Leonard Moore has been teaching Black history for twenty-five years, mostly to white people. Drawing on decades of experience in the classroom and on college campuses throughout the South, as well as on his own personal history, Moore illustrates how an understanding of Black history is necessary for everyone. With *Teaching Black History to White People*, which is “ part memoir, part Black history,

part pedagogy, and part how-to guide, ” Moore delivers an accessible and engaging primer on the Black experience in America.

He poses provocative questions, such as “ Why is the teaching of Black history so controversial? ” and “ What came first: slavery or racism? ” These questions don ’ t have easy answers, and Moore insists that embracing discomfort is necessary for engaging in open and honest conversations about race. Moore includes a syllabus and other tools for actionable steps that white people can take to move beyond performative justice and toward racial reparations, healing, and reconciliation.
