*User Application
Administration
Guide*

Although the setup
must be done by
each individual

user, revoking the
secret is only
possible as a
tenant
administrator in
the Administration
application. As so,
if the user loses
the phone or
uninstalls the
application they
must contact the
tenant
administrator. From
the tenant
administrator
perspective the
process to revoke
the key is:
Navigate to the
Administration
application. Click
on the desired user
in the Users page.
Scroll down to
Login Options.
Click Revoke TOTP
secret. Confirm by

SAM Administrator Guide - SolarWinds

The User

Application Administrator performs administrative tasks for the identity applications, using the Administration page of the User Application. There can be more than one User Application Administrator. One user must be assigned to the User Application Administrator role at installation. The User Application Administrator created during installation can administer everything in the User Application including the

Provisioning system and can designate other users as User Application ...
