone. After all, it's his ability to break down even the most complicated topics into bite-size pieces that made him such a hit on his '90s children's show 'Bill Nye, the Science Guy.'" -The Boston Globe "Mr. Nye writes briskly and accessibly...[and] makes an eloquent case for evolution."-The Wall Street Journal "Because [Bill Nye is] a scientist, he has no doubts that the 'deniers' of evolution are flat wrong. And because he's a performer, his book is fun to read and easy to absorb." -The Washington Post "Ignite your inner scientist when Nye, known for delivering geeky intel with clarity and charm, takes on one of society's most hotly debated topics (yes, still)." -Time Out New York

"The powerful and inspiring story of an all-American wrestler who defied the odds. Anthony Robles is a three-time all-American wrestler, the 2011 NCAA National Wrestling Champion, and a Nike-sponsored athlete. He was also born without his right leg. Doctors could not explain to his mother, Judy, what led to the birth defect, but at the age of five, the one-legged toddler scaled a six-foot pole unassisted. From that moment on, Judy knew

without a doubt that her son would be unstoppable. When Anthony first began wrestling in high school, he was the smallest kid on the team and finished the year in last place. Yet Anthony's family and coaches supported his decision to continue, and he completed his junior and senior years with a 96-0 record to become a two-time Arizona State champion. In college, Anthony had to prove all over again that he could excel. Despite hardships on and off the mat--including the temptation to quit school and get a job to help his family when they lost their home to foreclosure--Anthony focused his determination and became a champion once again. Since winning the national championship in March 2011, Anthony has become a nationally recognized role model to kids and adults alike. But Unstoppable is not just an exciting sports memoir or an inspirational tale of living with a disability. It is also the story of one man whose spirit and unyielding resolve remind us all that we have the power to conquer adversity--in whatever form"--

"After five years of groundbreaking research, Ori Brafman and Rod A. Beckstrom share some gripping stories. The Starfish and the Spider argues that organizations fall into two categories: traditional "spiders," which have a rigid hierarchy and top-down leadership, and revolutionary "starfish," which rely on the power of peer relationships. This book explores what happens when starfish take on spiders (such as the music industry vs. Napster, Kazaa, and the P2P services that followed). It reveals how established companies and institutions, from IBM to Intuit to the U.S. government, are also learning how to incorporate starfish principles to achieve success."--BOOK JACKET.
