This book re-presents the poetry of Rudyard Kipling in the form of bold slogans, the better for us to reappraise the meaning and import of his words and his art. Each line or phrase is thrust at the reader in a manner that may be inspirational or controversial... it is for the modern consumer of this recontextualization to decide. They are words to provoke: to action. To inspire. To recite. To revile. To reconcile or reconsider the legacy and benefits of colonialism. Compiled and presented by sloganist Dick Robinson, three poems are included, complete and uncut: 'White Man's Burden', 'Fuzzy-Wuzzy' and 'If'.

The Atlanta Compromise was an address by African-American leader Booker T. Washington on September 18, 1895. Given to a predominantly White audience at the Cotton States and International Exposition in Atlanta, Georgia, the speech has been recognized as one of the most important and influential speeches in American history. The compromise was announced at the Atlanta Exposition Speech. The primary architect of the compromise, on behalf of the African-Americans, was Booker T. Washington, president of the Tuskegee Institute. Supporters of Washington and the Atlanta compromise were termed the "Tuskegee Machine." The agreement was never written down. Essential elements of the agreement were that blacks would not ask for the right to vote, they would not retaliate against racist behavior, they would tolerate segregation and discrimination, that they would receive free basic education, education would be limited to vocational or industrial training (for instance as teachers or nurses), liberal arts education would be prohibited (for instance, college education in the classics, humanities, art, or literature). After the turn of the 20th century, other black leaders, most notably W. E. B. Du Bois and William Monroe Trotter - (a group Du Bois would call The Talented Tenth), took issue with the compromise, instead believing that African-Americans should engage in a struggle for civil rights. W. E. B. Du Bois coined the term "Atlanta Compromise" to denote the agreement. The term "accommodationism" is also used to denote the essence of the Atlanta compromise. After Washington's death in 1915, supporters of the Atlanta compromise gradually shifted their support to civil rights activism, until the modern Civil rights movement commenced in the 1950s. Booker Taliaferro Washington (April 5, 1856 - November 14, 1915) was an African-American educator, author, orator, and advisor to presidents of the United States. Between 1890 and 1915, Washington was the dominant leader in the African-American community. Washington was of the last generation of black American leaders born into slavery and became the leading voice of the former slaves and their descendants, who were newly oppressed by disfranchisement and the Jim Crow discriminatory laws enacted in the post-Reconstruction Southern states in the late 19th and early 20th centuries. In 1895 his Atlanta compromise called for avoiding confrontation over segregation and instead putting more reliance on long-term educational and economic advancement in the black community.

Taken from "The Talented Tenth" written by W. E. B. Du Bois: The Negro race, like all races, is going to be saved by its exceptional men. The problem of education, then, among Negroes must first of all deal with the Talented Tenth; it is the problem of developing the Best of this race that they may guide the Mass away from the contamination and death of the Worst, in their own and other races. Now the training of men is a difficult and intricate task. Its technique is a matter for educational experts, but its object is for the vision of seers. If we make money the object of man-training, we shall develop money-makers but not necessarily men; if we make technical skill the object of education, we may possess artisans but not, in nature, men. Men we shall have only as we make manhood the object of the work of the schools-intelligence, broad sympathy, knowledge of the world that was and is, and of the relation of men to it-this is the curriculum of that Higher Education which must underlie true life. On this foundation we may build bread winning, skill of hand and quickness of brain, with never a fear lest the child and man mistake the means of living for the object of life.

A leading economic historian traces the evolution of American capitalism from the colonial era to the present—and argues that we’ve reached a turning point that will define the era ahead. “A monumental achievement, sure to become a classic.”—Zachary D. Carter, author of *The Price of Peace* In this ambitious single-volume history of the United States, economic historian Jonathan Levy reveals how capitalism in America has evolved through four distinct ages and how the country’s economic evolution is inseparable from the nature of American life itself. The Age of Commerce spans the colonial era through the outbreak of the Civil War, and the Age of Capital traces the lasting impact of the industrial revolution. The volatility of the Age of Capital ultimately led to the Great Depression, which sparked the Age of Control, during which the government took on a more active role in the economy, and finally, in the Age of Chaos, deregulation and the growth of the finance industry created a booming economy for some but also striking inequalities and a lack of oversight that led directly to the crash of 2008. In *Ages of American Capitalism*, Levy proves that capitalism in the United States has never been just one thing. Instead, it has morphed through the country’s history—and it’s likely changing again right now. “A stunning accomplishment . . . an indispensable guide to understanding American history—and what’s happening in today’s economy.”—Christian Science Monitor “The best one-volume history of American capitalism.”—Sven Beckert, author of *Empire of Cotton*

