I've always been a good girl. I grew up in a small town, dated my high school sweetheart all the way through college, and married him. I even waited until our wedding night for my first time. Yeah, that kind of good girl. Finding my husband in bed with the church secretary came as quite a shock, needless to say.

Finding out he'd slept with just about every female in town was an even bigger shock.

Discovering those dirty little secrets is what sent me on a journey that I will never forget. Decoding China's Car Industry: 40 Years Macmillan

How far will four friends go for immortality? This novel is Hugo and Nebula Award – winning author “ Robert Silverberg at his very best ” (George R. R. Martin). After Eli, a scholarly college student, finds and translates an ancient manuscript called The Book of Skulls, he and his friends embark on a cross-country trip to Arizona in search of a legendary monastery where they hope to find the secret of immortality. On the journey with Eli, there ' s Timothy, an upper-class WASP with a trust fund and a solid sense of entitlement; Ned, a cynical poet and alienated gay man; and Oliver, a Kansas farm boy who escaped his rural origins and now wants to escape death. If they can find the House of Skulls where immortal monks allegedly reside, they ' ll undergo a rigorous initiation. But do those eight grinning skulls mean the joke will be on them? For a sacrifice will be required. Two must die so that two may live forever . . . Stretching the boundary between science fiction and horror, Robert Silverberg masterfully probes deeper existential questions of morality, brotherhood, and self-determined destiny in what Harlan Ellison refers to as “ one of my favorite nightmare novels. ” This ebook features an illustrated biography of Robert Silverberg including rare images from the author ' s personal collection. criminol3gicas Graphic Communications Group This book is an authentic multidimensional history of the car industry in China. 40 years, attempts were made to change the status quo, such as breaking the 220% tariff barrier and setting limits when opening up to international car companies. It was not until the beginning of the 21st century that ordinary people in China started to own cars. This led to rapid growth of the Chinese car industry since the 21st century. However, the industry is facing its biggest challenge due to conflict between China's economic and social values. The author, as a media person chronicling cars in China, has witnessed, experienced, and even participated in the development process of the industry. Weaving in juicy tales, interesting details, and rare pictures, the readers are taken on an exhilarating ride through the story of cars in China.

This book chronicles the divergent growth trends in car production in Belgium and Spain. It delves into how European integration, high wages, and the demise of GM and Ford led to plant closings in Belgium. Next, it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry. Finally, it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years. In sum, this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European integration and Brexit may impact future auto industry investment for all EU nations.

A story in post-apartheid

South Africa about an Indian woman and a white South African who met under strange circumstances. The white mans clan started in South Africa in the late seventeenth century between the union of a German and an Indian woman from Malabar in India. It was not strange then, but the social, economic, cultural changes since have evolved radically and relations over the colour line caused serious upheavals in both groups, especially the womans clan which still adhered to age-old customs. They both had to experience dramatic changes and adaptations.
