Through the use of ICT tools, such as the internet, portals, and telecommunication devices, the quality of healthcare has improved in local and global health; aiding in the development of a sustainable economy. Handbook of Research on ICTs and Management Systems for Improving Efficiency in Healthcare and Social Care brings together a valuable research collection on ICT

elements needed to improve communication and collaboration between global health institutes, public and private organizations, and foundations. Highlighting the adoption and success factors in the development of technologies for healthcare, this book is essential for IT professionals, technology solution providers, researchers, and students interested in technology and its relationship with healthcare and social services.

The Illustrated Guide to Assistive Technology & Devices Conceptual Kings

We are living in a world full of innovations for the elderly and people with special needs to use smart assistive technologies and smart homes to more easily perform activities of daily living, to continue in social participation, to engage in entertainment and leisure activities, and to enjoy living independently. These innovations are inspired by new technologies

leveraging all aspects of ambient and pervasive intelligence with related theories, technologies, methods, applications, and services on ubiquitous, pervasive, Aml, universal, mobile, embedded, wearable, augmented, invisible, hidden, context-aware, calm, amorphous, sentient, proactive, post – PC, everyday, autonomous computing from the engineering, business and organizational perspectives. In the field of smart homes and health telematics, significant research is underway to enable aging and disabled people to use smart assistive technologies and smart homes to foster independent living and to offer them an enhanced quality of life. A smart home is a vision of the future where computers and computing devices will be available naturally and unobtrusively anywhere, anytime, and by different means in our daily living, working, learning, business, and infotainment environments. Such a vision opens tremendous opportunities for numerous novel services/applications that are more immersive, more intelligent, and more interactive in both real and cyber spaces.

The 2010 edition of the Passive and Active Measurement Conference was the 11th of a series of successful events. Since 2000, the Passive and Active Measurement (PAM) conference has provided a forum for presenting and discussing innovative and early work in the area of Internet measurements. PAM has a tradition of being a workshop-like conference with lively discussion and active participation from all attendees. This event focuses on research and practical applications of network measurement and analysis techniques. This year's conference was held at ETH Zurich, Switzerland. PAM 2010 attracted 79 submissions. Each paper was carefully reviewed by at least three members of the Technical Program Committee. The reviewing process led to the acceptance of 23 papers. The papers were arranged in nine sessions covering the following areas: routing, transport protocols, mobile devices, topology, measurement infrastructure, characterizing network usage, analysis

techniques, traffic analysis, and the Web. We are very grateful to Endace Ltd. (New Zealand), Cisco Systems Inc. (USA), armasuisse (Switzerland) and the COST Action TMA whose sponsoring allowed us to keep registration costs low and to offer several travel grants to PhD students. We are also grateful to ETH Zurich for sponsoring PAM as a host.

HTC One (M8) For Dummies Springer

The HTC Vivid is a 4G Android smartphone, and one of the first to receive the Android 4.0 Ice Cream Sandwich update. The Ice Cream Sandwich operating system opens up new possibilities and improves the performance of the Vivid. The HTC Vivid Survival Guide organizes the wealth of knowledge about the HTC Vivid into one place, where it can be easily accessed and navigated for quick reference. This guide comes with a multitude of screenshots, which complement the step-by-step instructions and help you to realize the HTC Vivid's full potential. The HTC Vivid Survival Guide provides useful information, such as tips and tricks, hidden features, and troubleshooting advice. You will also learn how to download FREE games and FREE eBooks, and how to personalize your phone with custom ringtones and wallpapers.

Whereas the official HTC Vivid manual is stagnant, this guide goes above and beyond by discussing recent known issues and solutions that may be currently available. This information is constantly revised for a complete, up-to-date manual. This HTC Vivid guide includes, but is not limited to: Getting Started: - Button Layout - Navigating the Screens - Making Calls - Using the Speakerphone During a Voice Call - Starting a Conference Call - Managing Your Contacts - Adding a New Contact - Adding a Favorite Contact (Speed Dial) - Managing Text Messages - Adding Texted Phone Numbers to Contacts - Copying, Cutting, and Pasting Text - Using Swype - Sending Picture and Video Messages - Using the Web Browser - Managing Open Browser Windows - Managing Photos and Videos - Taking Pictures - Capturing Videos - Using the Gmail Application - Changing Gmail Options - Managing Applications - Sharing an Application - Using the Android Market to Download Applications - Reading User Reviews - Deleting an Application Advanced Topics: - Reading eBooks - Downloading thousands of free eBooks - Adjusting the Settings - Turning Vibration On and Off - Setting Alert Sounds - Changing the Wallpaper - Setting a Face Lock - Changing Keyboard Settings - Changing

Security Settings - Turning Bluetooth On and Off - Turning Wi-Fi On and Off - Turning Airplane Mode On and Off - Turning Camera Effects On or Off - Tips and Tricks - Maximizing Battery Life - Resetting Your HTC Vivid - Using your own MP3's as ringtones - Opening an incognito window in the Web browser - Troubleshooting - List of Droid-friendly websites that save you time typing in long URL's

HWM Simply Your Guide

CSISE2011 is an integrated conference concentrating its focus upon Computer Science, Intelligent System and Environment. In the proceeding, you can learn much more knowledge about Computer Science, Intelligent System and Environment of researchers all around the world. The international conference will provide a forum for engineers, scientist, teachers and all researchers to discuss their latest research achievements and their future research plan. The main role of the proceeding is to be used as an exchange pillar for researchers who are working in the mentioned field. In order to meet high standard of Springer's Advances in Intelligent and Soft Computing, the organization committee has made their efforts to do the following things. Firstly, poor quality paper has been refused after reviewing course

by anonymous referee experts. Secondly, periodically review meetings have been held around the reviewers about five times for exchanging reviewing suggestions. Finally, the conference organization had several preliminary sessions before the conference. Through efforts of different people and departments, the conference will be successful and fruitful. We hope that you can get much more knowledges from our CSISE2011, and we also hope that you can give us good suggestions to improve our work in the future.

Handbook of Research on ICTs and Management Systems for Improving Efficiency in Healthcare and Social Care Springer

The Hydrologic Engineering Center (HE) is developing next generation software for one-dimensional river hydraulics. The HEC-RAS River Analysis System is intended to be the successor to the current steady-flow HEC-2 Water Surface Profiles Program as well as provide unsteady flow, sediment transport, and hydraulic design capabilities in the future. A common data representation of a river network is used by all modeling methods, thus allowing the user to more easily migrate from steady-flow model with several significant advances over HEC-2. An overview of the Version 1 program package and some of the improved hydraulic features are presented.