John Adams (October 30 1735 - July 4, 1826) was the second president of the United States (1797-1801), having earlier served as the first vice president of the United States (1789-1797). An American Founding Father, Adams was a statesman, diplomat, and a leading advocate of American independence from Great Britain. Well educated, he was an Enlightenment political theorist who promoted republicanism, as well as a strong central government, and wrote prolifically about his often seminal ideas-both in published works and in letters to his wife and key adviser Abigail Adams. Adams was a lifelong opponent of slavery, having never bought a slave. In 1770 he provided a principled, controversial, and successful legal defense to the British soldiers accused in the Boston Massacre, because he believed in the right to counsel and the "protect[ion] of innocence." Adams came to prominence in the early stages of the American Revolution. A lawyer and public figure in Boston, as a delegate from Massachusetts to the Continental Congress, he played a leading role in persuading Congress to declare independence. He assisted Thomas Jefferson in drafting the Declaration of Independence in 1776, and was its primary advocate in the Congress. Later, as a diplomat in Europe, he helped negotiate the eventual peace treaty with Great Britain, and was responsible for obtaining vital governmental loans from Amsterdam bankers. A political theorist and historian, Adams largely wrote the Massachusetts Constitution in 1780, which together with his earlier Thoughts on Government, influenced American political thought. One of his greatest roles was as a judge of character: in 1775, he nominated George Washington to be commander-in-chief, and 25 years later nominated John Marshall to be Chief Justice of the United States. Adams' revolutionary credentials secured him two terms as George Washington's vice president and his own election in 1796 as the second president. During his one term as president, he encountered ferocious attacks by the Jeffersonian Republicans, as well as the dominant faction in his own Federalist Party led by his bitter enemy Alexander Hamilton. Adams signed the controversial Alien and Sedition Acts, and built up the army and navy especially in the face of an undeclared naval war (called the "Quasi-War") with France, 1798-1800. The major accomplishment of his presidency was his peaceful resolution of the conflict in the face of Hamilton's opposition. In 1800, Adams was defeated for re-election by Thomas Jefferson and retired to Massachusetts. He later resumed his friendship with Jefferson. He and his wife founded an accomplished family line of politicians, diplomats, and historians now referred to as the Adams political family. Adams was the father of John Quincy Adams, the sixth President of the United States. His achievements have received greater recognition in modern times, though his contributions were not initially as celebrated as those of other Founders. Adams was the first U.S. president to reside in the executive mansion that eventually became known as the White House.

?? The Most Dangerous Game by Richard Connell ?? The Most Dangerous Game, also published as The Hounds of Zaroff, is a short story by Richard Connell first published in Collier's magazine on January 19, 1924. It features a big-game hunter from New York who falls off a yacht and swims to an isolated island in the Caribbean where he is hunted by a Cossack aristocrat. The story is an adaptation of the big-game hunting safaris in Africa and South America that were fashionable among wealthy Americans in the 1920s. ?? The Most Dangerous Game by Richard Connell ?? Big-game hunter Sanger Rainsford and his friend, Whitney, are traveling to the Amazon rainforest for a jaguar hunt. After a discussion about how they are "the hunters" instead of "the hunted," Whitney goes to bed and Rainsford hears gunshots. He climbs onto the yacht's rail and accidentally falls overboard, swimming to Ship-Trap Island, which is notorious for shipwrecks. On the island, he finds a palatial chateau inhabited by two Cossacks: the owner, General Zaroff, and his gigantic deaf-mute servant, Ivan. ?? The Most Dangerous Game by Richard Connell ?? Zaroff, another big-game hunter, knows of Rainsford from his published account of hunting snow leopards in Tibet. Over dinner, the middle-aged Zaroff explains that although he has been hunting animals since he was a boy, he has decided that killing big-game has become boring for him, so after escaping the Russian Revolution he moved to Ship-Trap Island and set it up to trick ships into wrecking themselves on the jagged rocks that surround it. He takes the survivors captive and hunts them for sport, giving them food, clothing, a knife, and a three-hour head start, and using only a small-caliber pistol for himself. Any captives who can elude Zaroff, Ivan, and a pack of hunting dogs for three days are set free. He reveals that he has won every hunt to date. Captives are offered a choice between being hunted or turned over to Ivan, who once served as official knouter for The Great White Czar. Rainsford denounces the hunt as barbarism, but Zaroff replies by claiming that "life is for the strong." Realizing he has no way out, Rainsford reluctantly agrees to be hunted. During his head start, Rainsford lays an intricate trail in the forest and then climbs a tree. Zaroff finds him easily, but decides to play with him as a cat would with a mouse, standing underneath the tree Rainsford is hiding in, smoking a cigarette, and then abruptly departing. ?? The Most Dangerous Game by Richard Connell ?? After the failed attempt at eluding Zaroff, Rainsford builds a Malay man-catcher, a weighted log attached to a trigger. This contraption injures Zaroff's shoulder, causing him to return home for the night, but he shouts his respect for the trap before departing. The next day Rainsford creates a Burmese tiger pit, which kills one of Zaroff's hounds. He sacrifices his knife and ties it to a sapling to make another trap, which kills Ivan when he stumbles into it. To escape Zaroff and his approaching hounds, Rainsford dives off a cliff into the sea; Zaroff, disappointed at Rainsford's apparent suicide, returns home. Zaroff smokes a pipe by his fireplace, but two issues keep him from the peace of mind: the difficulty of replacing Ivan and the uncertainty of whether Rainsford perished in his dive.
