Each chapter of the
How the End
Beginsdeconstructs
the dangers we face.

Rosenbaum begins by showing all the ways the post-Cold War order that tried to impose a set of rules of averting a nuclear mistake has fallen apart. In chapter 2, he describes the journey of one Bruce Blair,

once a missile launcher, whose experience inside the nuclear establishment left him alarmed about its vulnerabilities. Chapter 3 looks at nuclear war from the Russian side, using the architect of that nation's early warning system as a focus. Chapter 4 looks at how the Bush Administration helped pushed the world closer to a nuclear conflict by rewriting the rules of deterrence. Chapter 5 describes all the ways the international incidents we have seen - Georgia, the Israeli raid on Syria, the Iranian moves - are evidence that some governments have shown a willingness to move closer to the brink of a conflict involving

nuclear weapons. The rest of the book looks at the broader nuclear issues facing the world in the 21st century: What is deterrence? Who can claim to have it? How many nuclear weapons can we live with? Is zero really possible? In other words: Can we undream the nightmare?

The Victorious Opposition (American

Empire, Book

Three) Del Rey

“[A] colossal and brilliant saga . . .

[This novel] may be the strongest and most compelling since

the opener, *How Few Remain*.”—Publishers Weekly

(starred review)

Seventy years

have passed since the first War Between the States. Jake Featherston, leader of the ruling Freedom Party, has won power in the South—and is taking his country and the world to the edge of an abyss.

Charismatic and shrewd, he is whipping the Confederate States into a frenzy of hatred. Blacks are being rounded up and sent to prison camps, and the persecution has just begun. As the North stumbles

through a succession of leaders, Featherston is

feeling his might. With the U.S.A. locked in a bitter, bloody occupation of Canada, facing an intractable rebellion in Utah, and fatigued from a war in the Pacific against Japan, Featherston may pursue one dangerous proposition above all: that he can defeat the U.S.A. in an all-out war. Praise for *The Victorious Opposition* "Turtledove's Great War/American Empire" series is an epic achievement, a meticulously worked-out alternate history of

the twentieth century's great two-act tragedy. . . Bravo! A fine performance by a master-craftsman."—S. M. Stirling, author of *Island in the Sea of Time* "Anyone who loves history will love what Harry Turtledove can do with it."—Larry Bond, *New York Times* bestselling author of *Red Phoenix* *The Origins of the World War* Baen In the years following World War II the health and well-being of the nation was of primary concern to the British government. The essays in this

collection examine the relationship between health and stress in post-war Britain through a series of carefully connected case studies. *A World of Difference* Del Rey In his acclaimed novels of alternate history, Harry Turtledove has scrutinized the twisted soul of the twentieth century, from the forces that set World War I in motion to the rise of fascism in the decades that followed. Now, this masterly storyteller turns his eyes to the aftermath of World War II and asks: In an era of nuclear

posturing, what if the Cold War had suddenly turned hot? Bombs Away begins with President Harry Truman in desperate consultation with General Douglas MacArthur, whose control of the ground war in Korea has slipped disastrously away. MacArthur recognizes a stark reality: The U.S. military has been cut to the bone after victory over the Nazis—while China and the USSR have built up their forces. The only way to stop the Communist surge into the Korean Peninsula and save thousands of American lives is through a nuclear attack. MacArthur advocates a strike on

Chinese targets in Manchuria. In actual history, Truman rejected his general's advice; here, he does not. The miscalculation turns into a disaster when Truman fails to foresee Russia's reaction. Almost instantly, Stalin strikes U.S. allies in Europe and Great Britain. As the shock waves settle, the two superpowers are caught in a horrifying face-off. Will they attack each other directly with nuclear weapons? What countries will be caught in between? The fateful global drama plays out through the experiences of ordinary people—from a

British barmaid to a Ukrainian war veteran to a desperate American soldier alone behind enemy lines in Korea. For them, as well as Truman, Mao, and Stalin, the whole world has become a battleground. Strategic strikes lead to massive movements of ground troops. Cities are destroyed, economies ravaged. And on a planet under siege, the sounds and sights of nuclear bombs become a grim harbinger of a new reality: the struggle to survive man's greatest madness. Praise for Bombs Away "A fascinating and compelling story of

real people caught in forces beyond their control . . . [Harry Turtledove is] the unrivaled monarch of alternate history. ” —Analog

