Upside-Down Brilliance: The Visual Spatial Learner Dr. Linda Kreger Silverman delivers a blueprint for parenting, teaching and living with these delightfully different beings. It is also a manual for discovering and honoring your own hidden gifts. Add a comment to this entry

[What is a Visual Spatial Learner? - Living Life and Learning](#)

Linda Kreger Silverman, author of Upside-down Brilliance, describes

VSLs in this way: "The visual spatial learner thrives on complexity, yet struggles with easy material; loves difficult puzzles, but hates drill and repetition; is great at geometry and physics, but poor at phonics and spelling. She has keen visual memory, but poor auditory memory; is creative and imaginative, but inattentive ...

ii): strategies for teaching visual-spatial learners The higher a child ' s IQ, the more likely that child is to be a visual-spatial learner.

Visual-Spatial Resource

I ' ve put a hold on Upside-down brilliance: The visual spatial learner by Dr. Linda Silverman at my library which is essentially a textbook on VSLs and how to teach them, I can ' t wait to read it. As far as I know from what I have read, VSLs mostly use the right side of their brains, as opposed to auditory sequential thinkers who use the left ...
