Blood and Iron (American Empire, Book One) Del Rey

In the story of an alternate World War II that considers what might have happened if Chamberlain had chosen not to appease Hitler, the Germans fight with England and France to defeat Russia, while the United States struggles in a war against Japan.

Worldwar Ballantine Books

Russia, Communist China, Japan, Nazi Germany, the United States: they began World War II as mortal enemies. But suddenly their only hope for survival--never mind victory--was to unite to stop a mighty foe--one whose frightening technology appeared invincible. Far worse beings than the Nazis were loose. From Warsaw to Moscow to China's enemy-occupied Forbidden City, the nations of the world had been forced into an uneasy alliance since humanity began its struggle against overwhelming odds. In Germany, where the banshee wail of hostile jets screamed across the land, caches of once-forbidden weapons were unearthed, and unthinkable tactics were employed against the enemy. Brilliantly innovative military strategists confronted challenges unprecedented in the history of warfare. Even as lack of fuel forced people back to horse and carriage, physicists worked feverishly to create the first nuclear bombs--with horrifying results. City after city joined the atomic pyre as the planet erupted in fiery ruins. Yet the crisis continued--on land, sea, and in the air--as humanity writhed in global combat. The tactics of daredevil guerrillas everywhere became increasingly ingenious against a superior foe whose desperate retaliation would grow ever more fearsome. No one had ever put the United States, or the world, in such deadly danger. But if the carnage and annihilation ever stopped, would there be any pieces to pick up? "From the Hardcover edition.

Hitler's War Houghton Mifflin Harcourt

This unique volume offers a definitive new history of European economies at war from 1914 to 1918. It studies how European economies mobilised for war, how existing economic institutions stood up under the strain, how economic development influenced outcomes and how wartime experience influenced post-war economic growth. Leading international experts provide the first systematic comparison of economies at war between 1914 and 1918 based on the best available data for Britain, Germany, France, Russia, the USA, Italy, Turkey, Austria-Hungary and the Netherlands. The editors' overview draws some stark lessons about the role of economic development, the importance of markets and the damage done by nationalism and protectionism. A companion volume to the acclaimed *The Economics of World War II*, this is a major contribution to our understanding of total war.

Out of Ashes Tor Books

As the Spanish civil war drags on and the United States fights Japan in the Pacific, Nazi Germany fights Russia in Eastern Europe as new nationalist powers arise.

Upsetting the Balance (Worldwar, Book Three) Pickle Partners Publishing

This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.

Fallout Oxford University Press, USA

"The most shocking fiction I have read in years. What is shocking about it is both the idea and the sheer imaginative brilliance with which Mr. Shute brings it off." THE SAN FRANCISCO CHRONICLE They are the last generation, the innocent victims of an accidental war, living out their last days, making do with what they have, hoping for a miracle. As the deadly rain moves ever closer, the world as we know it winds toward an inevitable end....

Prince of the North Vintage

A great leader rises when forced to defend his troubled lands against an onslaught of monsters in the second book of this remarkable fantasy series featuring Gerin the Fox Peace in the North has been fragile and tentative in the five years since the terrible Werenight, when the light of four full moons transformed men into beasts. Now cut off completely from the Elabon Empire, the land is in violent dispute, squabbled over by minor barons hungry for greater power. Gerin the Fox is one of the few who stand firm against the encroaching chaos, but his own life has been violently shaken, first by a heartless betrayal and then by the kidnapping of his young son. Having angered a vengeful deity, he cannot look to the gods for support. Yet it is Gerin to whom the people must turn when an earthquake tears their land open, undoing an ancient warding spell and releasing a host of ravaging beasts from the dark underground. The stunning sequel to *Werenight*, Hugo Award-winning author Harry Turtledove's *Prince of the North* is a magnificent work of fantasy fiction. The master builder of wondrous worlds and alternate histories works his literary sorcery once again in this richly imagined tale of war, magic, gods, and monsters.

Civil Affairs Macmillan

The year is 1597. For nearly a decade, the island of Britain has been under the rule of King Philip in the name of Spain. The citizenry live under an enforced curfew—and in fear of the Inquisition's agents, who put heretics to the torch in public displays. And with Queen Elizabeth imprisoned in the Tower of London, the British have no symbol to unite them against the enemy who occupies their land. William Shakespeare has no interest in politics. His passion is writing for the theatre, where his words bring laughter and tears to a populace afraid to speak out against the tyranny of the Spanish crown. But now Shakespeare is given an opportunity to pen his greatest work—a drama that will incite the people of Britain to rise against their persecutors—and change the course of history.