“ Turtledove is an undisputed centerpiece of the alternate-history genre, and now, to his already grand display, he ’ s adding the ambitious tale of a WWII that could have happened. ” —Booklist

“ This is Turtledove at his best. ” —SFRevu

“ Alternate-world warrior extraordinaire Turtledove delivers the opening barrage of a new speculative conflict. ” —Kirkus Reviews

Breakthroughs (The Great War, Book

Three) Baen Books

When the Viking lander on the planet Minerva was destroyed, sending back one last photo of a strange alien being, scientists on Earth were flabbergasted. And so a joint investigation was launched by the United States and the Soviet Union, the first long-distance manned space mission, and a symbol of the new peace between the two great rivals. Humankind's first close encounter with extraterrestrials would be history in the making, and the two teams were schooled in diplomacy as well as in science. But

nothing prepared them for alien war—especially when the Americans and the Soviets found themselves on opposite sides. . . . Praise for A World of Difference “ A master storyteller. ” —Houston Chronicle “ [Harry] Turtledove has proved he can divert his readers to astonishing places. he's developed a cult following over the years. . . . I know I'd follow his imagination almost anywhere. ” —San Jose Mercury News

“ Turtledove never tires of exploring the paths not taken, bringing to his storytelling a prodigious knowledge of his

subject and a profound understanding of human sensibilities and motivations. ”
—Library Journal
How The End Begins
Pocket Books
Includes the Aerial Warfare In Europe During World War II illustrations pack with over 180 maps, plans, and photos. Gen Henry H. “ Hap. ” Arnold, US Army Air Forces (AAF) Chief of Staff during World War II, maintained diaries for his several journeys to various meetings and conferences throughout the conflict. Volume 1 introduces Hap Arnold, the setting for five of his journeys, the diaries he kept, and evaluations of those journeys and their consequences.

General Arnold ’ s travels brought him into strategy meetings and personal conversations with virtually all leaders of Allied forces as well as many AAF troops around the world. He recorded his impressions, feelings, and expectations in his diaries. Maj Gen John W. Huston, USAF, retired, has captured the essence of Henry H. Hap Arnold—the man, the officer, the AAF chief, and his mission. Volume 2 encompasses General Arnold ’ s final seven journeys and the diaries he kept therein. The Supreme Command Del Rey
I. Before Sarajevo: underlying causes of the war.--II. After Sarajevo: immediate causes of the war.
The Great War:

Walk in Hell Del Rey
Herman Wouk's sweeping epic of World War II, which begins with THE WINDS OF WAR and continues in WAR AND REMEMBRANCE, stands as the crowning achievement of one of America's most celebrated storytellers. Like no other books about the war, Wouk's spellbinding narrative captures the tide of global events - the drama, the romance, the heroism and the tragedy of World War II - as it immerses us in the lives of a single American family drawn into the very centre of the

maelstrom. "First-rate storytelling." - New York Times
"Compelling . . . A panoramic, engrossing story." - Atlantic Monthly
"The depth of the detail Wouk brought to bear on his subjects was impressive" - Financial Times
"Wouk is a matchless storyteller with a gift for characterization, an ear for convincing dialogue, and a masterful grasp of what was at stake in World War II." - San Francisco Chronicle
Fox and Empire Ballantine Books
A description of General Eisenhower's wartime command,

focusing on the general, his staff, and his superiors in London and Washington and contrasting Allied and enemy command organizations.
The Winds of War
Microscope Publications Limited
As the sun gleamed off the gilded domes of Videssos the city, Abivard, marshal of Makuran and son of Godarz, pondered the impossible. How could he carry out the command of Sharbaraz, King of Kings, to destroy the invincible Empire of

