**BEFORE YOU EVEN THINK ABOUT HANDING YOUR TEENS THE CAR KEYS, DO EVERYONE A BIG FAVOR: CRASHPROOF THEM!** Every year, six million sons and daughters will become first-time drivers. Fifty-eight percent of them will be involved in a car accident within a year of getting their license, and a significant portion of these crashes will be fatal. But here's the good news: research has shown that car crashes can be reduced by up to 30 percent when you, the parent, are actively involved in your teen's instruction and set certain limits. In *Crashproof Your Kids*, certified driving instructor and dad Timothy Smith has combined the collective wisdom of numerous experts to develop the *Crashproof Plan*: a series of behind-the-wheel exercises designed to improve your teen's driving awareness, behavior, and skill in a way that fits your schedule. Written in a highly accessible, informal, and often humorous style, this comprehensive plan begins where drivers' education programs end, and includes:

- A step-by-step plan to develop your teen's braking, car control, and defensive driving skills
- How to handle road emergencies and basic car maintenance
- Tips on helping your teen deal with dangerous distractions, including peer pressure and the use of alcohol and drugs

---

The Crashproof Contract, which outlines the expectations, responsibilities, and rules of the road for both the teen and the parent. You'll get plenty of help on how to communicate vital driving concepts to your teen, and you'll laugh, learn, and sympathize with stories from parents who have already been there. Crashproof Your Kids is an essential resource for any parents wanting to help their teenagers successfully navigate the single most dangerous activity they'll ever undertake.

A high-quality photograph may be captured with the Nikon D850, a professional digital single-lens reflex camera. The Nikon D850 is equipped with a 45.7-megapixel FX-format BSI CMOS sensor that can record 4K video and high-resolution still images. Also, it has a larger light-gathering capacity than competing DSLRs, allowing photographers to work in low-light conditions without resorting to artificial lighting. To facilitate photography in low-light situations, the camera's original ISO range of 64-25,600 may be increased to a maximum of ISO 32,00-102,400. The Nikon D850 supports many frame rates and resolutions, like as 4K UHD @ 24/25/30 fps or 1080p HD at 60/50 fps. The camera's built-in Wi-Fi and Bluetooth enable wireless file sharing and control through a mobile device.