American Airpower Comes Of Age—General Henry H. "Hap" Arnold's World War II

Diaries Vol. II [Illustrated Edition] Del Rey

In the pantheon of air power spokesmen, Giulio Douhet holds center stage. His writings, more often cited than perhaps actually read, appear as excerpts and aphorisms in the writings of numerous other air power spokesmen, advocates-and critics. Though a highly controversial figure, the very controversy that surrounds him offers to us a testimonial of the value and depth of his work, and the need for airmen today to become familiar with his thought. The progressive development of air power to the point where, today, it is more correct to refer to aerospace power has not outdated the notions of Douhet in the slightest. In fact, in many ways, the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision. Douhet, together with Hugh "Boom" Trenchard of Great Britain and William "Billy" Mitchell of the United States, is justly recognized as one of the three great spokesmen of the early air power era. This reprint is offered in the spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book, published in 1921. Readers may well find much that they disagree with in this book, but also much that is of enduring value. The vital necessity of Douhet's central vision—that command of the air is all important in modern warfare—has been proven throughout the history of wars in this century, from the fighting over the Somme to the air war over Kuwait and Iraq.

The Mueller Report Hodder & Stoughton

"Blood and Iron is a masterpiece." —Sci Fi Weekly *World War I—The Great War*—has ended, and an uneasy peace reigns around the world. Nowhere is it more fragile than on the continent of North America, where bitter enemies share a single landmass and two long, bloody borders. In the North, proud Canadian nationalists try to resist the colonial power of the United States. In the South, the once-mighty Confederate States have been pounded into poverty and merciless inflation. The time is right for madmen, demagogues, and terrorists. With Socialists rising to power in the U.S., and a dangerous fanatic in the Confederacy preaching a doctrine of hate, more than enough people are eager to return the world to war. "A master storyteller as well as a trained historian with an imagination . . . [Turtledove] has succeeded in taking title as the premier writer in [alternate history], relentlessly asking what if one or two key events in our reality happened differently. The result is fascinating." —Houston Chronicle "Turtledove is a master at weaving details of ordinary life into a much bigger canvas to produce a world that so easily could have been our own. [It] is what keeps readers coming back for more." —Tulsa World

Integration of the Armed Forces, 1940-1965 Cambridge University Press

"It is absolutely unique—without question the most fascinating Civil War novel I have ever read." Professor James M. McPherson Pulitzer Prize-winning *BATTLE CRY OF FREEDOM* January 1864--General Robert E. Lee faces defeat. The Army of Northern Virginia is ragged and ill-equipped. Gettysburg has broken the back of the Confederacy and decimated its manpower. Then, Andries Rhodie, a strange man with an unplaceable accent, approaches Lee with an extraordinary offer. Rhodie demonstrates an amazing rifle: Its rate of fire is incredible, its lethal efficiency breathtaking—and Rhodie guarantees unlimited quantities to the Confederates. The name of the weapon is the AK-47.... Selected by the Science Fiction Book Club A Main Selection of the Military Book Club

The Guns of the South Del Rey

A stroke of the pen and history is changed. In 1938, British prime minister Neville Chamberlain, determined to avoid war, signed the Munich Accord, ceding part of Czechoslovakia to Hitler. But the following spring, Hitler snatched the rest of that country, and England, after a fatal act of appeasement, was fighting a war for which it was not prepared. Now, in this thrilling alternate history, another scenario is played out: What if Chamberlain had not signed the accord? In this action-packed chronicle of the war that might have been, Harry Turtledove uses dozens of points of view to tell the story: from American marines serving in Japanese-occupied China and ragtag volunteers fighting in the Abraham Lincoln Battalion in Spain to an American woman desperately trying to escape Nazi-occupied territory—and witnessing the war from within the belly of the beast. A tale of powerful leaders and ordinary people, at once brilliantly imaginative and hugely entertaining, *Hitler's War* captures the beginning of a very different World War II—with a very different fate for our world today. BONUS: This edition contains an excerpt from Harry Turtledove's *The War that Came Early: West and East*.

The Cambridge History of the First World War. 3 Volume Hardback Set National Geographic Books

Set in Canada and the battlefields of France and Belgium, *Three-Day Road* is a mesmerizing novel told through the eyes of Niska—a Canadian Ojibwe woman living off the land who is the last of a line of healers and diviners—and her nephew Xavier. At the urging of his friend Elijah, a Cree boy raised in reserve schools, Xavier joins the war effort. Shipped off to Europe when they are nineteen, the boys are marginalized from the Canadian soldiers not only by their native appearance but also by the fine marksmanship that years of hunting in the bush has taught them. Both become snipers renowned for their uncanny accuracy. But while Xavier struggles to understand the purpose of the war and to come to terms with his conscience for the many lives he has ended, Elijah becomes obsessed with killing, taking great risks to become the most accomplished sniper in the army. Eventually the harrowing and bloody truth of war takes its toll on the two friends in different, profound ways. Intertwined with this account is the story of Niska, who herself has borne witness to a lifetime of death—the death of her people. In part inspired by the legend of Francis Pegahmagabow, the great Indian sniper of World War I, *Three-Day Road* is an impeccably researched and beautifully written story that offers a searing reminder about the cost of war.

