This book is ABSOLUTELY the

way to minimize the price you pay for a vehicle; and an ABSOLUTE way to minimize the interest rate; and an ABSOLUTE way to get closer to the terms you want; and an ABSOLUTE way to insure a quality vehicle in any car buying deal. If you do not know these concepts and car buying tips, you will CERTAINLY pay more for the price of the vehicle; and/or the interest rate on the vehicle will be higher; and/or the other terms will CERTAINLY work against you; and you could possibly buy a dud (bad vehicle). FURTHER, this book is short and straight to the point. This book is also very simple to follow and all the concepts are disclosed in a way that is manageable so you can master them easily and quickly and commit them to your memory or strategy and go into the car buying process with extreme CONFIDENCE and get a great deal. By now we all are aware that Dealers, Dealerships, Sales People, and Sellers of vehicle's make more when they sale the vehicle at a higher price. There is no secret that the seller's whole motivation is to sell you the vehicle at the highest price possible, and/or at the highest interest rates possible, and/or on the seller's terms. It is a very common practice in dealerships that the higher the sales person sales the vehicle for, the higher the sales person's commission. The higher the interest rate, the higher the sales person's commission. The more the sales person can convince you to sign the contract closer to his terms, the higher the sales person's commission. Therefore, it

should not be a surprise to you that you need to gain the most knowledge you can to offset the sales person's strategies and tactics and save yourself some money. Money that you can use for other things. This is just common sense. The concepts, and the explanations of these concepts, will CERTAINLY put you at a better advantage and keep the Sales Person from "eating you alive." These concepts are a "MUST KNOW." This book entails a very concise and short but thorough straight to the point step-by-step guide on how to successfully get a good deal on a vehicle. Please read the concepts below. Then, continue reading and the following pages will explain and expound on each concept and what each means in detail; so you understand each.

and styling became the main focus of automotive marketing from the postwar 1940s through the 1970s. With the expansion of the American suburbs after WWII, women suddenly needed cars of their own. By adopting the fashion industry's yearly model changes, as well as hiring many designers and stylists from the fashion industry, the automobile industry made a direct appeal to the rising sophistication and influence of women. By perfecting the fashion-centric concept of planned obsolescence, it became the dominant economic engine of American postwar prosperity. The dramatic photography, elegant fashion, and use of color and materials in midcentury automotive marketing created a groundswell of demand for new cars. Much of the marketing imagery of the period hasn't been published since it first came out, and this book features some of the best.