Videssos? Then, against all expectations, the Emperor of Videssos invaded Makuran itself. Abivard was thrust on the defensive, forced homeward to drive the invaders from the fabled land of the Thousand Cities. Abivard needed not only his greatest battle skills but his most powerful magicians, for no one doubted that Videssian military strategy would be accompanied by the finest sorcery. Yet even as reality reversed itself and renegades plotted Abivard's ruin, the undaunted warrior

vowed never to surrender...
Beneath a Scarlet Sky
Hachette UK
Frederick Radcliff is a descendant of the family that founded Atlantis's first settlement, and his grandfather Victor led the army against England to win the nation's independence. But he is also a black slave, unable to prove his lineage and forced to labour on a cotton plantation in the southern region of the country. Frederick feels the colour of his skin shouldn't keep him from having the same freedom his ancestors fought and died to win for themselves. And when fate presents him with the opportunity to throw off his shackles once and for all, he

becomes the leader of a revolutionary army of black and red slaves determined to free all of his brethren across Atlantis.
Noninterference
Del Rey
This study takes on one of the most difficult strategic decisions the Army faces today: how to plan for an uncertain and volatile future. In the context of Army force posture in Europe, these decisions are complicated by limited resources and by an evolving adversary that can employ asymmetric means to neutralize the impact of investments the

Army makes today. In an effort to ensure Army capabilities endure over the long term and prevail in the event of conflict, the Army is implementing multidomain operations (MDO), which describes how the Army can compete with or, if necessary, defeat, an adversary across all domains, as part of the Joint Force. Conceived this way, MDO is more than simply Joint operations. MDO describes how the Army will fight alongside the other services in the air, land, sea, space, and cyber domains.

To this end, the study avoids specifying a particular force posture. Much work has already been done regarding the best course of action for defeating an adversary under worst-case conditions. This study does not seek to recreate that analysis but to draw on it to examine the kinds of strategic decisions that need to be made to account for the various trade-offs any particular force posture would entail. Moreover, this study tries to avoid the bottom-up approach

described in other studies. For example, rather than reviewing whether the Army should consider the Polish offer to station US forces, the study seeks to determine top-down frameworks that would illustrate the various tradeoffs making such a decision would entail. In this way, the study's authors seek to provide a map to navigate these decisions to provide an effective deterrent and, failing that, a response to potential Russian aggression, while preserving global

flexibility to respond to what might be greater threats to the security of the United States, its Allies, and its partners in other regions.

[Striking the Balance](#)

Good Press

Alliances have shaped grand strategy and warfare since the dawn of civilization. Indeed, it is doubtful that the United States of America would have gained its independence without its Revolutionary War alliance with France.

Such alliances may prove even more important to international security in the twenty-first century. Economic and financial difficulties alone will ensure that policy makers attempt to

spread the burden of securing vital interests onto other nations through alliances, both formal organizations such as NATO and informal alliances of convenience as developed to wage the Gulf War in 1991. A team of leading historians examine the problems inherent in alliance politics and relationships in the framework of grand strategy through the lens of history. Aimed at not just the military aspects of alliances, the book uncovers the myriad factors that have made such coalitions succeed or fail in the past.

Homeward Bound
Vintage

This three-volume study examines the questions raised by the performance of

the military institutions of France, Germany, Russia, the United States, Great Britain, Japan, and Italy in the period from 1914 to 1945. Leading military historians deal with the different national approaches to war and military power at the tactical, operational, strategic, and political levels. They form the basis for a fundamental re-examination of how military organizations have performed in the first half of the twentieth century. Volume 3 covers World War II.

Volumes 1 and 2 address address World War I and the interwar period, respectively. Now in a new edition, with a new introduction by the editors, these classic volumes will remain invaluable for military historians and social scientists in their examination of national security and military issues. They will also be essential reading for future military leaders at Staff and War Colleges. Blood and Iron (American Empire, Book One) Cambridge University Press In 1942, two