Worldwar Article 19

The war between humans halted as the great military powers scrambled to meet an even deadlier foe. Already, Berlin and Washington had been wiped out and the US and the Axis territories lay under the invaders' control. Yet humanity refused to surrender.

Two Fronts Upsetting the Balance (Worldwar, Book Three)

A documentary history with brief narrative introductions illustrating the evolution of civil affairs policy and practice in the Mediterranean and European theaters.

Bombs Away Del Rey

From the master of alternate history comes an epic of the second Civil War. It was an epoch of glory and success, of disaster and despair. . . . 1881: A generation after the South won the Civil War, America writhed once more in the bloody throes of battle. Furious over the annexation of key Mexican territory, the United States declared total war against the Confederate States of America in 1881. But this was a new kind of war, fought on a lawless frontier where the blue and gray battled not only each other but the Apache, the outlaw, the French, and the English. As Confederate General Stonewall Jackson again demonstrated his military expertise, the North

struggled to find a leader who could prove his equal. In the Second War Between the States, the times, the stakes, and the battle lines had changed--and so would history. . .

On War Ballantine Books

What if V-E Day hadn't ended World War II in Europe? What if, instead, the Allies had to face a potent, even fanatical, postwar Nazi resistance? Such a movement, based in the fabled Alpine Redoubt, was in fact a real threat, ultimately neutralized by Germany's flagging resources and squabbling officials. But had SS Obergruppenführer Reinhard Heydrich, the notorious Man with the Iron Heart, not been assassinated in 1942, fate might have taken a different turn. In this imagined world, Nazi forces launch a guerrilla war, using the quick and dirty tactics of terrorism to overturn what seemed to be a decisive victory. Suddenly the Allies—especially the United States—are mired in a long, seemingly unwinnable conflict while battling an invisible, unrelenting enemy.

The Great War Ballantine Books

"Readers who choose the book for the attraction of Navajo code talking and the heat of battle will come away with more than they ever expected to find."—Booklist, starred review

Throughout World War II, in the conflict fought against Japan, Navajo code talkers were a crucial part of the U.S. effort, sending messages back and forth in an unbreakable code that used their native language. They braved some of the heaviest fighting of the war, and with their code, they saved countless American lives. Yet their story remained classified for more than twenty years. But now Joseph Bruchac brings their stories to life for young adults through the riveting fictional tale of Ned Begay, a sixteen-year-old Navajo boy who becomes a code talker. His grueling journey is eye-opening and inspiring. This deeply affecting novel honors all of those young men, like Ned, who dared to serve, and it honors the culture and language of the Navajo Indians. An ALA Best Book for Young Adults "Nonsensational and accurate, Bruchac's tale is quietly inspiring..."—School Library Journal

A World of Difference Pickle Partners Publishing

"Turtledove is the standard-bearer for alternate history." —USA Today The novels of Harry Turtledove show history balancing on single moments: One act of folly. One poor decision. One moment of rage. In this astounding new series, the unthinkable has come to pass. The Cold War turns hot—and the United States and the Soviet Union unleash their nuclear arsenals upon each other. Millions die. Millions more are displaced. Germans battle side by side with Americans, Polish freedom fighters next to Russian fascists. The genie is out of the bottle. And there's no telling what fresh hell will come next. At the heart of *Fallout* are Harry Truman and Josef Stalin. Even as Joe McCarthy rises in power, the U.S. president is focused elsewhere, planning to cut off the head of the Soviet threat by taking out Stalin. It's a daring gambit, but the Soviets have one of their own. Meanwhile, Europe's weak sisters, France and Italy, seem poised to choose the winning side, while China threatens to overrun Korea. With Great Britain ravaged and swaths of America in ruins, leaders are running out of options. When the United States drops another series of bombs to slow the Russian advance in Europe, Stalin strikes back—with horrifying results. These staggering events unfold through the eyes of a sprawling cast of characters: a Holocaust survivor in a displaced persons camp in Washington; the wife of a bomber pilot and her five-year-old daughter starting a new existence; a savage Soviet fighter waging war by his own rules; a British pub owner falling in love with an American pilot. In the masterly hands of Harry Turtledove, this epic chronicle of war becomes a story of human struggle. As the armies of the world implode, the next chapter will be written by the survivors—those willing to rise up for an uncertain future. Praise for *Fallout* "Turtledove proves, yet again, that he is the best when it comes to rewriting history!" —Suspense Magazine "Turtledove, the master of alternate history, has done well again." —Shelf Awareness "No one writes alternate-history novels quite like Turtledove. . . . Expect epic political stakes as well as personal and heartfelt stories of war." —BookTrib

Sun Tzu and the Art of Modern Warfare Ballantine Books

Short stories consider how history might have been different if its greatest generals had commanded each other's armies
