Growing up in California, Dennis Severs fell in love

with the England he saw in old black and white movies. At seventeen he came to London, looking for a home with a heart. In 1979 he found one, a run-down silk-weaver's house in Spitalfields, and over the next twenty years he transformed it into an enchanted time-capsule, transporting us back to the eighteenth century. From cellar to roof, he filled 18 Folgate Street with original objects and furniture, found in the

local markets, lit by candles and chandeliers. More than that, he invented a family to live here, the Jervis family, Huguenot weavers who fled persecution in France in 1688, and bought the house in 1724. Sounds and scents bring their world to life, always just out of sight - floorboards creak, fires crackle, a kettle hisses on the hob. Visitors step through the frame of time, like entering an old master painting. As we

---

move from room to room on a tour you will never forget, we follow the Jervis story from the days of the Georges and the Regency to harsher Victorian times - and even to the attic room of Scrooge himself.

the world becomes overwhelming, Ella Risbridger focuses on the little things that bring her joy, like enjoying a glass of wine when cooking, FaceTiming with a friend whilst making bagels, and sharing recipes that are good for the soul. Chicken is a cookbook. Or, at least, you'll flick through these pages and find recipes so inviting that you will head straight for the kitchen: roast garlic and tomato soup, uplifting chilli-lemon spaghetti, charred leek lasagne, squash skillet pie, spicy fish finger sandwiches and burnt-butter brownies. It's the kind of cooking you can do a little bit drunk, that is probably better if you've got a bottle of wine open and a hunk of bread to mop up the sauce. But if you settle

down and read it with a cup of tea (or a glass of that wine), you'll also discover that it's an annotated list of things worth living for – a manifesto of moments worth living for. This is a cookbook to make you fall in love with the world again. Featuring an entire chapter on storecupboard recipes. *to Use Free Phone Apps to Unleash Your Most Important Survival Tool (2nd edition)* Springer Nature This book offers an overview of sustainability and urban mobility in the context of urban planning – topics that are of considerable interest in the development of smart cities. Environmental sustainability is universally recognized as a fundamental condition for any urban policy or urban management activity, while mobility is

essential for the survival of complex urban systems. The new opportunities offered by innovations in the mobility of people, goods and information, as well as radically changing interactions and activities are transforming cities. Including contributions by urban planning scholars, the book provides an up-to-date picture of the latest studies and innovative policies and practices in Italy, of particular interest due to its spatial, functional and social

peculiarities. Sustainability and mobility must form the basis of “smart planning” – a new dimension of urban planning linked to two main innovations: procedural innovation in the management of territorial transformations and the technological innovation of the generation, processing and distribution of data (big data) for the creation of new "digital environments" such as GIS, BIM, models of augmented and mixed reality,

useful for describing changes in human settlement in real time.

Renaissance writers, none more than Michel Eyquem de Montaigne, perhaps the first truly modern individual. A nobleman, public official and wine-grower, he wrote free-roaming explorations of his thought and experience, unlike anything written before. He called them “essays,” meaning “attempts” or “tries.” Into them, he put whatever was in his head: his tastes in wine and food, his childhood memories, the way his dog’s ears twitched when it was dreaming, as well as the appalling events of the religious civil wars

raging around him. The Essays was an instant bestseller and, over four hundred years later, Montaigne’s honesty and charm still draw people to him. Readers come in search of companionship, wisdom and entertainment—and in search of themselves. This book, a spirited and singular biography, relates the story of his life by way of the questions he posed and the answers he explored. It traces his bizarre upbringing, youthful career and sexual adventures, his travels, and his friendships with the scholar and poet

Étienne de La Boétie and with his adopted “daughter,” Marie de Gournay. And we also meet his readers—who for centuries have found in Montaigne an inexhaustible source of answers to the haunting question, “how to live?”

With this, her fiction debut, poet Silvina Ocampo initiated a personal, idiosyncratic exploration of the politics of memory, a theme to which she would return again and again over the course of her unconventional life and productive career. Praise for *Forgotten Journey*: "Ocampo is one of those rare writers who seems to write fiction almost offhandedly, but to still somehow do more in four or five pages than most writers do in twenty.
