Comprehensive
User Guide to

Microsoft Surface Laptop GO Are you looking for a user manual that will help you SET UP and Master the Microsoft Surface Laptop GO? Are you looking for a manual that will expose you to all the amazing features of your device? Then get your hands on this book and have an amazing time using your device. The Surface Laptop Go is a new flavor of Surface. The Surface Laptop Go is petite as modern laptops go, with a

12.4-inch display, but its physical design matches the rest of the Surface Laptop 3 family, which includes larger, pricier 13.5-inch and 15-inch versions. The design includes an aluminum display lid and a polycarbonate base, available in your choice of three colors: Ice Blue, Sandstone, and Platinum. The entire package feels sturdy, well-engineered, and fitting of a laptop that costs more than its \$699 asking price. There are many other

factors that make up the overall goodness of the device. We got a chance at handling the device and we are presenting our User Guide to help you maximize your device. This book is written in simple and clear terms with a step-by-step approach and with tips and tricks that will help you to master your Microsoft Surface Laptop GO within the shortest period of time. Inside you will discover: - Tips & Tricks to Personalize and

PCMag.com is a leading authority on technology, delivering Labs-

based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology. **PC Magazine** Wiley-Blackwell This is the must-have guide for all amateur astronomers who double as makers, doers, tinkerers, problem-solvers, and inventors. In a world where an amateur astronomy habit can easily run into the many thousands of dollars, it is still possible for practitioners to get

high-quality results and equipment on a budget by utilizing DIY techniques. Surprisingly, it's not that hard to modify existing equipment to get new and improved usability from older or outdated technology, creating an end result that can outshine the pricey higher-end tools. All it takes is some elbow grease, a creative and open mind and the help of Chung's hard-won knowledge on building and modifying telescopes and cameras. With this book, it is possible

for readers to improve their craft, making their equipment more user friendly. The tools are at hand, and the advice on how to do it is here. Readers will discover a comprehensive presentation of astronomical projects that any amateur on any budget can replicate – projects that utilize leading edge technology and techniques sure to invigorate the experts and elevate the less experienced. As the "maker" community continues to

expand, it has wonderful things to offer amateur astronomers with a willingness to get their hands dirty. Tweaking observing and imaging equipment so that it serves a custom purpose can take your observing options to the next level, while being fun to boot. Business Week McGraw Hill Professional This IBM® Redpaper® publication provides a broad understanding of a new architecture of the IBM Power® E1080 (also known as the Power E1080) server that supports IBM AIX®, IBM i, and selected distributions of Linux operating systems. The objective of this

paper is to introduce the Power E1080, the most powerful and scalable server of the IBM Power portfolio, and its offerings and relevant functions: Designed to support up to four system nodes and up to 240 IBM Power10™ processor cores The Power E1080 can be initially ordered with a single system node or two system nodes configuration, which provides up to 60 Power10 processor cores with a single node configuration or up to 120 Power10

processor cores with a two system nodes configuration. More support for a three or four system nodes configuration is to be added on December 10, 2021, which provides support for up to 240 Power10 processor cores with a full combined four system nodes server. Designed to supports up to 64 TB memory The Power E1080 can be initially ordered with the total memory RAM capacity up to 8 TB. More support is to be added on December 10,

2021 to support up to 64 TB in a full combined four system nodes server. Designed to support up to 32 Peripheral Component Interconnect® (PCIe) Gen 5 slots in a full combined four system nodes server and up to 192 PCIe Gen 3 slots with expansion I/O drawers The Power E1080 supports initially a maximum of two system nodes; therefore, up to 16 PCIe Gen 5 slots, and up to 96 PCIe Gen 3 slots with expansion I/O drawer. More support is to be

added on December 10, 2021, to support up to 192 PCIe Gen 3 slots with expansion I/O drawers. Up to over 4,000 directly attached serial-attached SCSI (SAS) disks or solid-state drives (SSDs) Up to 1,000 virtual machines (VMs) with logical partitions (LPARs) per system System control unit, providing redundant system master Flexible Service Processor (FSP) Supports IBM Power System Private Cloud Solution with Dynamic Capacity This

publication is for professionals who want to acquire a better understanding of Power servers. The intended audience includes the following roles: Customers Sales and marketing professionals Technical support professionals IBM Business Partners Independent software vendors (ISVs) This paper does not replace the current marketing materials and configuration tools. It is intended as an extra source of information that, together with existing sources,

can be used to enhance your knowledge of IBM server solutions. Mike Meyers' A+ Guide to PC Hardware Lab Manual Springer Written by an experienced computer and network skills trainer, this manual features 40 labs that challenge the reader to solve real world problems by applying the concepts learned.
