A union list of serials commencing publication after Dec. 31, 1949.

Navy Hospital Corpsman

This book includes both Hospital Corpsman NAVEDTRA 14295 and the Advancement Handbook for Hospital Corpsman. The United States Navy training programs have long been the standard used as the pinnacle of training achievement. The Hospital Corpsman training program has been continuously tested and updated to successfully educate every member of the Navy Hospital Corps since its inception. The needs of the instructor, the student, the patient, and the Navy are perfectly balanced. This is the model all educators should follow when developing training programs.

Engineman 1 and C

The primary purpose of the United States Navy's training establishment is to provide operational forces with trained personnel who can maintain a high degree of Fleet readiness. Several offices coordinate with each other to plan for training and to determine the purposes of training within various commands. These offices are: Chief of Naval Operations (CNO); Commander, U.S. Fleet Forces Command (CUSFF); System Commands (SYSCOMS); Navy Enterprises (Type Commander; Marine Corps Combat Development Command (MCCDC); Naval Education and Training Command (NETC); and Commander, Navy Reserve Forces Command (COMNAVRESFOR).

Navy Mathematics - Basic Math and Algebra - NAVEDTRA 14139 (Nonresident Training Course)

We designed this training manual to help acquaint you with the Navy's safety and occupational health programs, their setup, management, and supervision. In addition to the Safety and Occupational Health (SOH) Program, we will discuss the Shore Safety Program, the Afloat Safety Program, the Aviation Safety Program, and your duties as a naval safety supervisor. We have provided the appropriate references for specific safety standards throughout this manual and various safety terms and acronyms. You will also find information on the following program elements: - Safety program promotion and attitudes - Mishap causes and prevention - Mishap investigation and reporting - Safety program evaluation - SOH Program elements - Traffic safety - Explosives safety - Athletic, recreation, & home safety programs

Subject Catalog

COURSE OVERVIEW: This course provides a review of basic arithmetic and continues through some of the early stages of algebra. Emphasis is placed on decimals, percentages and measurements, exponents, radicals and logarithms. Exercises are provided in factoring polynomials, linear equations, ratio, proportion and variation, complex numbers, and quadratic equations. The final assignment affords the student an opportunity to demonstrate what he or she has learned concerning plane figures, geometric construction and solid figures, and slightly touches on numerical trigonometry. THE COURSE: This self-study course is organized into subject matter areas, each containing learning objectives to help you determine what you should learn along with text and illustrations to help you understand the information. The subject matter reflects day-to-day requirements and experiences of personnel in the rating or skill area. It also reflects guidance provided by ...