nations switch sides—and World War II takes a horrifying new course. In the real world, England and France allowed Adolf Hitler to gobble up the Sudetenland in 1938. Once Hitler finished dismembering Czechoslovakia, he was ready to go to war over Poland a year later. But Hitler had always been eager to seize Czechoslovakia, no matter the consequences. So what if England and France had stood up to the Nazis from the start, and not eleven months later? That is the question behind the the United States, England, and France do what they can to strengthen themselves against imminent danger. Seen through the eyes of ordinary citizens caught in the maelstrom, this is a you-are-there chronicle of battle on land and sea and in the air. Here are terrifying bombing raids that shatter homes, businesses, and the rule of law. Here are commanders issuing orders that, once given, cannot be taken back. And here are the seeds of rebellion sown in blood-soaked soil. In a war in which

sides are switched and allies trust one another only slightly more than they trust their mortal enemies, Nazi Germany has yet to send its Jews to death camps, and dangerous new nationalist powers arise in Eastern Europe. From thrilling submarine battles to the horror of men fighting men and machines all through Europe, *Two Fronts* captures every aspect of a brilliantly reimagined conflict: the strategic, the political, and the personal force of leaders bending nations to their

wills. BONUS: This edition includes an excerpt from Harry Turtledove's *The War That Came Early: Last Orders. Praise for Two Fronts* “ [Harry] Turtledove has another major twist in store for the readers and his alternative world. ” —SF Site “ Turtledove ’ s new variation on the theme of WWII is departing more and more from the original, sometimes in subtle ways and sometimes in less subtle ones. . . . What ’ s next is anybody ’ s guess, except that it will almost certainly be more surprises. ”

—Booklist “ Turtledove is the standard-bearer for alternate history. ” —USA Today Praise for Harry Turtledove “ If you like alternate histories, you ’ re going to like this series a lot. ” —The San Diego Union-Tribune “ Turtledove is the standard-bearer for alternate history. ” —USA Today [American Front \(The Great War, Book One\)](#) Del Rey When the Survey Service first came to Bilbeis IV, it found a planet inhabited by humanoid aliens just on the verge of civilization. Then

compassion overcame common sense, and David Ware did the one thing the Service prohibited - he interfered. Just a little. But when the Survey Service returned 1,500 years later, it discovered just what David Ware's meddling had done. The bureaucrats of the Survey Service could not afford to allow just a breach of Noninterference to be publicized. So they set out to cover it up. Reports were destroyed, files erased, and people eliminated. For the future of the Survey Service was at stake - and so was the future of Bilbeis IV. Stress in Post-War Britain, 1945 – 85 National Geographic Books Facing an invasion by the Gradi and their fierce gods, Gerin,

ruler of Fox Keep, invokes all the supernatural help he can from the god Mavrix, the aloof but powerful Biton, and the more elemental gods beneath the ground. Meanwhile, other conflicts are arising to complicate matters. Bring the Jubilee Macmillan What if V-E Day hadn ' t ended World War II in Europe? What if, instead, the Allies had to face a potent, even fanatical, postwar Nazi resistance? Such a movement, based in the fabled Alpine Redoubt, was in fact a real threat, ultimately neutralized by Germany ' s flagging resources and squabbling officials. But had SS Obergruppenführer Reinhard Heydrich,

the notorious Man with the Iron Heart, not been assassinated in 1942, fate might have taken a different turn. In this imagined world, Nazi forces launch a guerrilla war, using the quick and dirty tactics of terrorism to overturn what seemed to be a decisive victory. Suddenly the Allies – especially the United States – are mired in a long, seemingly unwinnable conflict while battling an invisible, unrelenting enemy. 1861 BoD – Books on Demand In Harry Turtledove's third novel in the Darkness series, a young Kaunian girl is forced to remain hidden while her Forthwegian savior braves the rough, A

Igarvian-controlled streets to earn their keep. The scholars of Kuusamo are no closer to understanding the bloodless magic that may win the war-and time is short. Kuusamo has joined into an unsteady alliance with Lagoas and Unkerlant. No one kingdom trusts another, but they must unite, for it is only together that they can defeat the Algarvian threat. The war is no longer confined to soldiers and sorcerers. Common folk are joining together to fight from underneath their oppressors, whether they be Algarve or Unkerlant. What those farmer soldiers lack in skill, they make up for in dedication. A dedication that will carry them . . . through the darkness.
